☐ **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the transition period from _____ to _____.
Commission File Number: 001-36733

AXALTA COATING SYSTEMS LTD.

(Exact name of registrant as specified in its charter)

Bermuda
(State or other jurisdiction of
incorporation or organization)

2851
(Primary Standard Industrial
Classification Code Number)

98-1073028
(I.R.S. Employer
Identification No.)

**1050 Constitution Avenue
Philadelphia, Pennsylvania 19112
(855) 547-1461**

(Address, including zip code, and telephone number, including area code, of the registrant's principal executive offices)

**50 Applied Bank Blvd
Suite 300**

Glen Mills, Pennsylvania 19342

(Former name or former address, if changed since last report)

Securities registered pursuant to Section 12(b) of the Act:

Common Shares, \$1.00 par value
(title of class)

AXTA
(Trading symbol)

New York Stock Exchange
(Exchange on which registered)

Securities registered pursuant to Section 12(g) of the Act: **None**

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act: Yes ☒ No ☐

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Act: Yes ☐ No ☒

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one): Large accelerated filer ☒ Non-accelerated filer ☐ Accelerated filer ☐ Smaller reporting company ☐ Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act ☐

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report. ☒

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements. ☐

Indicate by check mark whether any of those error corrections are restatements that required a recovery analysis of incentive-based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant to §240.10D-1(b). ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

As of June 30, 2023, the last day of the registrant's most recently completed second fiscal quarter, the aggregate market value of the registrant's common stock held by non-affiliates of the registrant was approximately \$7,253.6 million (based on the closing sale price of the common stock on that date on the New York Stock Exchange).

As of February 8, 2024, there were 220,140,111 shares of the registrant's common shares outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

Part III incorporates information by reference from the registrant's Proxy Statement for the 2024 Annual General Meeting of Members. Such proxy statement will be filed with the Securities and Exchange Commission within 120 days of the close of the registrant's fiscal year ended December 31, 2023.

PART I

ITEM 1. BUSINESS

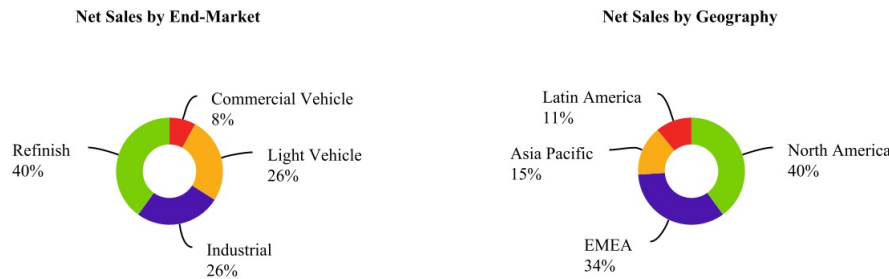

Axalta Coating Systems Ltd. ("Axalta," the "Company," "we," "our" and "us"), a Bermuda exempted holding company incorporated in 2012, is a leading global manufacturer, marketer and distributor of high-performance coatings systems. We have over a 150-year heritage in the coatings industry and are known for manufacturing high-quality products with well-recognized brands supported by market-leading technology and customer service. Over the course of our history we have remained at the forefront of our industry by continually developing innovative coatings technologies designed to enhance the performance, appearance and sustainability attributes of our customers' products, while improving their productivity and profitability.

Our diverse global footprint allows us to meet the needs of our customer base through an extensive sales force and technical support organization, as well as independent, locally-based distributors. Our scale and strong local presence are critical to our success, allowing us to leverage our technology portfolio and customer relationships globally while meeting customer demands locally. We operate our business in two operating segments, Performance Coatings and Mobility Coatings, serving four end-markets globally as highlighted below.

Axalta Coating Systems Ltd. Net Sales: \$5,184.1 million Net Income \$267.4 million Adjusted EBITDA: \$951.4 million Adjusted EBITDA Margin: 18.4%				
Segments	Performance Coatings Net Sales: \$3,407.7 million (65.7% of Sales)		Mobility Coatings Net Sales: \$1,776.4 million (34.3% of Sales)	
End-Markets	Refinish Net Sales: \$2,084.3 million % of Axalta Sales: 40.2%	Industrial Net Sales: \$1,323.4 million % of Axalta Sales: 25.5%	Light Vehicle Net Sales: \$1,340.4 million % of Axalta Sales: 25.9%	Commercial Vehicle Net Sales: \$436.0 million % of Axalta Sales: 8.4%
Focus Areas	<ul style="list-style-type: none"> • Body shops • Independent shops • Multi-shop operators • Light vehicle dealerships • Our company owned stores in EMEA & Central America 	<ul style="list-style-type: none"> • Building products • Construction • Battery solutions • Transportation • General metal finishing 	<ul style="list-style-type: none"> • Automotive light vehicle original equipment manufacturers ("OEM") and automotive plastics suppliers 	<ul style="list-style-type: none"> • Heavy duty truck ("HDT") • Medium duty truck ("MDT") • Bus • Rail • Motorcycles • Marine and aviation • Trailers • Recreational vehicles • Personal sport vehicles

The table above reflects numbers for the year ended December 31, 2023. Adjusted EBITDA Margin is calculated as Adjusted EBITDA divided by net sales. See the discussion and reconciliation of segment Adjusted EBITDA to income before income taxes in Note 20 to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K.

Net sales for our four end-markets and four regions for the year ended December 31, 2023 are highlighted below:

Note: Latin America includes Mexico. EMEA represents Europe, Middle East and Africa.

SEGMENT OVERVIEW

Performance Coatings

Through our Performance Coatings segment, we provide high-quality sustainable liquid and powder coating solutions to both large regional and global customers and to a fragmented and local customer base. These customers comprise, among others, independent or multi-shop operator body shops as well as a wide variety of industrial manufacturers. We are one of only a few suppliers with the technology to provide precise color matching and highly durable coatings systems. The end-markets within this segment are refinish and industrial.

Performance Coatings End-Markets

Refinish

Sales in the refinish end-market are driven by the number of vehicle collisions, owners' propensity to repair their vehicles, the number of miles vehicle owners drive and the size of the car parc. Although refinish coatings typically represent only a small portion of the overall vehicle repair cost, they are critical to the vehicle owner's satisfaction given their impact on appearance. As a result, body shop operators are focused on coatings manufacturers with a strong track record of performance and reliability. Body shops look for manufacturers with productivity enhancements, regulatory compliance, consistent quality, the presence of ongoing technical support and exact color match technologies. Color matching is a critical component of coatings manufacturer selection, since inexact matching adversely impacts vehicle appearance, and if repainting is required due to a poor match, it can reduce the speed and volume of repairs at a given shop. Sustainability is another important component of coatings supplier selection as the current market trend is for products that are inherently more environmentally friendly and use less energy, such as our specially-formulated waterborne and our high solids solventborne products that improve productivity and performance, while reducing the impact on the environment.

We develop, market and supply a complete portfolio of innovative coatings systems and color matching technologies to facilitate faster automotive collision repairs relative to competing technologies. Our color matching technology provides Axalta-specific formulations that enable body shops to accurately match thousands of vehicle colors, regardless of vehicle brand, color, age or supplier of the original paint during production. It would be time consuming and costly for a new entrant to create such an extensive color inventory.

Industrial

The industrial end-market comprises liquid, e-coat and powder coatings used in a broad array of end-business applications. Within the industrial end-market, we focus on the following:

- *Building Products:* Focused on the North America market, offering leading innovation for performance, style, and durability in liquid coatings serving the OEMs and aftermarket building markets, including external finishes, kitchen cabinets, flooring and furniture.
- *Construction:* Global solutions in liquid and powder coatings for applications such as window frames, structural steel, steel roofing, and metal building materials, typically used in residential, industrial, commercial, and monumental buildings. Coil coaters benefit from our performance solutions for applications serving customers producing buildings as well as appliances, lighting, garage doors, HVAC systems and trailers. Architects and designers can benefit from the advice of color experts, superior technical service and the latest trend collections available in our dedicated color experience rooms and digital tools.
- *Battery Solutions:* New innovative technologies in liquid and powder coatings for battery performance, insulation and conduction to enable innovation in the electrification and energy transition market. These new innovative technologies complement our existing solutions to insulate copper wire used in motors and transformers and our coatings insulate sheets forming magnetic circuits of motors and transformers, computer elements and other electrical devices to provide increased motor and power efficiency.
- *Transportation:* Key provider of liquid and powder coatings for vehicle components, chassis, and agricultural, construction, and earth moving equipment, that protect against corrosion, provide increased durability, and deliver a superior appearance.
- *General Metal Finishing:* Global provider of multiple technologies for a wide array of applications, including racking and shelving, metal furniture, appliances, protective coating, pipes and tubes, metal enclosures and fencing, industrial components, gutters, garage and entry doors, HVAC, metal wall panels, and power storage and electrical boxes.

Demand in this end-market is driven by a wide variety of macroeconomic factors, such as growth in GDP, new residential and commercial construction, as well as automotive and industrial production. There has also been an increase in demand for products that enhance environmental sustainability, corrosion resistance, productivity and color aesthetics, which we provide through a combination of e-coat, waterborne, solventborne, ultraviolet ("UV") and powder technologies. Customers select industrial coatings based on protection, durability, appearance and value added through technical service and solutions, which can improve customers' application sustainability and productivity.

Performance Coatings Products and Brands

We offer a comprehensive range of specially-formulated waterborne and solventborne products and systems used by the global automotive refinish industry to repair damaged vehicles. Our refinish products and systems comprise a range of coatings layers, including fillers, aerosols, and adhesives required to match the vehicle's color and appearance, producing a repair surface indistinguishable from the adjacent surface.

We provide systems that enable body shops to match more than 220,000 color variations, using a database with more than four million formulations, in the global market. Our color technology is manifested in the pigment and dispersion technology that are utilized in our tints, one of the most technologically advanced parts of the refinish coatings system, which makes up most of our products in a body shop. We have a large color library and several well-known, long-standing premium brands, including Cromax[®], Standox[®], Spies Hecker[®], Syrox[™], and Raptor[®], as well as other regional and local brands.

Our color matching and retrieval systems allow customers to quickly match any color, reducing the need for body shop technicians to repeat the color matching process, which saves time and materials. The color matching process begins with a technician scanning a damaged vehicle with one of our advanced color matching tools, such as our Acquire Plus EFX™ hand-held spectrophotometer. The Acquire Plus EFX reads the vehicle color, evaluating both the unique flake and color characteristics of the specific vehicle. These characteristics may vary significantly, even for vehicles of the same make, model and original color, due to a variety of factors, including a vehicle's age, plant at which it was assembled, weather conditions and operating history. The Acquire Plus EFX electronically connects with our ColorNet® database and generates for the body shop technician the precise mix of tints and colors needed to recreate that specific color for the part being repaired. In addition to the Acquire Plus EFX, we offer customers several other color matching tools, including our VINdicator® database, which identifies vehicle color based on its vehicle identification number, and traditional color matching fan decks.

We are also a leading global developer, manufacturer and supplier of functional and decorative liquid and powder coatings for a large number of diversified applications in the industrial end-market, including building materials, cabinet, wood and luxury vinyl flooring and furniture markets in North America. Our liquid systems are used to provide insulation and thermo-mechanical protection for electrical conductors and devices, protect automotive parts and serve as primers, basecoats, and clearcoats for alloy and steel wheels, and provide weatherability and corrosion protection for metal building and infrastructure projects. Powder coatings products, both thermoset and thermoplastic, are an environmentally responsible, higher transfer efficiency alternative to liquid coatings. These coatings are typically electrostatically sprayed using a specialized spray gun and cured to create a uniform, high-quality finish. In the oil & gas industry, our powder and liquid products are used to protect components from corrosion and severe conditions such as extreme temperatures, pressures, and harsh chemicals.

Our major industrial brands include Imron® Industrial, Tufcote™ Industrial, Corlar™ Industrial, Strenex™ Industrial, PercoTop®, Voltatex®, AquaEC™, Durapon®, Hydropon™, UNRIVALED™, and Ceranamel® for liquid coatings and Alesta®, Teodur®, Nap-Gard®, Abcite® and Plascoat® for powder coatings.

Performance Coatings Sales, Marketing and Distribution

We leverage a large global refinish sales and technical support team to effectively serve our broad refinish customer base of approximately 90,000 body shops. Most of our products are supplied by our network of approximately 4,000 independent local distributors. In select regions, including parts of Europe, we also sell directly to body-shop customers through our own points of distribution. Distributors maintain an inventory of our products to fill orders from body shops in their market and assume credit risk and responsibility for logistics, delivery and billing. In certain countries, we utilize importers that buy directly from us and actively market our products to body shops. Our relationships with our top ten distributors are longstanding and continue to contribute to our success in the global refinish market.

Our large refinish sales force manages relationships directly with our end-customers to drive demand for our products, which in turn are purchased through customers in our distributor network. Due to the local nature of the refinish industry, our sales force operates on a regional/country basis to provide clients with responsive customer service and local insight. As part of their coverage efforts, salespeople introduce new products to body shops and provide technical support and ongoing training. We currently have 49 customer training centers established globally, which helps to deepen our customer relationships.

Axalta's Refinish Sales, Marketing and Distribution Process

Our sales force also helps to drive shop productivity improvements and to install or upgrade body shop color matching and mixing equipment to improve shop profitability. Once a coating and color system is installed, a body shop almost exclusively uses its specific supplier's products. The proprietary nature of a coatings supplier's color systems, the substantial inventory needed to support a body shop and the body shop's familiarity with an established brand lead to high levels of customer retention. Our customer retentions have been and continue to be strong.

Our large direct sales team in industrial serves its end customers, driving demand which is then primarily filled directly or through channels of distribution and e-commerce. We leverage this dedicated sales force and technical service team to provide regional support and identify global innovation projects to meet the evolving market needs. In the powder coatings market, we believe we are one of only three truly global producers that can satisfy the needs and specifications of a customer in multiple regions of the world, while maximizing productivity from the broad scale and scope of our operations.

Performance Coatings Customers

Within our Performance Coatings segment, we sell coatings to customers in more than 140 countries. Our top ten customers accounted for approximately 20% of our Performance Coatings net sales during the year ended December 31, 2023.

In our industrial and refinish end-markets we serve both large OEMs and a broad, fragmented local customer base. Our industrial end-market comprises a wide variety of industrial manufacturers, while our refinish end-market primarily comprises approximately 90,000 body shops, including:

- *Independent Body Shops*: Single location body shops that utilize premium, mainstream or economy brands based on the local market.
- *Multi-Shop Operators ("MSOs")*: Body shops with more than five locations focused on providing premium paint jobs with industry leading efficiency. MSOs use premium/mainstream coatings and state-of-the-art painting technology to increase shop productivity, allowing them to repair more vehicles faster.
- *OEM Dealership Body Shops*: High-productivity body shops, located in OEM car dealerships, that operate like MSOs and provide premium services to customers using premium/mainstream coatings.

Performance Coatings Competition

Our primary competitors in the refinish end-market include AkzoNobel, BASF, PPG and Sherwin Williams, but we also compete against local and regional players in the markets we serve. Similarly, in the industrial end-market, we compete against multi-national suppliers, such as AkzoNobel, PPG and Sherwin-Williams, as well as a large number of local and regional players in the markets we serve. We believe we are one of the few performance coatings companies that can provide the customer service, total technology solutions, color design capability and product performance necessary to deliver exceptional value to our customers.

Mobility Coatings

Through our Mobility Coatings segment, we provide coatings technologies for light vehicle and commercial vehicle OEMs. These global customers are faced with evolving megatrends in electrification, sustainability, personalization and autonomous driving that require a high level of technical expertise. The OEMs require efficient, environmentally responsible coatings systems that can be applied with a high degree of precision, consistency and speed. The end-markets within this segment are light vehicle and commercial vehicle.

2023 Mobility Coatings Net Sales by End-Market

2023 Mobility Coatings Net Sales by Geography

Our solutions portfolio brings together the best of Axalta's experience and innovation into three categories: *Core Mobility Solutions*, *Advanced Mobility Solutions* and *Axalta Advantage*.

- *Core Mobility Solutions* comprises Axalta's best-in-class basecoats and clearcoats for color and beautification along with primers, electrocoats and powder applications for surface protection.
- *Advanced Mobility Solutions* encompasses products and applications for trends like sustainability, mass customization, two-tone and digital paint. It includes coatings with enhanced functionality that improve LiDAR and radar performance and exterior protection for electric vehicle platforms and components.
- *Axalta Advantage* features expert services and consulting to improve productivity in and outside the paint shop, including application design, process improvement, cost and CO2 modeling, and troubleshooting.

Mobility Coatings End-Markets

Light Vehicle

Demand for light vehicle products is driven by regional light vehicle production. Light vehicle OEMs select coatings providers based on their global ability to deliver core and advanced technological solutions that improve exterior appearance and durability and provide long-term corrosion protection. These customers also look for suppliers that offer sustainable solutions to aid in the customer portfolio transformation and can enhance process efficiency, improve productivity and provide superior technical support. Rigorous environmental and durability testing as well as obtaining engineering approvals are also key criteria used by global light vehicle OEMs when selecting coatings providers. Globally integrated suppliers are important because they offer products with consistent standards across regions and can deliver high-quality products in sufficient quantity while meeting OEM service requirements. Our global scale, people, expertise, innovative technology platforms, and customer focus position us to be a global partner and solutions provider to the most discerning and demanding light vehicle OEMs. We believe we are one of the few coatings producers that can provide OEMs with global product specifications, standardized color development, compatibility with the growing number of substrates, increasingly complex colors and environmentally-responsible coatings while continuing to simplify and reduce steps in the coating application process.

Commercial Vehicle

Sales in the commercial vehicle end-market are generated from a variety of applications, including HDT, MDT, bus and rail, motorcycles, marine and aviation, as well as related markets such as trailers, recreational vehicles and personal sport vehicles. This end-market is primarily driven by global commercial vehicle production, which is influenced by overall economic activity, government infrastructure spending, equipment replacement cycles and evolving environmental standards for sustainability.

Commercial vehicle OEMs select coatings providers on the basis of their ability to consistently deliver advanced technological solutions that improve exterior appearance, protection and durability and provide extensive color libraries and matching capabilities at the lowest total cost-in-use, while meeting stringent environmental requirements. Particularly for HDT applications, truck owners demand a significant variety of custom colors and advanced product technologies to enable custom designs. Our strong market position and growth are driven by our ability to provide customers with our market-leading brand, Imron[®], as well as leveraging our global product lines, regional knowledge and customer service.

Mobility Coatings Products and Brands

We develop and supply a complete coatings product line for light vehicle OEMs. Our products are designed to enhance the styling and appearance of a vehicle's exterior while providing protection from the elements, extending the life of the vehicle. Widely recognized in the industry for our advanced and patented technologies, we believe our products not only increase productivity and profitability for OEMs but also produce attractive and durable finishes. Our light vehicle coatings portfolio is one of the broadest in the industry.

The coatings operation is a critical component of the light vehicle assembly process, requiring a high degree of precision, speed and productivity. The paint shop process typically includes a dip process, three application zones and three high-temperature ovens that cure each coating layer at temperatures ranging from 320°F to 400°F (i.e., "high bake"). Our key products consist of the four main coatings layers: electrocoat (AquaEC[®]), primer (HyperDur[™]), basecoat (ChromaDyne[™]) and clearcoat (Lumeera[™]).

The coatings process accounts for a majority of the total energy consumed during the light vehicle manufacturing process. With that in mind, we have developed coatings technologies, including 3-Wet[™], Eco-Concept[™] and 2-Wet Monocoat[™], that help our OEM customers lower costs by reducing energy consumption and increasing productivity.

In today's existing mobility ecosystem, coatings provide essential beauty and color to vehicle bodies while extending the useful life of the vehicle via durability related properties such as chemical resistance and chip and corrosion protection. As the industry evolves, each dimension of mobility – electric vehicles, shared transportation and autonomous driving – requires coatings with advanced functionality that, in addition to aesthetics and protection, contribute to the efficiency of electrification, vehicle design, navigation and passenger safety, among other areas. Evolution within the mobility market creates tremendous opportunities for OEMs but requires them to undertake significant shifts in how they design and produce vehicles. OEMs are also increasingly looking to reduce the weight of vehicles in response to stricter vehicle emissions, fuel consumption regulations and electric vehicle range extensions. As a result, OEMs are constructing vehicle platforms using a variety of new materials in addition to steel and plastic, including aluminum, carbon fiber and other substrates, each of which requires specialized coatings formulations to create a uniform color and finish. We continue to innovate with our OEM customers in driving this trend, as evidenced by use of our coatings on their flagship vehicle platforms.

We also develop and supply a wide array of coatings systems for a broad range of commercial vehicle applications. These products simultaneously enhance aesthetic appearance and provide protection from the elements. We meet the demands of commercial vehicle customers with our extensive offering of over 80,000 different colors. In the HDT market, because the metal and composite components are painted simultaneously in an automatic process, most truck OEMs use low bake coatings to ensure that the plastic composite parts on a truck's exterior do not deform during the bake process. Truck owners demand a wide variety of custom colors that are formulated using a combination of on-site mixing machines at the OEM or direct shipments of premixed high-volume colors from us. Our commercial vehicle brands include Imron[®], Imron Elite[®], Centari[®], Rival[®], Corlar[®] epoxy undercoats and AquaEC[™].

Mobility Coatings Sales, Marketing and Distribution

We have full-time technical representatives stationed at most of our light vehicle OEM customers' facilities around the world. These on-site representatives provide customer support, monitor the painting process and track paint demand at each assembly plant. Monitoring OEM line performance in real-time is intended to allow our technical support teams to help improve paint department operating efficiency and provide performance feedback to our formulating chemists and paint manufacturing teams. Many of our customer technical support representatives also help OEMs manage their physical inventory by forecasting facility coatings demand based on the customer's build schedule.

We sell and ship products directly to light vehicle OEMs in each of our four regions coordinated via a global point of contact for each customer and assist OEMs with on-site customer support. Located in 9 countries, our manufacturing facilities provide a local presence intended to cultivate strong relationships, gain intimate customer knowledge, provide superior technical support to our key customers and maintain "just-in-time" product delivery capabilities critical to OEMs. We believe our local presence also allows us to quickly react to changing local dynamics, offer high-quality products and provide excellent customer service.

In the commercial vehicle end-market, we employ a dedicated sales and technical service team to support our diverse customer base, including a direct sales force supporting the HDT market. We ship our coatings directly to commercial vehicle OEMs and may also provide on-site technical service representatives that play an important role by helping to optimize the painting process and by providing responsive customer support.

Mobility Coatings Customers

We provide our products and services to light and commercial vehicle customers at over 220 assembly plants worldwide, including all the top ten global automotive manufacturers. We have a stable customer base and believe we are well positioned with the fastest growing OEMs in both the developed and emerging markets. Our top ten customers accounted for approximately 62% of our Mobility Coatings net sales during the year ended December 31, 2023.

Mobility Coatings Competition

We primarily compete against large multi-national suppliers such as AkzoNobel, BASF and PPG, as well as a few regional suppliers, in the light and commercial vehicle end-markets. With our state-of-the-art coatings solutions and local presence in key OEM markets, we are one of the few competitors in the industry that offers global OEM manufacturers the combination of high-quality products, personalized, top-rate technical service and short lead-times for product delivery.

SEASONALITY

Generally, our first quarter net sales are less than other quarters primarily driven by our Performance Coatings segment as a result of the nature of repairs typically performed by our refinish end-market customers. In our North America and EMEA markets, we typically see more significant accidents from the inclement weather that require more time to repair and less repair throughput for our customers. Our Mobility Coatings segment does not experience significant net sales seasonality. Cash provided by operating activities has typically been greatest in the fourth quarter primarily driven by the timing of collections from our customers and payments to our vendors.

Economic and weather conditions have altered, and could continue to alter, seasonal patterns.

KEY RAW MATERIALS

We use thousands of different raw materials, which fall into seven broad categories: liquid resins, powder resins, pigments, solvents, monomers, isocyanates and additives. Since 2001, our total raw material spend has represented between 40% and 50% of our cost of sales annually, with the exception of 2022 when our total raw material spend represented approximately 53% of our cost sales driven by continued raw material inflation experienced throughout the year. We purchase raw materials from a diverse group of suppliers, with our top ten suppliers representing approximately 33% of our 2023 spending on raw materials.

Prices for our raw materials generally fluctuate with supplier feedstock prices as well as supply and demand dynamics of the given raw material market. Over the past several years, the dynamics of supply and demand had a greater impact in the cost of our raw materials than the price of the supplier feedstocks.

Historically, to manage raw material volatility, we have used a combination of price increases to customers and, in certain circumstances, contractual raw material recovery mechanisms. Since 2001, our variable cost of sales has generally remained stable between approximately 35% and 45% of net sales, with an increase to 50% during 2022 driven by continued raw material inflation experienced throughout the year. During 2023, our variable cost of sales returned to within the historical range as a result of both deflation of raw material costs and continued price recapture.

RESEARCH AND DEVELOPMENT

Our focus on technology has allowed us to proactively provide customers with next-generation offerings that enhance product performance, improve productivity and satisfy increasingly strict environmental regulations. Since our entry into the coatings industry over 150 years ago, we believe we have consistently been at the forefront of coatings technology innovation. These innovations have played a fundamental role in our ability to maintain and grow our global market share as well as deliver substantial financial returns.

We believe that we are a technology leader well positioned to benefit from continued industry shifts in customer needs. Our markets are among the most demanding in the coatings industry with high levels of required product performance that continuously evolve, with increasing expectations for productivity on customer lines and environmentally responsible products. Our technology development is led by a highly experienced and educated workforce that is focused on new product development, color development, technical customer support and improving our manufacturing processes. As such, our technology development covers two critical interrelated aspects for us, research and development as well as technical support and manufacturing. In total, as of December 31, 2023, we had approximately 1,300 team members dedicated to technology development. We operate four major technology centers throughout the world where we develop and align our technology investments with regional business needs complemented by approximately 25 regional laboratories which provide local connection to our global customer base. This includes our Global Innovation Center located in Philadelphia, Pennsylvania, which opened in 2018 for global research, product development and technology initiatives and now serves as our global headquarters.

PATENTS, LICENSES AND TRADEMARKS

As of December 31, 2023, we had a global portfolio of approximately 770 issued patents and more than 470 trademarks. We actively apply for and obtain U.S. and foreign patents and trademarks on new products and process innovations and as of December 31, 2023, approximately 220 patent applications were pending throughout the world.

Our primary purpose in obtaining patents is to protect the results of our research for use in operations and licensing. We are also party to a substantial number of patent licenses and other technology agreements. We have a significant number of trademarks and trademark registrations in the United States and in other countries, as described below.

We own or otherwise have rights to the trademarks, service marks, copyrights and trade names used in conjunction with the marketing and sale of our products and services. These trademarks include Abcite®, Alesta®, AquaEC®, Audurra®, Centari®, Ceranamel®, Challenger®, Chemophan™, ColorNet®, Corlar®, Cromax®, Cromax Mosaic®, Durapon 70®, Duxone®, Harmonized Coating Technologies®, Hydropon®, Imron®, Imron Elite™, Imron ExcelPro™, Lutophen™, Nap-Gard®, Nason®, Raptor®, Rival®, Spies Hecker®, Standox®, Stollaquid™, Syntopal™, Syrox™, U-POL®, Vermeera™ and Voltatex®, which are protected under applicable intellectual property laws and are the property of us and our subsidiaries.

Although we believe that our patents, licenses and trademarks in the aggregate constitute a valuable asset, we do not regard our business as being materially dependent on any single or group of related patents, licenses or trademarks.

JOINT VENTURES

At December 31, 2023, we were party to seven joint ventures, of which three were focused in the light vehicle end-market, two were focused in the refinish end-market and two were focused in the industrial end-market. At December 31, 2023, we were the majority shareholder, and/or exercised control, in five joint ventures, which we consolidated. Our fully consolidated joint venture-related net sales were \$62.0 million, \$78.7 million, and \$80.7 million for the years ended December 31, 2023, 2022 and 2021, respectively. See Part I, Item 1A, "Risk Factors—Risks Related to our Business—Risks Related to Other Aspects of our Business—Our joint ventures may not operate according to our business strategy if our joint venture partners fail to fulfill their obligations".

ENVIRONMENTAL, SOCIAL AND GOVERNANCE

During January 2022, we announced a new environmental, social and governance ("ESG") framework, which is structured under three key pillars. Goals related to each pillar are as follows:

- **Planet Solutions:** Focused on working towards a more sustainable future for the planet, this first pillar includes a series of goals aimed at improving the Company's environmental performance and reducing the impact of its global operations, including our goals to achieve an absolute reduction of 50% of Scope 1 and 2 greenhouse gas ("GHG") emissions by 2030, as well as a goal to become carbon neutral in our operations by 2040 - one decade ahead of the deadline set by the Paris Agreement on Climate Change. In addition to these reduction targets, Axalta is taking steps towards our goal of a 10% reduction of volatile organic compound ("VOC") emissions, process waste, and water use from operations by 2030.
- **Business Solutions:** This second pillar concentrates on how Axalta's products, services and technology can help customers design and manufacture their finished products to help accelerate their own sustainability initiatives and achievements. Axalta is committing to deliver sustainability benefits from 80% of its new technology and innovation developments by 2030 and to increase, by at least 20%, the total percentage of net sales derived from products, services, and tools that offer sustainability benefits.

- **People Solutions:** Building on Axalta's corporate culture, which is rooted in inclusivity, integrity, safety, and engagement, this third pillar will ensure that the Company continues operating and fostering an environment where all of our people can thrive. The Company is committing to creating a more diverse and inclusive environment that results in increasing the representation of women in management positions globally to at least 30% by 2030. Axalta will continue to support its local communities via its Bright Futures Program, which includes STEM and vocational scholarships.

HUMAN CAPITAL RESOURCES

Our success is realized through the engagement and commitment of our people. As of December 31, 2023, we had approximately 12,000 team members with 26% of our team members based in the U.S. and 74% based in international locations. Our workforce is distributed globally, with approximately 44% in the Americas, 37% in EMEA and 19% in Asia Pacific.

Axalta's ability to attract, develop and retain highly skilled talent requires us to focus on the growth and well-being of each team member. As a global coatings company, we have a wide range of employees, including but not limited to management professionals, scientists, technicians, engineers, sales representatives, operators, supply chain experts, and administrative and customer service professionals.

We strive to create a performance-driven culture where employees feel included and have a sense of belonging. It is important that we provide an environment that fosters inclusivity and embraces diversity where everyone feels they have a voice and their contributions are valued. As an example of our efforts, we conduct an all employee engagement survey that is designed to capture the voice of our employees and provide actionable insights into the specific tools, processes, and other factors that enable our employees to perform at their best. We continue to build upon and refresh our action plans each year based upon employee feedback. Over the past couple of years, we have seen improvements directly tied to the actions that have been implemented, including double-digit improvements in responses to survey questions related to training, learning and growth. We continue to focus on career development and learning to ensure employees have opportunities to improve their skills and prepare for future roles at Axalta. We also continue to focus on Axalta's culture, including continuing to increase our efforts regarding diversity and inclusion as well as engaging senior leaders to lead through change.

We strive to provide a wide variety of growth opportunities for our employees, including online trainings, on-the-job experience, education tuition assistance and financial counseling. We also aim to provide competitive compensation and benefits across all of our global locations.

Safety is paramount and the well-being of our employees is our greatest responsibility. We are committed to providing a workplace that enables team members to operate safely. Safety is ingrained in the way we do business, and our safety program is structured on the foundation that every employee is engaged and committed to improving safe operating practices and eliminating injuries. When health and safety incidents do occur, we work to determine the causes and eliminate the potential for future similar incidents. In 2023, Axalta's injury and illness performance resulted in a 0.37 OSHA Total Recordable Incident Rate ("TRIR"), compared to the 1.9 OSHA TRIR for the Paint and Coating Manufacturing Industry as a whole (according to the US Bureau of Labor Statistics 2022 data).

The Compensation Committee of our Board of Directors ("Board") has oversight of the Company's human capital management efforts. The Environment, Health, Safety and Sustainability Committee of our Board has oversight of the Company's policies to protect the health and safety of our employees and contractors, and this committee regularly reviews data on our safety metrics and performance.

We encourage you to visit the sustainability section, and other sections, of our website for more detailed information regarding our human capital resources, programs, and initiatives. Nothing on our website shall be deemed incorporated by reference into this Annual Report on Form 10-K.

REGULATORY COMPLIANCE

Our business is subject to significant regulations in all of the markets that we operate in and we are committed to operating our business in compliance with all applicable laws and regulations.

Environmental

We are subject to applicable federal, state, local and foreign laws and regulations relating to environmental protection and workers' safety, including those required by the U.S. Environmental Protection Agency. Our Environment, Health, Safety ("EHS") and Sustainability policies and standards are a key element of the foundation upon which we develop, market, manufacture, and distribute products and services to our global customers. In 2017, we established a Board-level committee responsible for the oversight of our EHS and Sustainability policies, performance, strategy and compliance matters. We strive to assure that all our manufacturing and distribution facilities are operated in compliance in all material respects with applicable environmental requirements. Investigation, remediation, operation and maintenance costs associated with environmental compliance and management of sites are a normal recurring part of our operations. We do not expect outstanding remediation obligations to have a material impact on our financial position; however, the ultimate cost of remediation is subject to a number of variables and is difficult to accurately predict. We may also incur significant additional costs as a result of contamination that is discovered and/or government required remediation obligations that are imposed at these or other facilities in the future.

In addition, we are, or may become, subject to various climate disclosure regimes regulating the disclosure of GHG emissions and related information, such as the European Union's ("EU") Corporate Sustainability Reporting Directive ("CSRD") and California's Climate Corporate Data Accountability Act and Climate Related Financial Risk Act. The interpretation and enforcement of such climate disclosure regimes remains uncertain, and compliance may require the investment of significant resources, increase our costs, disrupt our business operations and pose reputational and other risks.

Non-U.S. Sales

Our non-U.S. sales are subject to both U.S. and non-U.S. governmental regulations and procurement policies and practices, including regulations relating to import-export control, tariffs, investment, exchange controls, anti-corruption and repatriation of earnings. Non-U.S. sales are also subject to varying currency, political and economic risks.

Privacy Regulations

We are also subject to and comply with increasingly complex privacy and data protection laws and regulations in the United States and other jurisdictions. This includes the EU's General Data Protection Regulation ("GDPR"), which enforces rules relating to the protections around the processing and transfer of personal data. In addition, California's Consumer Privacy Act, as modified by the California Privacy Rights Act, provides consumers with the right to know what personal data is being collected, know whether their personal data is sold or disclosed and to whom and opt out of the sale of their personal data, among other rights. The interpretation and enforcement of such regulations are continuously evolving and there may be uncertainty with respect to how to comply with them. Noncompliance with GDPR and other data protection laws could result in damage to our reputation and payment of significant monetary penalties.

WHERE YOU CAN FIND MORE INFORMATION

Our website address is www.axalta.com. We post, and shareholders may access without charge, our recent filings and any amendments thereto of our annual reports on Form 10-K, quarterly reports on Form 10-Q and proxy statements as soon as reasonably practicable after such reports are filed with the Securities and Exchange Commission ("SEC"). We also post all financial press releases, including earnings releases, to our website. We intend to use our investor relations page at ir.axalta.com as a means of disclosing material information to the public in a broad, non-exclusionary manner for purposes of the SEC's Regulation Fair Disclosure (or Reg. FD). Investors should routinely monitor that site, in addition to our press releases, U.S. Securities and Exchange Commission filings and public conference calls and webcasts, as information posted on that page could be deemed to be material information. All other reports filed or furnished to the SEC on the SEC's website, www.sec.gov, including current reports on Form 8-K, are available via direct link on our website. Reference to our and the SEC's websites herein do not incorporate by reference any information contained on those websites and such information should not be considered part of this Annual Report on Form 10-K.

ITEM 1A. RISK FACTORS

As a global manufacturer, marketer and distributor of high-performance coatings systems, we operate in a business environment that includes risks. These risks are not unlike the risks we have faced in the recent past nor are they unlike risks faced by our competitors. If any of the events contemplated by the following discussion of risks should occur, our business, results of operations, financial condition and cash flows could suffer materially and adversely. While the factors listed here are considered to be the more significant factors, they should not be considered to be a complete statement of all potential risks and uncertainties. Unlisted factors, including those in other documents we file from time to time with the SEC, may materially and adversely affect our business, results of operations, financial condition and cash flows.

Risks Related to our Business

Risks Related to Execution of our Strategic and Operating Plans

Our financial position, results of operations and cash flows could be materially adversely affected by difficult economic conditions, and/or significant volatility in the capital, credit and commodities markets.

Several of the end-markets we serve are cyclical, and macroeconomic and other factors beyond our control could reduce demand from these end-markets for our products, including as a result of depressed demand for our customers' products or services, and materially adversely affect our business, financial condition and results of operations and cash flows. For example, weak economic and other macroeconomic conditions, such as the semiconductor chip shortage during 2021 and parts of 2022, have in the past and could in the future depress new car sales and/or production, reducing demand for our light vehicle OEM coatings and limiting the growth of the car parc. This could, in turn, cause a related decline in demand for our automotive refinish coatings because, as the age of a vehicle increases, the propensity of car owners to pay for cosmetic repairs generally decreases. Also, during difficult economic times, car owners may refrain from seeking repairs for their damaged vehicles. Similarly, periods of reduced global economic activity could hinder global industrial output, which could decrease demand for our industrial and commercial vehicle coating products.

Our global business is adversely affected by decreases in the general level of economic activity, such as decreases in business and consumer spending, construction activity and industrial manufacturing, which effects are exacerbated in a rising interest rate environment, like that seen in 2022 and 2023. Disruptions in the U.S., Europe or other economies, or weakening of emerging markets, such as China, could adversely affect our sales, profitability and/or liquidity.

Further, a tightening of credit in financial markets could adversely affect the ability of our customers to obtain financing to support their operations, which could result in a decrease in or cancellation of orders for our products and services and impact the ability of our customers to make payments owed to us. Similarly, a tightening of credit in financial markets could adversely affect our supplier base and increase the potential for one or more of our suppliers to experience financial distress or bankruptcy, which could impact our ability to procure materials in a timely manner or at all. Lastly, a tightening of credit markets and increases in interest rates, like those seen in 2022 and 2023, make it more difficult for our customers to borrow to fund construction activity, manufacturing operations and other capital projects, which in turn reduces demand for our products and could have a material adverse impact on our business, financial condition, results of operations and cash flows.

Improved safety features on vehicles, commercialization of autonomous vehicles, insurance company influence, the introduction of new business models or new methods of travel, and weather conditions may reduce the demand for some of our products and could have a negative effect on our business, financial condition, results of operations and cash flows.

Vehicle manufacturers continue to develop new safety features such as collision avoidance technology and self-driving vehicles that may reduce the rate and amount of vehicle collisions, potentially negatively impacting demand for our refinish coatings. Insurance companies may influence vehicle owners to use body shops that do not use our products, which could also negatively impact demand for our refinish coatings. In addition, through the introduction of new technologies, new business models or new methods of travel, such as ridesharing, the number of automotive OEM new builds may decline, potentially reducing demand for our automotive OEM coatings. Furthermore, from time to time, weather conditions have an adverse effect on our sales of coatings and related products. For example, unusually mild weather during winter months may lead to fewer vehicle collisions, reducing market demand for our refinish coatings. Any resulting reduction in demand for our refinish coatings could have a material adverse effect on our business, financial condition, results of operations and cash flows.

The loss of, or reduced purchases by, or our failure to meet our obligations to, any of our largest customers, or the consolidation of MSOs, distributors and/or body shops, could adversely affect our business, financial condition, results of operations and cash flows.

We have some customers that purchase a large amount of products from us and we are also reliant on distributors to assist us in selling our products. Our largest single customer accounted for approximately 4% of our 2023 net sales and our largest distributor accounted for approximately 3% of our 2023 net sales. Consolidation of any of our customers, including MSOs,

distributors and body shops, could decrease our customer base and impact our results of operations if the resulting business seeks different sales terms or chooses to use one of our competitors for the consolidated business. The loss of any of our large customers or significant changes in their level of purchases, as a result of changes in business conditions, working capital levels, product requirements, consolidation or otherwise, could have a material adverse effect on our business, financial condition, results of operations and cash flows.

In addition, certain key customers have substantial purchasing power and leverage in negotiating contractual arrangements with us. These customers have demanded and may in the future demand contract terms that differ considerably from our standard terms and conditions. Large orders have also included and may in the future also include severe contractual liabilities if we fail to provide the quantity and quality of product at the required delivery times or fail to meet other obligations. While we attempt to contractually limit our potential liability, we have agreed to and we may in the future agree to unfavorable contracting terms to secure these orders. Such actions could expose us to significant additional risks should we fail to meet our obligations, which could result in a material adverse impact on our business, financial condition, results of operations and cash flows.

We rely on our distributor network and third-party delivery services for the distribution and export of certain of our products. A significant disruption in these services or significant increases in prices for these services may disrupt our ability to export material or increase our costs.

We ship a significant portion of our products to our customers through our distributor network as well as independent third-party delivery companies. If any of our key distributors or third-party delivery providers experiences a significant disruption, our products may not be delivered in a timely fashion. In addition, if any of our third-party delivery providers increase prices and we are not able to pass along these increases to customers, find comparable alternatives or adjust our delivery network, our business, financial condition, results of operations and cash flows could be adversely affected.

We rely on certain of our manufacturing facilities to make a significant amount of product, and certain products can only be made at specific facilities.

A small number of our manufacturing facilities have historically produced a substantial majority of our products, and certain of our products can only be made at specific facilities. Any disruption of operations at one of these facilities, like those that occurred in North America in the second quarter of 2023 due to production constraints following our implementation of a new enterprise resource planning system ("ERP") in the region in the quarter, have in the past and could in the future significantly affect production of our products, distribution of our products or our ability to fulfill our contractual obligations, including to our largest customers, which have in the past and could in the future damage our customer relationships and our business, financial condition, results of operations and cash flows could be adversely affected. While we have contingency plans in place to mitigate the risks of such manufacturing concentration, we cannot be certain that such contingency plans would be effective.

Price increases, business and supply chain interruptions, declines in the supply of raw materials or disruptions to our major tolling arrangements could have a significant impact on our ability to grow or sustain earnings.

Our manufacturing processes consume significant amounts of raw materials, the costs of which are subject to change based on fluctuations in worldwide supply and demand as well as other factors beyond our control, including inflationary pressures like those seen from mid-2021 through 2022, and which abated for most categories during 2023. We use a significant amount of raw materials derived from crude oil and natural gas. While the majority of our raw material inputs are fourth to sixth generation derivatives of crude oil and natural gas, volatile oil and gas prices, as well as other unrelated factors, can also cause significant variations in our raw materials costs, affecting our operating results. In rising raw material price environments, we may be unable to pass along these increased costs to our customers. In declining raw material price environments, customers may seek price concessions from us greater than any raw material cost savings we realize. If we are not able to fully offset the effects of higher raw materials costs, or if customers demand greater raw material price concessions than we obtain in low raw material cost environments, our financial results could deteriorate. Additionally, we obtain certain of our raw materials from selected key suppliers. If any sole source supplier of raw materials ceases supplying raw materials to us, or if any of our key suppliers is unable to meet its obligations in a timely fashion or at an acceptable price, or at all, we may be forced to incur higher costs to obtain the necessary raw materials elsewhere or, in limited instances, we may not be able to obtain the necessary raw materials. Additionally, in certain instances, we rely on third parties to toll manufacture certain of our intermediates and products. If any of our key tolling partners ceases to provide toll manufacturing services to us, either permanently or temporarily, we would be required to arrange for alternative manufacturing arrangements, which we may not be able to arrange on financially attractive terms, on a timely basis or at all.

In addition to the risks associated with raw materials prices, supplier capacity constraints, supplier production disruptions, including supply disruptions from our sole source or other key suppliers, supply chain and logistics congestion and disruptions, increasing costs for energy and freight, the unavailability of certain raw materials or disruptions to our key tolling arrangements could result in harm to our manufacturing capabilities or supply imbalances that may have a material adverse

effect on our business, financial condition, results of operations and cash flows. Moreover, rising costs of freight, logistics, energy and labor, as we experienced over 2022, and which generally abated in 2023, increase our cost of sales and reduce our profitability.

Failure to develop and market new products and manage product life cycles could impact our competitive position and have a material adverse effect on our business, financial condition, results of operations and cash flows.

Our operating results are largely dependent on our development and management of our portfolio of current, new and developing products and services as well as our ability to bring those products and services to market. Difficulties or delays in product development, such as the inability to identify viable new products, successfully complete research and development, obtain relevant regulatory approvals, effectively manage our manufacturing process or costs, obtain intellectual property protection, or gain market acceptance of new products and services could have a material adverse effect on our business, financial condition, results of operations and cash flows. Because of the lengthy and costly development process, technological challenges and intense competition, we cannot assure you that any of the products we are currently developing, or that we may develop in the future, will achieve commercial success. For example, in addition to developing technologically advanced products, commercial success of those products will depend on customer acceptance and implementation of those products as well as the products and services offered and developed by our current and future competitors and the related intellectual property rights held by such competitors. A failure to develop commercially successful products or to develop additional uses for existing products could materially adversely affect our business, financial condition, results of operations or cash flows. Further, sales of our new products could replace sales of some of our current products, offsetting the benefit of even a successful product introduction.

We may be unable to successfully execute on our growth initiatives, business strategies or operating plans.

We continue to execute, and have in the past executed, on a number of growth initiatives, strategies and operating plans designed to enhance our business, including productivity enhancements, cost reduction measures, cost savings initiatives and restructurings. For example, in late 2023, to drive clear accountability and decision making in our businesses, we began the process of shifting responsibility for manufacturing activities at our global sites from a global operations function to our businesses themselves. The anticipated benefits from these efforts are based on several assumptions that may prove to be inaccurate and a variety of factors could cause us to fail to realize some or all of the expected benefits, including growth, cost savings and productivity enhancements. These factors include, among others: delays in the anticipated timing of activities related to such growth initiatives, strategies and operating plans, including those related to actions needed to satisfy legal requirements in certain jurisdictions; increased difficulty and cost in implementing these efforts; and the incurrence of other unexpected costs associated with operating the business. Further, our continued implementation of these programs may disrupt our operations and performance. We have in the past, and may in the future, fail to realize the full extent of the anticipated benefits from such efforts and we cannot assure you that we will realize these benefits. If, for any reason, the benefits we realize are less than our estimates or the implementation of these growth initiatives, strategies and operating plans adversely affect our operations or cost more or take longer to effectuate than we expect, or if our assumptions prove inaccurate, our results of operations may be materially adversely affected. From time to time, we may commence operations at new manufacturing facilities, such as our recently opened Mobility Coatings manufacturing facility in Jilin City, Jilin Province, North China, and cease operations at existing manufacturing facilities, including through relocating, eliminating or utilizing alternative sources for such operations. We may not be able to successfully commence such new operations or cease such existing operations and our failure to successfully do so could have a material adverse impact on our business results.

Risks Related to our Global Operations

As a global business, we are subject to risks associated with our non-U.S. operations that are not present in the United States.

We conduct our business on a global basis, with approximately 64% of our 2023 net sales occurring outside the United States. We anticipate that international sales will continue to represent a substantial portion of our net sales and that our strategy for continued growth and profitability may entail further international expansion, particularly in emerging markets. Changes in local and regional economic or political conditions could affect product demand in our non-U.S. operations. Specifically, our financial results could be affected by changes in trade, monetary and fiscal policies, laws and regulations, or other activities of U.S. and non-U.S. governments, agencies and similar organizations. These conditions include, but are not limited to, changes in a country's or region's social, economic or political conditions, military conflicts, including the current conflicts between Russia and Ukraine and in the Middle East, trade regulations affecting production, pricing and marketing of products, local labor conditions and regulations, reduced protection of intellectual property rights, changes in the regulatory or legal environment, restrictions on currency exchange activities, trapped cash issues, burdensome taxes and tariffs and other trade barriers, as well as the imposition of economic or other trade sanctions, each of which could impact our ability to do business in certain jurisdictions or with certain persons. For example, the U.S. government has taken actions or made proposals that are intended to address trade imbalances or trade practices, specifically with China, among other countries,

which include encouraging increased production in the United States. These actions and proposals have resulted or could result in increased customs duties and the renegotiation of some U.S. trade agreements, as well as other retaliatory actions.

Risks Related to Legal and Regulatory Compliance and Litigation

Our failure to comply with the anti-corruption laws of the United States and various international jurisdictions could negatively impact our reputation and results of operations.

Doing business on a global basis requires us to comply with the laws and regulations of the U.S. government and those of various international and sub-national jurisdictions, and our failure to successfully comply with these rules and regulations may expose us to liabilities which may be significant. These laws and regulations apply to companies, individual directors, officers, employees and agents, and may restrict our operations, trade practices, investment decisions and partnering activities. In particular, our international operations are subject to U.S. and foreign anti-corruption laws and regulations, such as the U.S. Foreign Corrupt Practices Act (the "FCPA"), the United Kingdom Bribery Act 2010 (the "Bribery Act") as well as anti-corruption laws of the various jurisdictions in which we operate. The FCPA, the Bribery Act and other laws prohibit us and our officers, directors, employees and agents acting on our behalf from corruptly offering, promising, authorizing or providing anything of value to foreign officials for the purposes of influencing official decisions or obtaining or retaining business or otherwise obtaining favorable treatment. As part of our business, we may, from time to time, deal with state-owned business enterprises, the employees and representatives of which may be considered foreign officials for purposes of the FCPA or the Bribery Act. We are subject to the jurisdiction of various governments and regulatory agencies outside of the U.S., which may bring our personnel into contact with foreign officials responsible for issuing or renewing permits, licenses or approvals or for enforcing or overseeing other governmental regulations. In addition, some of the international locations in which we operate lack a developed legal system and have elevated levels of corruption. Our global operations expose us to the risk of violating, or being accused of violating, the foregoing or other anti-corruption laws. Such violations could be punishable by criminal fines, imprisonment, civil penalties, disgorgement of profits, injunctions and exclusion from government contracts, as well as other remedial measures. Investigations of alleged violations can be very expensive, disruptive and damaging to our reputation. Although we have implemented anti-corruption policies and procedures and provide training on these matters, there can be no guarantee that these policies, procedures and training will effectively prevent violations or alleged violations by our employees or representatives in the future. Additionally, we face a risk that our distributors and other business partners may violate the FCPA, the Bribery Act or similar laws or regulations. Such violations could expose us to FCPA and Bribery Act liability and/or our reputation may potentially be harmed by their violations and resulting sanctions and fines.

Evolving environmental, safety or other regulations and laws, including with respect to disclosure of metrics related to such areas, could have a material adverse effect on our business and consolidated financial condition.

Our manufacturing activities and products, both inside and outside of the U.S., are subject to regulation by various federal, state, provincial and local laws, regulations and government agencies, including the U.S. Environmental Protection Agency, as well as other authorities both inside and outside of the U.S. In addition, legal and regulatory systems in emerging and developing markets may be less developed and less consistent. Laws and regulations, and the interpretation and enforcement thereof, may change as a result of a variety of factors, including political, economic, regulatory or social events or in response to climate change. The specific impact of changing laws and regulations, or the interpretation or enforcement of current or future laws and regulations, on our business may vary depending on a number of factors. As a result of changing laws and regulations, or the interpretation or enforcement of current or future laws and regulations, we have been and may in the future be required to make expenditures to modify operations, relocate operations, perform site cleanups or other environmental remediation, or curtail or cease operations, which could have a material adverse effect on our business, financial condition, results of operations and cash flows. In addition, new disclosure requirements related to GHG emissions and climate change, including any final rules approved by the SEC, California or other U.S. states, the EU's recently adopted CSRD, and other requirements adopted by national and sub-national jurisdictions from time to time, may negatively impact our business by diverting resources and harming our reputation.

We cannot predict the impact that changing climate conditions or more frequent and severe weather events, if any, will have on our business, results of operations, financial condition or cash flows. Moreover, we cannot predict how legal, regulatory and social responses to concerns about climate change, as well as other sustainability and environmental matters, will impact our business.

As a result of our current and past operations and/or products, including operations and/or products related to our businesses prior to the Acquisition, we could incur significant environmental liabilities and costs.

We are subject to various laws and regulations around the world governing the protection of the environment and health and safety, including the discharge of pollutants into the air and water and the management and disposal of hazardous substances. These laws and regulations not only govern our current operations and products, but also impose potential liability on us for our or our predecessors' past operations. We could incur fines, penalties and other sanctions as a result of violations of such laws and regulations. In addition, as a result of our operations and/or products, including our past operations and/or products

related to our businesses prior to the acquisition of DuPont Performance Coatings ("DPC"), a business formerly owned by E. I. du Pont de Nemours and Company ("DuPont"), including certain assets of DPC and all of the capital stock and other equity interests of certain entities engaged in the DPC business (the "Acquisition"), we could incur substantial costs, including costs relating to remediation and restoration activities and third-party claims for property damage or personal injury. The ultimate costs under environmental laws and the timing of these costs are difficult to accurately predict. Our accruals for costs and liabilities at sites where contamination is being investigated or remediated may not be adequate because the estimates on which the accruals are based depend on a number of factors, including the nature and extent of contamination, the outcome of discussions with regulatory agencies, available technology, site-specific information, remediation alternatives and, at multi-party sites, other Potentially Responsible Parties ("PRPs") and the number and financial viability of the other PRPs. Additional contamination may also be identified, and/or additional cleanup obligations may be incurred, at these or other sites in the future. For example, periodic monitoring or investigation activities are ongoing at a number of our sites where contaminants have been detected or are suspected, and we may incur additional costs if more active or extensive remediation is required. In addition, in connection with the Acquisition, DuPont has, subject to certain exceptions and exclusions, agreed to indemnify us for certain liabilities relating to environmental remediation obligations and certain claims relating to the exposure to hazardous substances and products manufactured prior to our separation from DuPont. We could incur material additional costs if DuPont fails to meet its obligations, if the indemnification proves insufficient or if we otherwise are unable to recover costs associated with such liabilities. The costs of our current operations, complying with complex environmental laws and regulations, as well as internal voluntary programs, are significant and will continue to be so for the foreseeable future as environmental regulations become more stringent.

We handle and transport certain materials that are inherently hazardous due to their toxic nature.

In our business, we handle and transport hazardous materials. If mishandled or released into the environment, whether by us or providers who are contracted for transportation, these materials could cause substantial property damage, environmental harm or personal injuries resulting in significant legal claims against us. In addition, evolving regulations concerning the handling and transportation of certain materials could result in increased future capital or operating costs.

Our results of operations could be adversely affected by litigation and claims.

We face risks arising from various litigation matters and other claims that have been asserted against us or that may be asserted against us in the future, including, but not limited to, claims for product liability, patent and trademark infringement, antitrust, warranty, contract and third-party property damage or personal injury, including claims arising from the matters described in Note 5 to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K. For instance, we have seen a continuing nationwide trend in purported class actions against chemical manufacturers generally seeking relief such as medical monitoring, property damages, off-site remediation and punitive damages arising from alleged environmental torts without claiming present personal injuries. We have also seen a continuing trend in public and private nuisance suits being filed on behalf of states, counties, cities and utilities alleging harm to the general public. In addition, various factors or developments can lead to changes in current estimates of liabilities such as a final adverse judgment, significant settlement or changes in applicable law. A future adverse ruling or unfavorable development could result in future charges that could have a material adverse effect on us. An adverse outcome in any one or more of these matters could be material to our business, financial condition, results of operations and cash flows. In particular, product liability claims, regardless of their merits, could be costly, divert management's attention and adversely affect our reputation and demand for our products.

Risks Related to Human Resources

If we are required to make unexpected payments to any pension plans applicable to our employees, our financial condition may be adversely affected.

We have defined benefit pension plans in which many of our current and former employees outside the U.S. participate or have participated. Many of these plans are underfunded or unfunded and the liabilities in relation to these plans will need to be satisfied as they mature from our operating reserves. In jurisdictions where the defined benefit pension plans are intended to be funded with assets in a trust or other funding vehicle, the liabilities exceed the corresponding assets in many of the plans. Various factors, such as changes in actuarial estimates and assumptions (including as to life expectancy, discount rates and rate of return on assets) as well as changes in asset allocations and actual return on assets, can increase the expenses and liabilities of the defined benefit pension plans. The assets and liabilities of the plans must be valued from time to time under applicable funding rules and as a result we may be required to increase the cash payments we make in relation to these defined benefit pension plans.

Our financial condition, results of operations and cash flows may be adversely affected to the extent that we are required to make any additional payments to any relevant defined benefit pension plans in excess of the amounts assumed in our current projections and assumptions or report higher pension plan expenses under relevant accounting rules.

We are subject to work stoppages, union negotiations, labor disputes and other matters associated with our labor force, which may adversely impact our operations and cause us to incur incremental costs.

Many of our employees globally are in unions or otherwise covered by labor agreements, including works councils. As of December 31, 2023, substantially all of our U.S. workforce was not unionized and approximately half of our workforce outside the U.S. was unionized or otherwise covered by labor agreements. Consequently, we have been and may in the future be subject to union campaigns, work stoppages, union negotiations and other labor disputes. Additionally, negotiations with unions or works councils in connection with existing labor agreements may result in significant increases in our cost of labor, limit our ability to restructure or manage our operations, divert management's attention away from operating our business or break down and result in the disruption of our operations. The occurrence of any of the preceding outcomes could impair our ability to manufacture our products and result in increased costs and/or worsened operating results. Further, we have been and may in the future be impacted by work stoppages at our suppliers or customers that are beyond our control.

We may not be able to recruit and retain the experienced and skilled personnel we need to compete.

Our future success depends on our ability to attract, retain, develop and motivate highly skilled personnel. We must have talented personnel to succeed, and competition for management and skilled employees in our industry is intense. Our ability to meet our performance and growth goals depends upon the personal efforts and abilities of our management and skilled employees. We cannot assure you that we will retain or successfully recruit senior management, or that their services will remain available to us. In addition, increasing legislative, regulatory and judicial scrutiny, or limitations, on employee non-compete and similar agreements and restrictions may make it easier for former employees to work for our competitors or to otherwise compete with our business. We also cannot assure you that we will successfully respond to changing employee preferences spurred by the COVID-19 pandemic. Failures in these areas could adversely affect our business, financial condition, results of operations and cash flows.

Risks Related to Intellectual Property

Our inability to protect and enforce our intellectual property rights could adversely affect our financial results.

Intellectual property rights both in the U.S. and in foreign countries, including patents, trade secrets, confidential information, trademarks and trade names, are important to our business and will be critical to our ability to grow and succeed in the future. We make strategic decisions on whether to apply for intellectual property protection and what kind of protection to pursue based on a cost benefit analysis. While we endeavor to protect our intellectual property rights in certain jurisdictions in which our products are produced or used and in jurisdictions into which our products are imported, the decision to file for intellectual property protection is made on a case-by-case basis. Because of the differences in foreign trademark, patent and other laws concerning intellectual property rights, our intellectual property rights may not receive the same degree of protection in foreign countries as they would in the U.S. Our failure to obtain or maintain adequate protection of our intellectual property rights for any reason could have a material adverse effect on our business, financial condition, results of operations and cash flows.

We have applied for patent protection relating to certain existing and proposed products, processes and services in certain jurisdictions. While we generally consider applying for patents in those countries where we intend to make, have made, use or sell patented products, we may not accurately assess all of the countries where patent protection will ultimately be desirable. If we fail to timely file a patent application in any such country, we may be precluded from doing so at a later date. Furthermore, we cannot assure you that our pending patent applications will not be challenged by third parties or that such applications will eventually be issued by the applicable patent offices as patents. We also cannot assure you that the patents issued as a result of our foreign patent applications will have the same scope of coverage as our U.S. patents. It is possible that only a limited number of the pending patent applications will result in issued patents, which may have a materially adverse effect on our business and results of operations.

The patents we own could be challenged, invalidated or circumvented by others and may not be of sufficient scope or strength to provide us with any meaningful protection or commercial advantage. Furthermore, our existing patents are subject to challenges from third parties that may result in invalidations and will all eventually expire, after which we will not be able to prevent our competitors from using our previously patented technologies, which could materially adversely affect our competitive advantage stemming from the applicable products and technologies. We also cannot assure you that competitors will not infringe our patents, or that we will have adequate resources to enforce our patents.

We also rely on unpatented proprietary technology. It is possible that others will independently develop the same or similar technology or otherwise obtain access to our unpatented technology. To protect our trade secrets and other proprietary information, we require certain employees, consultants, advisors and collaborators to enter into confidentiality agreements as we deem appropriate. We cannot assure you that we will be able to enter into these confidentiality agreements or that these agreements will provide meaningful protection for our trade secrets, know-how or other proprietary information in the event of any unauthorized use, misappropriation or disclosure of such trade secrets, know-how or other proprietary information. If we are unable to maintain the proprietary nature of our technologies, we could be materially adversely affected.

We rely on our trademarks, trade names and brand names to distinguish our products from the products of our competitors and have registered or applied to register many of these trademarks. We cannot assure you that our trademark applications will be approved. Third parties have in the past and in the future may oppose our trademark applications, or otherwise challenge our use of the trademarks. In the event that our trademarks are successfully challenged, we could be forced to rebrand our products, which could result in loss of brand recognition, and could require us to devote resources to advertising and marketing new brands. Further, we cannot assure you that competitors will not infringe our trademarks, or that we will have adequate resources to enforce our trademarks. We also license certain of our trademarks for use by third parties. In an effort to preserve our trademark rights, we enter into license agreements with these third parties that govern the use of our trademarks and contain limitations on their use. Although we make efforts to police the use of our trademarks by our licensees, we cannot assure you that these efforts will be sufficient to ensure that our licensees abide by the terms of their licenses. In the event that our licensees fail to do so, our trademark rights could be diluted.

If we are sued for infringing intellectual property rights of third parties, it may be costly and time consuming, and an unfavorable outcome in any litigation could harm our business.

We cannot assure you that our activities will not, unintentionally or otherwise, infringe on the patents, trademarks or other intellectual property rights owned by others. We may spend significant time and effort and incur significant litigation costs if we are required to defend ourselves against claims of intellectual property rights infringement brought against us, regardless of whether the claims have merit. If we are found to have infringed on the patents, trademarks or other intellectual property rights of others, we may be subject to substantial claims for damages, which could materially impact our business, financial condition, results of operations and cash flow. We may also be required to cease development, use or sale of the relevant products or processes, or we may be required to obtain a license on the disputed rights, which may not be available on commercially reasonable terms, if at all.

Risks Related to Other Aspects of our Business

We may continue to engage in acquisitions and divestitures, and may encounter difficulties integrating acquired businesses with, or disposing of divested businesses from, our current operations and, as a result, we may not realize the anticipated benefits of these acquisitions and divestitures.

We may continue to seek to grow through strategic acquisitions, joint ventures or other arrangements. Our due diligence reviews in these transactions may not identify all of the material issues necessary to accurately estimate the cost or potential loss contingencies with respect to a particular transaction, including potential exposure to regulatory sanctions resulting from a counterparty's previous activities. We may incur unanticipated costs or expenses, including post-closing asset impairment charges, expenses associated with eliminating redundant facilities, litigation and other liabilities. We may also face regulatory scrutiny as a result of perceived concentration in certain markets, which could cause additional delay or prevent us from completing certain acquisitions that would be beneficial to our business. We may also encounter difficulties in integrating acquisitions with our operations, applying our internal controls processes to these acquisitions or in managing strategic investments. Additionally, we may not achieve the benefits, including synergies and cost savings, we anticipate when we first enter into a transaction in the amount or on the timeframe anticipated. Any of the foregoing could adversely affect our business and results of operations. In addition, accounting requirements relating to business combinations, including the requirement to expense certain acquisition costs as incurred, may cause us to experience greater earnings volatility and generally lower earnings during periods in which we acquire new businesses. Furthermore, we may make strategic divestitures from time to time. These divestitures may result in continued financial involvement in the divested businesses, such as through indemnities, guarantees or other financial arrangements. These arrangements could result in financial obligations imposed upon us and could affect our future financial condition, results of operations and cash flows. Acquisitions and divestitures may also require us to devote significant internal resources and could divert management's attention away from operating our business.

Our joint ventures may not operate according to our business strategy if our joint venture partners fail to fulfill their obligations.

As part of our business, we have entered into certain, and may in the future enter into additional, joint venture arrangements. The nature of a joint venture requires us to share control over significant decisions with unaffiliated third parties. Since we may not exercise control over our current or future joint ventures, we may not be able to require our joint ventures to take actions that we believe are necessary to implement our business strategy. Additionally, differences in views among joint venture participants may result in delayed decisions or failures to agree on major issues. If these differences cause the joint ventures to deviate from our business strategy, our results of operations could be materially adversely affected.

DuPont's potential breach of its obligations in connection with the Acquisition, including failure to comply with its indemnification obligations, may materially affect our business and operating results.

Although the Acquisition closed on February 1, 2013, DuPont still has performance obligations to us, including fulfilling certain indemnification requirements. We could incur material additional costs if DuPont fails to meet its obligations or if we otherwise are unable to recover costs associated with such liabilities.

We may be classified as a passive foreign investment company, which could result in adverse U.S. federal income tax consequences to U.S. holders of our common shares.

Based on the market price of our common shares and the composition of our income, assets and operations, we do not expect to be treated as a passive foreign investment company ("PFIC") for U.S. federal income tax purposes for the current taxable year or in the foreseeable future. However, the application of the PFIC rules is subject to uncertainty in several respects, and we cannot assure you the U.S. Internal Revenue Service will not take a contrary position. Furthermore, this is a factual determination that must be made annually after the close of each taxable year. If we are treated as a PFIC for any taxable year during which a U.S. person holds our common shares, certain adverse U.S. federal income tax consequences could apply to such U.S. person.

Risks Related to our Indebtedness

Our substantial indebtedness could adversely affect our ability to raise additional capital to fund our operations, limit our ability to react to changes in the economy and our industry and our flexibility in managing our business, expose us to interest rate risk to the extent of our variable rate debt and prevent us from meeting our obligations with respect to our indebtedness.

As of December 31, 2023, we had approximately \$3.5 billion of indebtedness on a consolidated basis. As of December 31, 2023, we were in compliance with all of the covenants under our outstanding debt instruments. We are more leveraged than some of our competitors, which could adversely affect our business plans.

Our substantial indebtedness could have important consequences to you. For example, it could:

- limit our ability to obtain additional financing to fund future working capital, capital expenditures, acquisitions, general corporate purposes or other purposes;
- require us to devote a substantial portion of our annual cash flow to the payment of interest on our indebtedness;
- expose us to the risk of increased interest rates, such as the increases seen in 2022 and 2023, as, over the term of our debt, the interest cost on a significant portion of our indebtedness is subject to changes in interest rates;
- limit our ability to repurchase our common shares or pay dividends;
- hinder our ability to adjust rapidly to changing market conditions;
- limit our flexibility in managing our business through our obligation to comply with customary financial and other covenants in the instruments governing our indebtedness, including the indentures governing our Senior Notes (as defined in Note 18 to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K) and the credit agreement governing our Senior Secured Credit Facilities (as defined in Note 18 to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K), which covenants are described in further detail in Note 18 to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K;
- limit our ability to secure adequate bank financing in the future with reasonable terms and conditions or at all; and
- increase our vulnerability to and limit our flexibility in planning for, or reacting to, a potential downturn in general economic conditions or in one or more of our businesses.

To service all of our indebtedness, we will require a significant amount of cash and our ability to generate cash depends on many factors beyond our control.

As described below in "Risks Related to Ownership of our Common Shares", our ability to generate cash is dependent on the earnings and receipt of funds from our subsidiaries and joint ventures, which businesses are subject to prevailing economic and competitive conditions and to financial, business, legislative, regulatory and other factors beyond our control. Our business may not generate sufficient cash flow from operations and future borrowings may not be available under our Senior Secured Credit Facilities in an amount sufficient to enable us to pay the principal, premium, if any, and interest on our indebtedness, or to fund our other liquidity needs, including planned capital expenditures. In such circumstances, we may need to refinance all or a portion of our indebtedness at or before maturity. We may not be able to refinance any of our indebtedness on commercially reasonable terms or at all. If we cannot service our indebtedness, we may have to take actions such as selling assets, issuing additional equity or reducing or delaying capital expenditures, strategic acquisitions and

investments. Such actions, if necessary, may not be effected on commercially reasonable terms or at all. The instruments governing our indebtedness restrict our ability to sell assets and to use the proceeds from such sales, and we may not be able to consummate those dispositions or obtain proceeds in an amount sufficient to meet any debt service obligations then due.

If we are unable to generate sufficient cash flow or are otherwise unable to obtain funds necessary to meet required payments of principal, premium, if any, and interest on our indebtedness, or if we otherwise fail to comply with the various covenants in the instruments governing our indebtedness, we could be in default under the terms of the agreements governing such indebtedness, and we may not be able to obtain waivers of such defaults from our lenders. In the event of such un-waived default, the holders of such indebtedness could elect to declare all the funds borrowed thereunder to be due and payable, together with accrued and unpaid interest, the lenders under our Revolving Credit Facility (as defined in Note 18 to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K) could elect to terminate their commitments thereunder, cease making further loans and institute foreclosure proceedings against our assets, and we could be forced into bankruptcy or liquidation.

Despite our current level of indebtedness and restrictive covenants, we and our subsidiaries may incur additional indebtedness. This could further exacerbate the risks associated with our substantial financial leverage.

We and our subsidiaries may incur significant additional indebtedness under the agreements governing our indebtedness. Although the indentures governing our Senior Notes and the credit agreement governing our Senior Secured Credit Facilities contain restrictions on the incurrence of additional indebtedness, these restrictions are subject to a number of thresholds, qualifications and exceptions, and the additional indebtedness incurred in compliance with these restrictions could be substantial. Additionally, these restrictions may not prevent us from incurring obligations that, although preferential to our common shares in terms of payment, do not constitute indebtedness.

In addition, if new debt is added to our and/or our subsidiaries' debt levels, the related risks that we now face as a result of our leverage would intensify. See Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources—Financial Condition."

We are dependent upon our lenders for financing to execute our business strategy and meet our liquidity needs. If our lenders are unable or unwilling to fund borrowings under their credit commitments or we are unable to borrow, it could negatively impact our business.

We are dependent upon our lenders for financing to execute our business strategy and meet our liquidity needs. If our lenders are unable to fund borrowings under their credit commitments or we are unable to borrow from them for any reason, our business could be negatively impacted. During periods of volatility in the credit markets, there is risk that any lenders, even those with strong balance sheets and sound lending practices, could fail or refuse to honor their legal commitments and obligations under existing credit commitments, including, but not limited to, extending credit up to the maximum permitted by a credit facility, allowing access to additional credit features and otherwise accessing capital and/or honoring loan commitments. If our lenders are unable or unwilling to fund borrowings under their revolving credit commitments or we are unable to borrow from them, it could be difficult in such environments to obtain sufficient liquidity to meet our operational needs.

Our ability to obtain additional capital on commercially reasonable terms may be limited.

Although we believe our cash and cash equivalents, together with cash we expect to generate from operations and unused capacity available under our Revolving Credit Facility, provide adequate resources to fund ongoing operating requirements, we may need to seek additional financing to compete effectively.

If we are unable to obtain capital on commercially reasonable terms, it could:

- reduce funds available to us for purposes such as working capital, capital expenditures, research and development, strategic acquisitions and other general corporate purposes;
- restrict our ability to introduce new products or exploit business opportunities;
- increase our vulnerability to economic downturns and competitive pressures in the markets in which we operate; and
- place us at a competitive disadvantage.

Difficult and volatile conditions in the capital, credit and commodities markets and in the overall economy could have a material adverse effect on our business, financial condition, results of operations and cash flows.

Difficult global economic conditions, including significant volatility in the capital, credit and commodities markets, low levels of business and consumer confidence and high levels of unemployment in certain parts of the world, could have a

material adverse effect on our business, financial condition, results of operations and cash flows. The difficult conditions in these markets and the overall economy affect our business in a number of ways. For example:

- under difficult market conditions there can be no assurance that borrowings under our Revolving Credit Facility would be available or sufficient to meet our operational needs, and in such a case, we may not be able to successfully obtain additional financing on reasonable terms, or at all;
- in order to respond to market conditions, we may need to seek waivers from the applicability of various provisions in the credit agreement governing our Senior Secured Credit Facilities or the indentures governing our Senior Notes, and in such case, there can be no assurance that we can obtain such waivers at a reasonable cost, if at all;
- market conditions could cause the counterparties to the derivative financial instruments we may use to hedge our exposure to interest rate, commodity or currency fluctuations to experience financial difficulties and, as a result, our efforts to hedge these exposures could prove unsuccessful and, furthermore, our ability to engage in additional hedging activities may decrease or become more costly; and
- market conditions could result in our key customers experiencing financial difficulties and/or electing to limit spending, which in turn could result in decreased sales and earnings for us.

We do not know if market conditions or the state of the overall economy will improve in the near future. We cannot provide assurance that a continuation of current economic conditions or a further economic downturn in one or more of the geographic regions in which we sell our products would not have a material adverse effect on our business, financial condition and results of operations.

We are subject to risks associated with the current interest rate environment and, to the extent we use debt to fund our operations, changes in interest rates will affect our cost of debt.

A substantial portion of our indebtedness bears, and in the case of our Revolving Credit Facility, would bear, interest at variable rates, including the Secured Overnight Financing Rate ("SOFR"), making our cost of debt subject to increase in rising interest rate environments, such as those seen during 2022 and 2023, which increases could have a material adverse effect on our financial condition. While we may choose to, and routinely do, enter into interest rate hedging transactions to mitigate the effect of fluctuations in interest rates, we can provide no assurance that we will enter any such transactions in the future or that any such transactions would be successful in mitigating the risks of fluctuations in interest rates.

Risks Related to Ownership of our Common Shares

Axalta Coating Systems Ltd. is a holding company with no operations of its own. Because our operations are conducted almost entirely through our subsidiaries and joint ventures, we are largely dependent on our receipt of distributions and dividends or other payments from our subsidiaries and joint ventures for cash to fund all of our operations and expenses, including to make future dividend payments, if any.

Our operations are conducted almost entirely through our subsidiaries and joint ventures and our ability to generate cash to meet our debt service obligations or to make future dividend payments, if any, is highly dependent on the earnings and the receipt of funds from our subsidiaries in the form of dividends, loans or advances and through repayment of loans or advances from us. Payments to us by our subsidiaries and joint ventures will be contingent upon our subsidiaries' or joint ventures' earnings and other business considerations and may be subject to statutory or contractual restrictions. In addition, there may be significant tax and other legal restrictions on the ability of foreign subsidiaries or joint ventures to remit money to Axalta Coating Systems Ltd. Any payment of distributions, loans or advances to and from our subsidiaries and joint ventures could be subject to restrictions on or taxation of, dividends or repatriation of earnings under applicable local law, monetary transfer restrictions, foreign currency exchange regulations in the jurisdictions in which our subsidiaries operate or other restrictions imposed by current or future agreements, including debt instruments, to which our non-U.S. subsidiaries may be a party. In particular, our operations in Brazil, China and India where we maintain local currency cash balances are subject to import authorization or pricing controls. From time to time, we may engage in internal reorganizations to manage such restrictions and other limitations. However, any such reorganizations may, among other things, adversely affect our operating results and cash flows.

The price of our common shares has and may in the future fluctuate significantly, and you could lose all or part of your investment.

Volatility in the market price of our common shares may prevent you from being able to sell your common shares at or above the price you paid for your common shares. The market price of our common shares has in the past fluctuated, and could in the future fluctuate, significantly for various reasons, including the realization of any risks described under this "Risk Factors" section.

In addition, over the past several years, the stock markets have experienced significant price and volume fluctuations. This volatility has had a significant impact on the market price of securities issued by many companies, including us and other

companies in our industry. The changes frequently appear to occur without regard to the operating performance of the affected companies. Hence, the price of our common shares could fluctuate based upon factors that have little or nothing to do with our business, and these fluctuations could materially reduce our share price and cause you to lose all or part of your investment. Further, in the past, market fluctuations and price declines in a company's stock have led to securities class action litigation. If such a suit were to arise, it could have a substantial cost, adversely impact our business and divert our resources regardless of the outcome.

We do not expect to pay dividends on our common shares and, consequently, your ability to achieve a return on your investment will depend on appreciation in the price of our common shares.

We currently do not declare or pay dividends on our common shares. Therefore, the success of an investment in our common shares will depend upon any future appreciation in their value. There is no guarantee that our common shares will appreciate in value or even maintain the price at which our shareholders have purchased their shares. The payment of future dividends, if any, will be at the discretion of our Board and will depend on, among other things, our earnings, financial condition, capital requirements, level of indebtedness, statutory and contractual restrictions applying to the payment of dividends and other relevant considerations. The credit agreement governing our Senior Secured Credit Facilities and the indentures governing our Senior Notes also limit our ability to pay dividends. In addition, Bermuda law imposes requirements that may restrict our ability to pay dividends to holders of our common shares. As a consequence of these limitations and restrictions, we may not be able to make, or may have to reduce or eliminate, the payment of dividends on our common shares.

Future sales of our common shares in the public market could lower our share price, and any additional capital raised by us through the sale of equity or convertible debt securities may dilute your ownership in us and may adversely affect the market price of our common shares.

We and our shareholders may sell additional common shares in subsequent offerings. We may also issue additional common shares or convertible debt securities. As of February 8, 2024, we had 1,000,000,000 common shares authorized and 220,140,111 common shares outstanding.

We cannot predict the size of future issuances or sales of our common shares or the effect, if any, that future issuances and sales of our common shares will have on the market price of our common shares. Sales of substantial amounts of our common shares (including sales by members of management and shares that may be issued in connection with an acquisition), or the perception that such sales could occur, may adversely affect prevailing market prices for our common shares. See Part III, Item 13, "Certain Relationships and Related Transactions and Director Independence."

We are a Bermuda company and it may be difficult for you to enforce judgments against us or our directors and executive officers.

We are a Bermuda exempted company. As a result, the rights of our shareholders are governed by Bermuda law and our memorandum of association and bye-laws. The rights of shareholders under Bermuda law may differ from the rights of shareholders of companies incorporated in another jurisdiction, and a substantial portion of our assets are located outside the U.S. As a result, it may be difficult for investors to effect service of process on those persons in the U.S. or to enforce in the U.S. judgments obtained in U.S. courts against us or those persons based on the civil liability provisions of the U.S. securities laws. It is questionable whether courts in Bermuda will enforce judgments obtained in other jurisdictions, including the United States, against us or our directors or officers under the securities laws of those jurisdictions or entertain actions in Bermuda against us or our directors or officers under the securities laws of other jurisdictions.

Bermuda law differs from the laws in effect in the U.S. and may afford less protection to our shareholders.

We are organized under the laws of Bermuda. As a result, our corporate affairs are governed by the Companies Act 1981 (the "Companies Act"), which differs in some material respects from laws typically applicable to U.S. corporations and shareholders, including the provisions relating to interested directors, amalgamations, mergers and acquisitions, takeovers, shareholder lawsuits and indemnification of directors. Generally, the duties of directors and officers of a Bermuda company are owed to the company only. Shareholders of Bermuda companies typically do not have rights to take action against directors or officers of the company and may only do so in limited circumstances. Shareholder class actions are not available under Bermuda law. The circumstances in which shareholder derivative actions may be available under Bermuda law are substantially more limited and less clear than they would be to shareholders of U.S. corporations. The Bermuda courts, however, would ordinarily be expected to permit a shareholder to commence an action in the name of a company to remedy a wrong to the company where the act complained of is alleged to be beyond the corporate power of the company or illegal, or would result in the violation of the company's memorandum of association or bye-laws. Furthermore, consideration would be given by a Bermuda court to acts that are alleged to constitute a fraud against the minority shareholders or, for instance, where an act requires the approval of a greater percentage of the company's shareholders than those who actually approved it.

When the affairs of a company are being conducted in a manner that is oppressive or prejudicial to the interests of some shareholders, one or more shareholders may apply to the Supreme Court of Bermuda, which may make such order as it sees fit, including an order regulating the conduct of the company's affairs in the future or ordering the purchase of the shares of

any shareholders by other shareholders or by the company. Additionally, under our bye-laws and as permitted by Bermuda law, each shareholder has waived any claim or right of action against our directors or officers for any action taken by directors or officers in the performance of their duties, except for actions involving fraud or dishonesty. In addition, the rights of our shareholders and the fiduciary responsibilities of our directors under Bermuda law are not as clearly established as under statutes or judicial precedent in existence in jurisdictions in the U.S., particularly the State of Delaware. Therefore, our shareholders may have more difficulty protecting their interests than would shareholders of a corporation incorporated in a jurisdiction within the U.S.

We have anti-takeover provisions in our bye-laws that may discourage a change of control.

Our bye-laws contain provisions that could make it more difficult for a third party to acquire us without the consent of our Board, including that directors may only be removed for cause and our Board can determine the powers, preferences and rights of our preference shares and issue the preference shares without shareholder approval.

These provisions could discourage, delay or prevent a transaction involving a change in control of our Company and may prevent our shareholders from receiving the benefit from any premium to the market price of our common shares offered by a bidder in a takeover context. Even in the absence of a takeover attempt, the existence of these provisions may adversely affect the prevailing market price of our common shares if the provisions are viewed as discouraging takeover attempts in the future. These provisions could also discourage proxy contests, make it more difficult for you and other shareholders to elect directors of your choosing and allow us to take corporate actions other than those you desire.

General Risk Factors

Interruption, interference with, or failure of our information technology and communications systems could hurt our ability to effectively provide our products and services, which could harm our reputation, financial condition, operating results and cash flows.

The availability of our products and services and fulfillment of our customer obligations depend on the continuing operation of our information technology and communications systems. Our systems are vulnerable to damage, interference, or interruption from modifications or upgrades, terrorist attacks, natural disasters or pandemics, power loss, telecommunications failures, user errors, computer viruses, ransomware attacks, computer denial of service attacks, phishing schemes, or other attempts to harm or access our systems, and we have in the past experienced, and may in the future experience, such events, though the effects have yet to have a material adverse effect on our business. Some of our systems are not fully redundant, and disaster recovery planning cannot account for all eventualities. Any such event relating to our systems (or the systems of third parties that we rely on), could result in theft, misuse, modification or destruction of information, including trade secrets and confidential business information, and cause business disruptions, including those that may disrupt production at our manufacturing facilities, reputational damage and third-party claims, any of which could have a material adverse effect on our business, financial condition, results of operations or cash flows.

Since the techniques used to obtain unauthorized access to systems, or to otherwise sabotage them, change frequently and are often not recognized until launched against a target, we may be unable to anticipate these techniques or to implement adequate preventative measures. As these threats continue to evolve, particularly around cybersecurity, we may be required to expend significant resources to enhance our control environment, processes, practices, and other countermeasures. While we have designed and implemented controls to restrict access to our data and information technology infrastructure, it is still vulnerable to unauthorized access through cyber attacks, theft and other security breaches. These types of attacks have occurred against our systems from time to time, and we believe there have been no material adverse impacts to date. We expect these attacks to continue and our protective measures may not be adequate to ensure that our operations will not be disrupted, should another such event occur in the future. Although we continually seek to improve our countermeasures to prevent such events, we may be unable to anticipate every scenario and it is possible that certain cyber threats or vulnerabilities will be undetected or unmitigated in time to prevent an attack on us and our customers. We have in the past been, and may in the future be, vulnerable to the effects of cybersecurity incidents that occur at third parties such as our customers, suppliers or business partners, and a failure of a third party's safeguards, policies or procedures could compromise our own data or operations. While we maintain safeguards to mitigate the effects of such incidents, we cannot be certain that such safeguards would be effective. These safeguards are reviewed periodically and modified to enable greater mitigation of such risks. See Part I, Item 1C, "Cybersecurity".

In addition, we rely extensively on information systems and technology to manage our business and summarize operating results. We are in the process of a multi-year implementation of a new ERP system, which will replace much of our existing core financial systems. In 2023, we experienced temporary operational disruptions in North America from our ERP system implementation in the region. We may not be able to successfully implement the ERP system in any of the regions in which it has not yet been implemented without experiencing similar delays, increased costs, and other difficulties, including the diversion of management from the day-to-day operation of the business, and failure to successfully implement the ERP system could harm our business, financial condition, results of operations and cash flow. Additionally, the ERP system is critical to our ability to provide important information to our management on a timely basis, obtain and deliver products to

our customers, provide services and customer support, send invoices and track payments, fulfill contractual obligations, accurately maintain books and records, provide accurate, timely and reliable reports on our financial and operating results, improve our data management, and otherwise operate our business. Failure of the ERP system to perform adequately in any of these areas could harm our business, financial condition, operating results and cash flows, and, in the case of functions that impact our customers, could result in harm to our customer relationships. Lastly, if we do not effectively implement the ERP system as planned or the ERP system does not operate as intended, the effectiveness of our internal control over financial reporting could be negatively affected.

Uncertainty in the development, deployment, and use of artificial intelligence in our products and services, as well as our business more broadly, could adversely affect our business and reputation.

We may use systems and tools that incorporate technologies based on artificial intelligence ("AI"), including generative AI for customers and our workforce. As with many new and emerging technologies, AI presents numerous risks and challenges that could adversely affect our business. The development, adoption, and use for generative AI technology remains in early stages and ineffective or inadequate AI or generative AI development or deployment practices by us or third parties could result in unintended consequences. For example, AI algorithms that we use may be flawed or may be based on datasets that are biased or insufficient. There is also uncertainty around the validity and enforceability, as well as the nature, of our rights in intellectual property that is created in connection with our use, development, and deployment of AI, including the potential compromise of our rights in our intellectual property that is input into AI tools, whether done intentionally or by our employees without permission to do so. In addition, our use of AI could unintentionally infringe the intellectual property rights of third parties. Developing, testing, and deploying resource-intensive AI systems may require additional investment and increase our costs. There also may be real or perceived social harm, unfairness, or other outcomes that undermine public confidence in the use and deployment of AI. Certain of our competitors may deploy AI technologies that provide more value to customers than those deployed by us, which could affect customer demand for our products and services. Any of the foregoing may result in decreased demand for our products or harm to our business, results of operations or reputation.

The legal and regulatory landscape surrounding AI technologies is rapidly evolving and uncertain, including in the areas of intellectual property, cybersecurity, and privacy and data protection. Compliance with new or changing laws, regulations or industry standards relating to AI may impose significant operational costs and may limit our ability to develop, deploy or use AI technologies. Failure to appropriately respond to this evolving landscape may result in legal liability, regulatory action, or reputational harm.

Increased competition may adversely affect our business, financial condition, results of operations and cash flows.

As described in greater detail in the "Performance Coatings Competition" section on page 7 and the "Mobility Coatings Competition" section on page 10, we face substantial competition from many international, national, regional and local competitors of various sizes in the manufacturing, distribution and sale of our coatings and related products. Our inability to compete successfully could have a material adverse effect on our business, financial condition, results of operations and cash flows.

We take on credit risk exposure from our customers in the ordinary course of our business.

We routinely offer customers pre-bates, loans and other financial incentives to purchase our products. These arrangements generally obligate the customer to purchase products from us and/or repay us such incentives. In the event that a customer is unwilling or unable to fulfill its obligations under these arrangements, we have incurred, including with respect to the Customer Contract Restructuring (as defined in Part II, Item 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations" below), and may in the future incur, financial losses. In addition, in the ordinary course of our business, we guarantee certain of our customers' obligations to third parties. Any default by our customers on their obligations could force us to make payments to the applicable creditor. It is possible that customer defaults on obligations owed to us and on third-party obligations that we have guaranteed could be significant, which could have a material adverse effect on our business, financial condition, results of operations and cash flows. Our level of credit risk exposure from our customers has remained stable in recent years.

Currency risk may adversely affect our financial condition, results of operations and cash flows.

We derive a significant portion of our net sales from outside the United States and conduct our business and incur costs in the local currency of most countries in which we operate. Because our financial statements are presented in U.S. dollars, we must translate our financial results as well as assets and liabilities into U.S. dollars for financial statement reporting purposes at exchange rates in effect during or at the end of each reporting period, as applicable. Therefore, increases or decreases in the value of the U.S. dollar against other currencies in countries where we operate will affect our results of operations and the value of balance sheet items denominated in foreign currencies. In particular, we are exposed to the Euro, the Brazilian Real, the Chinese Yuan, the British Pound, the Australian Dollar, the Russian Ruble and the Turkish Lira. Furthermore, many of our local businesses import or buy raw materials in a currency other than their functional currency, which can impact the operating results for these operations if we are unable to mitigate the impact of the currency exchange fluctuations. We

cannot accurately predict the effects of exchange rate fluctuations upon our future operating results because of the number of currencies involved, the variability of currency exposures and the potential volatility of currency exchange rates. Accordingly, fluctuations in foreign exchange rates may have an adverse effect on our financial condition, results of operations and cash flows.

Terrorist acts, conflicts, wars, natural disasters, pandemics and other health crises, among other events beyond our control, may materially adversely affect our business, financial condition, results of operations and cash flows.

As a multinational company with a large international footprint, we are subject to increased risk of damage or disruption to us, our employees, facilities, partners, suppliers, distributors, resellers or customers due to terrorist acts, conflicts, wars, adverse weather conditions, natural disasters, power outages, pandemics or other public health crises and environmental incidents, wherever located around the world. The potential for future terrorist acts, conflicts, wars, adverse weather conditions, natural disasters, power outages, pandemics or other public health crises and environmental incidents and the national and international responses to such events or perceived threats or potential conflicts relating to or arising out of such events may create economic and political uncertainties and challenges for us, our customers, suppliers and logistic partners that could have a materially adverse effect on our business, financial condition, results of operations and cash flows. A loss of the use of all or a portion of one of our key manufacturing facilities due to accident, labor issues, weather conditions, acts of war, political unrest, geopolitical risk, terrorist activity, pandemic or other public health crises, natural disaster or otherwise, whether short- or long-term, and any interruption in production capability could require us to make substantial capital expenditures to remedy the situation, which could negatively affect our business, financial condition, results of operations and cash flows.

Russia's conflict with Ukraine and the sanctions and other measures imposed by various governments in response to this conflict have increased the level of economic and political uncertainty globally. While our operations in Russia and Ukraine constituted less than 1% of our net sales during the year ended December 31, 2023, a significant escalation or expansion of economic disruption or countries subject to sanctions or the conflict's scope could have a material adverse effect on our business, financial condition, results of operations and cash flows. In addition, the Israel-Hamas war (including a broadening of the conflict in the Middle East) could result in, among other things, supply chain disruptions, rising prices for oil and other commodities, volatility in capital markets and foreign exchange rates, rising interest rates or heightened cybersecurity risks, any of which may adversely affect the Company's business.

The insurance we maintain may not fully cover all potential exposures.

Our product liability, property, business interruption, cybersecurity and casualty insurance coverages may not cover all risks associated with the operation of our business and may not be sufficient to offset the costs of any losses, lost sales or increased costs experienced during business interruptions. For some risks, we may elect not to obtain insurance. As a result of market conditions, premiums and deductibles for certain insurance policies can increase substantially and, in some instances, certain insurance policies may become unavailable or available only for reduced amounts of coverage. As a result, we may not be able to renew our insurance policies or procure other desirable insurance on commercially reasonable terms, if at all. Losses and liabilities from uninsured or underinsured events and delay in the payment of insurance proceeds could have a material adverse effect on our business, financial condition, results of operations and cash flows.

We are subject to complex and evolving data privacy laws.

Our business is subject to complex and evolving U.S. and foreign laws and regulations regarding privacy, data protection and other matters, including GDPR. We could be liable for loss or misuse of our customers' and/or our employees' personally-identifiable information if we fail to prevent or mitigate such misuse or loss. Although we have developed systems and processes that are designed to protect customer and employee information and prevent misuse of such information and other security breaches, failure to prevent or mitigate such misuse or breaches may affect our reputation and operating results negatively and may require significant management time and attention and could result in significant regulatory fines and/or other penalties.

We may be subject to changes in our tax rates and the adoption of tax legislation or exposure to additional tax liabilities that may adversely affect our results of operations.

We are subject to taxes in the U.S. and non-U.S. jurisdictions where our subsidiaries are organized. Due to economic and political conditions, tax rates, tax laws and other non-tax legislation, such as economic substance regulations, in various jurisdictions may be subject to significant change. Our effective tax rates could be affected by changes in the mix of earnings in countries with differing statutory tax rates, changes in the valuation of deferred tax assets and liabilities, changes in available tax credits or tax deductions and changes in tax and other non-tax laws or their interpretation, such as interpretations as to the legality of tax advantages granted under the EU state aid rules, impacts of the EU's Anti-Tax Avoidance Directive and local exit tax rules with respect to business restructurings. The Organization for Economic Cooperation and Development ("OECD") has reached agreement among various member countries to implement the OECD's Pillar Two framework that imposes a minimum tax rate of 15% among other provisions. Many countries continue to announce changes in their tax laws.

and regulations to adopt Pillar Two proposals or implement a domestic minimum tax. Some of these legislative changes could negatively impact our effective tax rate and tax liabilities. We continue to evaluate the impact of these proposed and enacted legislative changes on our financial statements as new guidance becomes available. Additionally, we and our subsidiaries are engaged in a number of intercompany transactions across multiple tax jurisdictions. Although we believe we have clearly reflected the economics of these transactions and the proper local transfer pricing documentation is in place, tax authorities may propose and sustain adjustments that could result in changes that may impact our mix of earnings in countries with differing statutory tax rates.

Our tax returns and other tax matters are subject to examination by local tax authorities and governmental bodies. We regularly assess the likelihood of an adverse outcome resulting from these examinations to determine the adequacy of our provision for taxes. There can be no assurance as to the outcome of these examinations. If our effective tax rates were to increase, or if the ultimate determination of the taxes owed by us is for an amount in excess of amounts previously accrued, our financial condition, operating results and cash flows could be adversely affected.

Increasing scrutiny and evolving expectations from customers, regulators, investors, and other stakeholders with respect to our environmental, social and governance practices may impose additional costs on us or expose us to new or additional risks.

Companies are facing increasing scrutiny from customers, regulators, investors, and other stakeholders related to their ESG practices and disclosure. Investor advocacy groups, investment funds, and influential investors are also increasingly focused on these practices, especially as they relate to the environment, health and safety, diversity, labor conditions and human rights. Increased ESG-related compliance costs could result in increases to our overall operational costs. New government regulations could also result in new or more stringent forms of ESG oversight, including increased limitation on, or required reduction of, GHG emissions, and the expansion of mandatory and voluntary reporting, diligence, and disclosure regarding ESG matters. Failure to adapt to or comply with regulatory requirements or investor, employee, customer, or other stakeholder expectations and standards, including any perceived failure, could negatively impact our reputation, ability to do business with certain customers, and our stock price and could lead to novel forms of litigation, including shareholder litigation and governmental investigations or enforcement actions related to ESG matters.

In January 2022, we announced a number of 2030 ESG targets, including our aim for a 50% absolute reduction of our Scope 1 and Scope 2 GHG emissions by 2030 and our goal to have carbon neutral operations by 2040. Achievement of these targets depends on our development and execution of various operational strategies relating to each discrete target. The development and execution of these strategies and achievements of our 2030 or 2040 targets are subject to risk and uncertainties, many of which are outside of our control. There are no assurances that we will be able to successfully develop or execute our strategies and achieve our 2030 or 2040 targets, and the failure to achieve any target could damage our reputation, customer and investor relationships, or our access to, and the terms of, financing. Further, given investors' increased focus related to ESG matters, such a failure could cause stockholders to reduce their ownership holdings, all of which, in turn, could adversely affect our business, financial condition, results of operations and cash flows, and reduce our stock price.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 1C. CYBERSECURITY

Risk Management and Strategy

The availability of our products and services and fulfillment of our customer obligations depend on the continuing operation of our information technology and communications systems. Accordingly, cybersecurity represents a critical component of the Company's overall approach to risk management. The Company's cybersecurity policies, standards and practices are integrated into the Company's enterprise risk management ("ERM") approach, and cybersecurity risks are among the core enterprise risks that are subject to oversight by the Board, as described below, acting through the Audit Committee. The Company's cybersecurity policies, standards and practices leverage recognized frameworks established by the International Organization for Standardization.

The Company generally approaches cybersecurity threats through a cross-functional, multilayered approach, with the goals of implementing and maintaining preventative controls, identifying and monitoring threats and maximizing chances of recovery in the case of a cybersecurity incident.

The Company periodically engages assessors, consultants, auditors and other third parties to assess our cybersecurity programs, including information security maturity assessments, audits and independent reviews of our information security control environment and operating effectiveness. The Company attempts to adjust its cybersecurity policies, standards, processes and practices as necessary based on the information provided by the assessments, audits and reviews. In engaging with third-party providers that will have access to certain sensitive Company data, the Company performs a cross-functional due diligence review and attempts to identify risks posed by engaging such third-party providers, and, where feasible, seeks to obtain contractual commitments from such third parties with respect to such engagement. The Company maintains cybersecurity insurance with coverage for security incident response expenses, certain losses due to network security failures, investigation expenses, privacy liability and certain third-party liability, subject to certain deductibles, exclusions and policy limits.

Governance and Oversight

The Board and the Audit Committee are responsible for overseeing the Company's ERM processes, with the Audit Committee being tasked with overseeing cybersecurity risks facing the Company. Throughout the year, the Audit Committee receives relevant updates from management on cybersecurity matters, which address a wide range of topics including, for example, recent developments, evolving standards, vulnerability assessments, third-party and independent reviews, the overall threat environment, technological trends, global employee training and efforts to enhance the Company's cybersecurity capabilities and preparedness. Relevant matters are also reviewed with the full Board on at least an annual basis.

The Company's Chief Information and Digital Officer (the "CIDO"), who reports directly to the Senior Vice President, Chief Financial Officer, is the member of the Company's management that is principally responsible for overseeing the Company's cybersecurity risk management programs, in partnership with business and functional leaders across the Company. The CIDO has 23 years of experience in the information technology and cybersecurity field, including previous roles in security architecture, audit, compliance, and governance.

Under the oversight of the CIDO, members of the Company's Information Technology and Compliance departments administer the Company's cybersecurity response policies, including assessing cybersecurity incidents as they occur and determining the severity of any cybersecurity incidents. To facilitate the success of this program, multidisciplinary teams throughout the Company are deployed to address cybersecurity threats and to respond to cybersecurity incidents in accordance with the Company's policies. These teams report to an incident response governance team, which is composed of members of the Company's senior leadership team. These teams monitor the prevention, detection, mitigation and remediation of cybersecurity incidents in real time, and report incidents to the Audit Committee, as appropriate.

For additional information regarding how cybersecurity threats have affected or are reasonably likely to materially affect our business strategy, results of operations or financial condition, see Part I, Item 1A, "Risk Factors—General Risk Factors—Interruption, interference with, or failure of our information technology and communications systems could hurt our ability to effectively provide our products and services, which could harm our reputation, financial condition, operating results and cash flows".

ITEM 2. PROPERTIES

In February 2024, we moved our corporate headquarters from Glen Mills, PA to Philadelphia, PA. Our extensive geographic footprint comprises 43 manufacturing facilities (including two manufacturing sites operated by our joint ventures), four major technology centers and 49 customer training centers supporting our global operations. The table below presents summary information regarding our facilities as of December 31, 2023.

Type of Facility/Country	Location	Segment

(1) Subject to a mortgage under our Senior Secured Credit Facilities.

We own 28 of our manufacturing facilities, two of our technology centers, and 12 of our customer training centers, while the rest of the facilities and centers are leased. We believe that our properties as currently constituted are suitable, adequate and provide sufficient productive capacity for our current operations.

ITEM 3. LEGAL PROCEEDINGS

We are from time to time party to legal proceedings that arise in the ordinary course of business. We are not involved in any litigation other than that which has arisen in the ordinary course of business. We do not expect that any currently pending lawsuits will have a material adverse effect on us as discussed in Note 5 to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K.

SEC regulations require disclosure of certain environmental matters when a governmental authority is a party to the proceedings and such proceedings involve potential monetary sanctions that the Company reasonably believes will exceed a specified threshold. Pursuant to recent SEC amendments to this requirement, the Company will be using a threshold of \$1 million for such proceedings. The Company is not aware of any matters that exceed this threshold and that meet the other conditions for disclosure.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

INFORMATION ABOUT OUR EXECUTIVE OFFICERS

The executive officers of the Company are appointed by the Board. The following table provides information regarding our executive officers:

Name	Age*	Position
Chris Villavarayan	53	Chief Executive Officer and President
Carl D. Anderson II	54	Senior Vice President and Chief Financial Officer
Troy D. Weaver	52	President, Global Refinish
Hadi H. Awada	45	President, Global Mobility Coatings
Shelley J. Bausch	58	President, Global Industrial Coatings
Amy Tufano	43	Senior Vice President and Chief Human Resources Officer
Alex Tablin-Wolf	40	Senior Vice President, General Counsel & Corporate Secretary

*As of February 15, 2024

Chris Villavarayan

Mr. Villavarayan has served as our Chief Executive Officer and President since January 1, 2023. Mr. Villavarayan joined the Company from Meritor, Inc., a global supplier of a broad range of integrated systems, modules and components to OEMs and the aftermarket for the commercial vehicle, transportation and industrial sectors, where he held a number of positions of increasing responsibility over the course of 22 years, most recently serving, from 2021 until October 2022, as CEO and President. Prior to this role, he served, from 2020-2021, as Executive Vice President and Chief Operating Officer, overseeing Meritor's global operations for both its business units, Global Truck and Aftermarket & Industrial, and serving, from 2018-2021, as board lead with executive oversight of Meritor's four largest joint ventures. From 2018-2020, Mr. Villavarayan served as Senior Vice President and President – Global Truck, with responsibility for leading P&L across Meritor's global truck business, and from 2014-2018 as President – Americas, managing multiple businesses across portfolios as leader of Meritor's North and South America businesses. Meritor was acquired by Cummins Inc. in August 2022. Mr. Villavarayan earned his bachelor's degree in civil engineering from McMaster University and completed the Wharton Executive Education Advanced Finance Program.

Carl D. Anderson II

Mr. Anderson has served as Senior Vice President and Chief Financial Officer at Axalta since August 14, 2023. Previously, he served as the Chief Financial Officer for XPO, Inc., a leading provider of freight transportation services, from November 2022 to August 2023. Prior to XPO, Mr. Anderson was Senior Vice President and CFO at Meritor, Inc., a leading supplier of OEM and aftermarket parts for commercial vehicle and industrial markets, from March 2019 to October 2022. Throughout his 16-year tenure with Meritor, Mr. Anderson also served as Group Vice President, Finance; Treasurer; Assistant Treasurer; and Director, International Capital Markets, Risk Management and Corporate Insurance. Earlier, he held treasury and financial planning roles at General Motors Acceptance Corporation after beginning his career with First Chicago Corporation. Mr. Anderson earned a master's degree in business administration from Wayne State University and a bachelor's degree in Economics from Michigan State University.

Troy D. Weaver

Mr. Weaver has served as our President, Global Refinish since January 2024. Prior to that, Mr. Weaver served as our Senior Vice President, Global Refinish from October 2020 until January 2024, as our Vice President, Global Refinish from August 2019 until October 2020 and as our Vice President, North America Refinish from January 2017 until August 2019 where he was responsible for Axalta's high performing Refinish business in the USA and Canada. Mr. Weaver also led Axalta's initiative to secure and grow market share with multiple location collision shop operators, mega-dealers, and nationally recognized collision shop networks. Mr. Weaver began his career at DuPont Performance Coatings in 1992 where he held various Sales and Marketing leadership roles. He is also a two-time recipient of DuPont's Prestigious Marketing Excellence Award, first in 2007 and again in 2010. Mr. Weaver is active in the industry and has served as Chairman of the Board of CIECA (Collision Industry Electronic Commerce Association).

Hadi H. Awada

Mr. Awada has served as our President, Global Mobility Coatings since January 2024. Prior to that, Mr. Awada was our Senior Vice President, Global Mobility Coatings from October 2020 until January 2024. Previously, Mr. Awada was President, Faurecia Clean Mobility – North America, where he also served as a member of Faurecia's North American Board of Management and President, Faurecia Clean Mobility – Asia Pacific, serving on multiple boards with joint venture partners. In those roles, Mr. Awada ran a multibillion-dollar business and led efforts to develop and deploy an operational turnaround and transform the product line to focus on new technologies for customers seeking sustainability and innovation. Previously at Faurecia, he worked in Europe where he led sales and programs for many international customers. He also spent four years in Asia as the Vice President for light vehicle customer business units, product line, marketing and communications. Mr. Awada was employed by Faurecia from 2004 to 2010 and again from 2013 to 2020. Mr. Awada started his career after earning his B.A. from the University of Toledo, serving the Ford Motor Company in various roles within the Ford customer service division.

Shelley J. Bausch

Ms. Bausch has served as our President, Global Industrial Coatings since January 2024. Prior to that, Ms. Bausch was our Senior Vice President, Global Industrial Coatings from January 2021 until January 2024. Previously, Ms. Bausch led the Asia Pacific region and the Fluid Technologies business unit for the Carlisle Companies Inc., a manufacturer of engineered products used in roofing, architectural metal, aerospace, medical technologies, industrial, transportation, refinish, and agriculture, mining and construction equipment markets. Before Carlisle, she led the Industrial Coatings business for PPG from 2014 to 2017 and, before that, spent 25 years at Dow Corning Corporation in a variety of senior management and commercial roles. Ms. Bausch currently serves on the board of directors of GATX Corporation and served on the board of directors of the Kraton Corporation from 2017 to 2022. She earned a B.S. in Business Administration, summa cum laude, from Alma College and a M.B.A. from the University of Michigan – Flint.

Amy Tufano

Ms. Tufano has served as our Senior Vice President and Chief Human Resources Officer since September 2023. Ms. Tufano has been with Axalta since 2021, joining the company as Vice President of Human Resources ("HR") for the global Operations and Technology organizations. Previously, Ms. Tufano served in HR leadership roles at Campbell Soup Company and Northrop Grumman. She earned an M.B.A. from Loyola Marymount University and a B.A. in Business Administration from Flagler College.

Alex Tablin-Wolf

Mr. Tablin-Wolf has served as our Senior Vice President, General Counsel & Corporate Secretary since January 2024. Mr. Tablin-Wolf joined Axalta in January 2017, and, prior to his current appointment, served in a number of roles of increasing responsibility. Prior to joining Axalta, Mr. Tablin-Wolf was a corporate attorney at Blank Rome LLP and Fox Rothschild LLP, where he concentrated his practice on mergers and acquisitions, venture capital and general corporate counseling. Mr. Tablin-Wolf earned a B.S. in Psychology from Santa Clara University and a J.D., cum laude, from the Temple University Beasley School of Law.

PART II

ITEM 5. MARKET FOR THE REGISTRANT'S COMMON EQUITY, RELATED SHAREHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Share Information

Our common shares are traded on the New York Stock Exchange under the symbol "AXTA."

As of February 8, 2024, there were three registered holders of record of Axalta's common shares as shown on the records of the Company's transfer agent. A substantially greater number of holders of Axalta common shares are "street name" or beneficial holders, whose shares of record are held by banks, brokers and other financial institutions.

Since our incorporation in August 2012, we have not paid dividends on our common shares, and we do not currently intend to pay dividends in the foreseeable future.

Recent Sales of Unregistered Securities

None.

Stock Performance

The line graph below compares the cumulative total shareholder value return of our common shares with the cumulative total returns of an overall stock market index, the Standard & Poor's Composite 500 Index ("S&P 500"), and our peer group index, Standard & Poor's 400 Materials Index ("S&P 400 Materials"). This graph assumes an investment of \$100 in our common shares and each index (with all dividends reinvested) on December 31, 2018.

ITEM 6. RESERVED

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our consolidated financial statements and the notes thereto included elsewhere in this Annual Report on Form 10-K.

This discussion and analysis deals with comparisons of material changes in the consolidated financial statements for 2023 and 2022. For the comparison of 2022 and 2021, see Management's Discussion and Analysis of Financial Condition and Results of Operations in Part II, Item 7 of our 2022 Annual Report on Form 10-K, filed with the SEC on February 16, 2023. During 2023, we replaced Adjusted EBIT with Adjusted EBITDA as the primary measure to evaluate financial performance of our operating segments and allocate resources. For more information, see Note 20 to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K.

FORWARD-LOOKING STATEMENTS

Many statements made in the following discussion and analysis of our financial condition and results of operations and elsewhere in this Annual Report on Form 10-K that are not statements of historical fact, including statements about our beliefs and expectations, are "forward-looking statements" within the meaning of federal securities laws and should be evaluated as such. Forward-looking statements include information concerning possible or assumed future results of operations, including descriptions of our business plan, strategies and capital structure. These statements often include words such as "anticipated," "expect," "believe," "intend," "estimates," "projections," "could," "should," "would," "may," "will," "future," "goals," "committing," "aim," "plans," "can," "predict," "assumptions," "future," "targets," "potential" and "forecasts" and the negative of these words or other comparable or similar terminology. We base these forward-looking statements or projections on our current expectations, plans and assumptions that we have made in light of our experience in the industry, as well as our perceptions of historical trends, current conditions, expected future developments and other factors we believe are appropriate under the circumstances and at such time. As you read and consider this Annual Report on Form 10-K, you should understand that these statements are not guarantees of performance or results. The forward-looking statements and projections are subject to and involve risks and uncertainties, including, but not limited to, economic, competitive, governmental, geopolitical and technological factors outside of our control, as well as impacts from operational disruptions related to our ERP system implementation, that may cause our business, industry, strategy, financing activities or actual results to differ materially. More information on potential factors that could affect our financial results is available in this "Management's Discussion and Analysis of Financial Condition and Results of Operations" as well as "Risk Factors" in this Annual Report on Form 10-K and in other documents that we have filed with, or furnished to, the SEC, and you should not place undue reliance on these forward-looking statements or projections. Although we believe that these forward-looking statements and projections are based on reasonable assumptions at the time they are made, you should be aware that many factors, including, but not limited to, those described in "Risk Factors," could affect our actual financial results or results of operations and could cause actual results to differ materially from those expressed in the forward-looking statements and projections.

These forward-looking statements should not be construed by you to be exhaustive and are made only as of the date of this Annual Report on Form 10-K. We undertake no obligation to update or revise any of the forward-looking statements contained herein, whether as a result of new information, future events or otherwise.

We intend to use our investor relations page at ir.axalta.com as a means of disclosing material information to the public in a broad, non-exclusionary manner for purposes of the SEC's Regulation Fair Disclosure (or Reg. FD). Investors should routinely monitor that site, in addition to our press releases, SEC filings and public conference calls and webcasts, as information posted on that page could be deemed to be material information.

OVERVIEW

We are a leading global manufacturer, marketer and distributor of high-performance coatings systems and products. We have over a 150-year heritage in the coatings industry and are known for manufacturing high-quality products with well-recognized brands supported by market-leading technology and customer service. Our diverse global footprint of 43 manufacturing facilities, four technology centers, 49 customer training centers and approximately 12,000 team members allows us to meet the needs of customers in over 140 countries. We serve our customer base through an extensive sales force and technical support organization, as well as through approximately 4,000 independent, locally based distributors.

We operate our business in two operating segments, Performance Coatings and Mobility Coatings. Our segments are based on the type and concentration of customers served, service requirements, methods of distribution and major product lines.

Through our Performance Coatings segment, we provide high-quality sustainable liquid and powder coating solutions to both large regional and global customers and to a fragmented and local customer base. These customers comprise, among others, independent or multi-shop operator body shops as well as a wide variety of industrial manufacturers. We are one of only a few suppliers with the technology to provide precise color matching and highly durable coatings systems. The end-markets within this segment are refinish and industrial.

Through our Mobility Coatings segment, we provide coatings technologies for light vehicle and commercial vehicle OEMs. These global customers are faced with evolving megatrends in electrification, sustainability, personalization and autonomous driving that require a high level of technical expertise. The OEMs require efficient, environmentally responsible coatings systems that can be applied with a high degree of precision, consistency and speed. The end-markets within this segment are light vehicle and commercial vehicle.

BUSINESS HIGHLIGHTS

General Business Highlights

Our net sales increased 6.1%, including a 0.5% benefit from foreign currency translation, for the year ended December 31, 2023 compared with the year ended December 31, 2022. The increased net sales were driven by higher average selling price and product mix of 5.8%, and the absence of a \$20.3 million reduction to net sales from the restructuring of a Performance Coatings commercial agreement in 2022, which is discussed in more detail in Note 2 to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K ("Customer Contract Restructuring") creating a 0.4% benefit, partially offset by lower volumes of 0.6%. The following trends have impacted our segment net sales performance:

- *Performance Coatings:* Net sales increased 2.4% for the year ended December 31, 2023 compared with the year ended December 31, 2022. The increased net sales were driven by higher average selling price and product mix of 7.0% and the absence of the Customer Contract Restructuring, which created a 0.6% benefit, partially offset by lower sales volumes of 5.8%.
- *Mobility Coatings:* Net sales increased 14.0% for the year ended December 31, 2023 compared with the year ended December 31, 2022. The increased net sales were driven by higher sales volumes of 10.6% and higher average selling price and product mix of 2.9%.

Our business serves four end-markets globally with net sales for the years ended December 31, 2023 and 2022 as follows:

(In millions)	Year Ended December 31,		2023 vs 2022
	2023	2022	% change
Performance Coatings			
Refinish	\$ 2,084.3	\$ 1,943.4	7.3 %
Industrial	1,323.4	1,383.3	(4.3)%
Total Net sales Performance Coatings	3,407.7	3,326.7	2.4 %
Mobility Coatings			
Light Vehicle	1,340.4	1,181.1	13.5 %
Commercial Vehicle	436.0	376.6	15.8 %
Total Net sales Mobility Coatings	1,776.4	1,557.7	14.0 %
Total Net sales	\$ 5,184.1	\$ 4,884.4	6.1 %

Capital and Liquidity Highlights

During August 2023, we entered into the Thirteenth Amendment to the Credit Agreement (as defined in Note 18 to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K) to lower the interest rate spread applicable to the 2029 Dollar Term Loans (as defined in Note 18 to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K) from 3.00% to 2.50% when bearing interest at a rate based on the Secured Overnight Finance Rate ("SOFR"). The other material terms of the Credit Agreement, including the outstanding principal amount and maturity date of the 2029 Dollar Term Loans, remained unchanged.

During November 2023, we issued Senior Notes due in 2031 ("2031 Dollar Senior Notes") in an aggregate principal amount of \$500.0 million. The net proceeds from the 2031 Dollar Senior Notes, together with cash on hand, were used to redeem the €450.0 million aggregate principal amount, with USD equivalent of \$489.4 million, of 3.750% Euro Senior Notes due 2025 ("Redeemed Notes") and pay related transaction costs and expenses.

During the year ended December 31, 2023, we voluntarily prepaid \$200.0 million of the outstanding principal amount of the 2029 Dollar Term Loans. See Note 18 to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K for additional information.

During the year ended December 31, 2023, we repurchased 1.8 million shares of our common stock for total consideration of \$50.0 million as we continued to execute against our previously-approved share repurchase program.

ERP system implementation

We are in the midst of a multi-year project to upgrade our ERP system through a phased implementation approach. The gradual implementation is expected to occur in phases over the next several years. During the second quarter of 2023, we completed the migration to the upgraded ERP system in North America, with further implementations in other geographic regions expected to occur in phases over the next several years.

During the three months ended June 30, 2023, we experienced temporary operational disruptions in North America from our multi-year ERP system implementation. Warehouse management and slower shipping activities resulted in a negative impact to net sales during the three months ended June 30, 2023 in North America, most notably in our Performance Coatings segment. We believe the delays were temporary and were substantially resolved as of June 30, 2023.

Raw material costs

During the year ended December 31, 2023, our results reflect deflationary benefits in raw material pricing compared to the year ended December 31, 2022. We expect the trend of raw material deflation to moderate in 2024.

Russia conflict with Ukraine

Russia's conflict with Ukraine and the sanctions and other measures imposed by various governments in response to this conflict have increased the level of economic and political uncertainty globally. While we ceased commercial operations in Russia during 2023 and our operations in Russia and Ukraine constituted less than 1% of our net sales during the years ended December 31, 2023 and 2022, a significant escalation or expansion of economic disruption, countries subject to sanctions or the conflict's scope could have a material adverse effect on our results of operations, financial condition and cash flows. We are actively monitoring the broader economic impact on commodities and currency exchange rates from the current conflict, especially on the price and supply of raw materials. We recorded benefits of \$1.5 million related to changes in estimates of reserves for accounts receivable and inventory during the year ended December 31, 2023. Net assets of our Russian subsidiaries at December 31, 2023 were approximately \$5.3 million, with \$4.9 million comprising cash and cash equivalents.

Leadership transitions

Chief Financial Officer and General Counsel

On July 17, 2023, the Company appointed Carl Anderson as the Company's new Senior Vice President and Chief Financial Officer, and Sean M. Lannon, the Company's then-current Senior Vice President and Chief Financial Officer, and the Company mutually agreed that Mr. Lannon would resign from such position. Mr. Anderson started on August 14, 2023, immediately prior to which Mr. Lannon ceased to serve as Senior Vice President and Chief Financial Officer.

On September 19, 2023, Brian A. Berube, the Company's then-current Senior Vice President, General Counsel and Corporate Secretary, informed the Board of his decision to retire from such positions, effective as of December 31, 2023. The Board appointed Alex Tablin-Wolf to succeed Mr. Berube as Senior Vice President, General Counsel and Corporate Secretary, effective January 1, 2024.

FACTORS AFFECTING OUR OPERATING RESULTS

The following discussion sets forth certain components of our statements of operations as well as factors that impact those items.

Net sales

We generate revenue from the sale of our products and services across all major geographic areas. Our net sales include total sales less estimates for returns and price allowances. Price allowances include discounts for prompt payment as well as volume-based incentives. Our overall net sales are generally impacted by the following factors:

- fluctuations in overall economic activity within the geographic markets in which we operate;
- underlying growth (or lack thereof) in one or more of our end-markets, either worldwide or in particular geographies in which we operate;
- the type of products used within existing customer applications, or the development of new applications requiring products similar to ours;
- changes in product sales prices (including volume discounts and cash discounts for prompt payment);
- changes in the level of competition faced by our products, including price competition, quality competition and the launch of new products by competitors;
- our ability to successfully develop and launch new products and applications;
- changes in buying habits of our customers (including our distributors); and
- fluctuations in foreign exchange rates.

While the factors described above impact net sales in each of our operating segments, the impact of these factors on our operating segments can differ, as described below. For more information about risks relating to our business, see Part I, Item 1A, "Risk Factors—Risks Related to our Business."

Cost of goods sold ("cost of sales")

Our cost of sales consists principally of the following:

- *Production materials costs.* These include costs of the materials needed to manufacture products for distribution. These costs generally increase on an aggregate basis as production volumes increase, but materials prices are also influenced by changes in market dynamics. A significant amount of the materials used in production are purchased on a global lowest-cost basis.
- *Employee costs.* These include the compensation and benefit costs, including share-based compensation expense, for employees involved in our manufacturing operations and on-site technical support services. These costs generally increase on an aggregate basis as production volumes increase and may decline as a percent of net sales as a result of economies of scale associated with higher production volumes.
- *Depreciation expense.* Property, plant and equipment are stated at cost and depreciated or amortized on a straight-line basis over their estimated useful lives.
- *Other.* Our remaining cost of sales consists of freight costs, warehousing expenses, purchasing costs, costs associated with closing or idling of production facilities, functional costs supporting manufacturing, cost of poor quality, including product claims, and other general manufacturing expenses, such as expenses for utilities and energy consumption.

The main factors that influence our cost of sales as a percentage of net sales include:

- changes in the price of raw materials;
- changes in the costs of labor, logistics and energy;
- production volumes;
- the implementation of cost control measures aimed at improving productivity, including reduction of fixed production costs, refinements in inventory management and the coordination of purchasing within each subsidiary and at the business level;
- changes in sales volumes, average selling prices and product mix;
- inventory obsolescence, quality and yield loss from manufacturing; and
- fluctuations in foreign exchange rates.

Selling, general and administrative expenses ("SG&A")

Our SG&A expense consists of all expenditures incurred in connection with the sales and marketing of our products, as well as technical support for our customers and administrative overhead costs, including:

- compensation and benefit costs for management, sales personnel and administrative staff, including share-based compensation expense. Expenses relating to our sales personnel increase or decrease principally with changes in sales volume due to the need to increase or decrease sales personnel to meet changes in demand. Expenses relating to administrative personnel generally do not increase or decrease directly with changes in sales volume; and
- depreciation, advertising and other selling expenses, such as expenses incurred in connection with travel and communications.

Changes in SG&A expense as a percentage of net sales have historically been impacted by a number of factors, including:

- changes in the costs of labor, including inflationary pressures;
- changes in sales volume, as higher volumes enable us to spread the fixed portion of our administrative expense over higher sales;
- changes in our customer base, as new customers may require different levels of sales and marketing attention;
- new product launches in existing and new markets, as these launches typically involve a more intense sales activity and technical support before they are integrated into customer applications;
- customer credit issues requiring increases to the allowance for doubtful accounts; and
- fluctuations in foreign exchange rates.

Other operating charges

Our other operating charges include termination benefits and other employee-related costs, strategic review and retention costs, acquisition and divestiture-related costs, impairment charges, an operational matter, which is discussed further in Note 5 to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K, and gains of sales of facilities, details of which are included in our reconciliations of segment operating performance to income before income taxes.

Research and development expenses

Research and development expenses represent costs incurred to develop new products, services, processes and technologies or to generate significant improvements to existing products, services or processes.

Interest expense, net

Interest expense, net consists primarily of interest expense on institutional borrowings and other financing obligations and changes in fair value of interest rate derivative instruments, net of capitalized interest expense. Interest expense, net also includes the amortization of debt issuance costs and debt discounts associated with our Senior Secured Credit Facilities, Senior Notes and other indebtedness.

Other expense (income), net

Other expense (income), net represents costs incurred on various non-operational items including costs incurred in conjunction with our debt refinancing and extinguishment transactions, interest income, as well as foreign exchange gains and losses and non-operational impairment losses unrelated to our core business.

Provision for income taxes

We and our subsidiaries are subject to income tax in the various jurisdictions in which we operate. While the extent of our future tax liability is uncertain, changes to the debt and equity capitalization of our subsidiaries, the realignment of the functions performed, and risks assumed by the various subsidiaries are among the factors that will determine the future book and taxable income of the Company and its subsidiaries.

RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the information contained in the accompanying financial statements and related notes included elsewhere in this Annual Report on Form 10-K. Our historical results of operations summarized and analyzed below may not necessarily reflect what will occur in the future.

Net sales

	Year Ended December 31,		2023 vs 2022	
	2023	2022	\$ Change	% Change
Net sales	\$ 5,184.1	\$ 4,884.4	\$ 299.7	6.1 %
Price/Mix effect				5.8 %
Exchange rate effect				0.5 %
Impact of one-time events				0.4 %
Volume effect				(0.6)%

Net sales increased primarily due to the following:

- Higher average selling prices and product mix in both segments and all regions, primarily as a result of pricing actions taken to offset cumulative input cost inflation
- Favorable impacts of currency translation due primarily to fluctuations of the Mexican Peso, Euro and Brazilian Real, partially offset by the Chinese Yuan, South African Rand and Swedish Krona, compared to the U.S. Dollar
- The absence of a \$20.3 million reduction in the prior year from the Customer Contract Restructuring

Partially offset by:

- Lower sales volumes primarily as a result of temporary operational delays in North America from our multi-year ERP system implementation, a deprioritization of certain low-margin refinish products, a weaker industrial market environment, and the strategic decision to exit certain industrial customers, partially offset by higher sales volumes within Mobility Coatings

Cost of sales

	Year Ended December 31,		2023 vs 2022	
	2023	2022	\$ Change	% Change
Cost of sales	\$ 3,565.6	\$ 3,465.6	\$ 100.0	2.9 %
% of net sales	68.8 %	71.0 %		

Cost of sales increased primarily due to the following:

- Higher operating expenses due primarily to increased labor costs
- Higher costs of \$41.0 million associated with our multi-year ERP system implementation and fees for third-party consultants focused on productivity programs
- Increase of \$21.5 million in inventory charges from obsolescence, quality and yield loss from manufacturing compared to the prior year
- Impairment charge of \$8.2 million due to the decision to demolish assets at a previously closed manufacturing site

Partially offset by:

- Lower variable input costs as a result of deflationary benefits and savings driven by the productivity programs launched during 2023
- Unfavorable currency translation impacts of approximately 0.5% due primarily to the strengthening of the Mexican Peso, Euro and Brazilian Real, partially offset by the weakening of the Chinese Yuan and South African Rand
- Decreased costs associated with lower sales volumes in Performance Coatings

Cost of sales as a percentage of net sales decreased primarily due to the following:

- Higher average selling prices in both segments and all regions
- Lower variable input costs as a result of deflationary benefits and savings driven by the productivity programs launched during 2023
- The absence of a \$20.3 million reduction to net sales in the prior year from the Customer Contract Restructuring which had no corresponding impact on cost of sales

Partially offset by:

- Higher operating expenses due primarily to increased labor costs
- Higher costs of \$41.0 million associated with our multi-year ERP system implementation and fees for third-party consultants focused on productivity programs
- Increase of \$21.5 million in inventory charges from obsolescence, quality and yield loss from manufacturing compared to the prior year
- Impairment charge of \$8.2 million due to the decision to demolish assets at a previously closed manufacturing site

Selling, general and administrative expenses

	Year Ended December 31,		2023 vs 2022	
	2023	2022	\$ Change	% Change
Selling, general and administrative expenses	\$ 840.1	\$ 772.4	\$ 67.7	8.8 %

Selling, general and administrative expenses increased primarily due to the following:

- Higher operating expenses due primarily to increased variable labor costs
- Increased commissions resulting from increased sales
- Increase of \$5.3 million in bad debt expense
- Unfavorable currency translation impacts of approximately 0.6% due primarily to the strengthening of the Euro and Mexican Peso, partially offset by the weakening of the Chinese Yuan

Other operating charges

	Year Ended December 31,		2023 vs 2022	
	2023	2022	\$ Change	% Change
Other operating charges	\$ 28.4	\$ 31.5	\$ (3.1)	(9.8)%

Other operating charges decreased primarily due to the following:

- Decrease of \$19.5 million in termination benefits and other employee-related costs associated with our cost saving initiatives
- Decrease of \$5.1 million from expenses of \$3.5 million in the prior year to benefits of \$1.6 million in the current period as a result of changes in estimates of reserves for accounts receivable related to Russia's conflict with Ukraine

Partially offset by:

- Third-party consultant costs of \$12.1 million related to productivity programs recorded during the current period of which there was no comparable activity in the prior year
- Impairment charges increased \$7.5 million primarily related to the exit of a non-core business category in Mobility Coatings
- Contingent consideration adjustments associated with acquisitions of \$1.0 million, of which there was no comparable activity in the prior year
- Increase of \$0.7 million in accelerated depreciation and site closure expenses

Research and development expenses

	Year Ended December 31,		2023 vs 2022	
	2023	2022	\$ Change	% Change
Research and development expenses	\$ 74.0	\$ 66.4	\$ 7.6	11.4 %

Research and development expenses increased primarily due to the following:

- Increased labor costs
- Impacts of currency translation were immaterial when compared to the prior year

Amortization of acquired intangibles

	Year Ended December 31,		2023 vs 2022	
	2023	2022	\$ Change	% Change
Amortization of acquired intangibles	\$ 88.5	\$ 125.3	\$ (36.8)	(29.4)%

Amortization of acquired intangibles decreased primarily due to the following:

- Reduced amortization from intangibles relating to the DPC acquisition reaching the end of their useful lives
- Impacts of currency translation were immaterial when compared to the prior year

Interest expense, net

	Year Ended December 31,		2023 vs 2022	
	2023	2022	\$ Change	% Change
Interest expense, net	\$ 213.3	\$ 139.8	\$ 73.5	52.6 %

Interest expense, net increased primarily due to the following:

- Unfavorable impact of approximately \$82.3 million due to the interest rate on the 2029 Dollar Term Loans, which were issued in December 2022 to replace the 2024 Dollar Term Loans (as defined in Note 18 to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K), partially offset by a lower interest rate from a repricing in August 2023
- Unfavorable impact of approximately \$2.3 million due to the interest rate on the 2031 Dollar Senior Notes, which were issued in November 2023 to replace the 2025 Euro Senior Notes (as defined in Note 18 to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K)

Partially offset by:

- Favorable impact of a lower principal balance of the 2029 Dollar Term Loans during the current year period, primarily as a result of \$200.0 million of voluntary payments during the current year
- Impacts of currency translation were immaterial when compared to the prior year

Other expense, net

	Year Ended December 31,		2023 vs 2022	
	2023	2022	\$ Change	% Change
Other expense, net	\$ 19.5	\$ 26.1	\$ (6.6)	25.3 %

Other expense, net changed primarily due to the following:

- Decreased debt extinguishment and refinancing related costs of \$4.8 million as the impact of refinancing the 2024 Dollar Term Loan in December 2022 exceeded the costs incurred during 2023 to reprice the 2029 Dollar Term Loans in August 2023, issue the 2031 Dollar Senior Notes in November 2023 and the write-offs related to \$200.0 million of voluntary prepayments on the 2029 Dollar Term Loans
- The absence of a \$4.7 million charge recorded in 2022 for the Customer Contract Restructuring
- Increased miscellaneous income, net of \$5.7 million

Partially offset by:

- Unfavorable impact of foreign exchange losses of \$7.5 million when compared with the prior year, including a devaluation of net monetary assets denominated in the Turkish Lira and Argentinian Peso due to hyperinflationary conditions
- Increase of \$1.1 million in expense from pension special events from a benefit of \$0.8 million in the prior year to an expense of \$0.3 million in the current year

Provision for income taxes

	Year Ended December 31,	
	2023	2022
Income before income taxes	\$ 354.7	\$ 257.3
Provision for income taxes	86.2	65.1
Statutory U.S. Federal income tax rate	21.0 %	21.0 %
Effective tax rate	24.3 %	25.3 %
Effective tax rate vs. statutory U.S. Federal income tax rate	3.3 %	4.3 %
Items impacting the effective tax rate vs. statutory U.S. federal income tax rate		
	(Favorable) Unfavorable Impact	
	2023	2022
Earnings generated in jurisdictions where the statutory rate is lower than the U.S. Federal rate ⁽¹⁾	\$ (29.1)	\$ (22.4)
Changes in valuation allowance	37.9	1.6
Foreign exchange gains and losses	0.6	(5.4)
Tax credits	(8.8)	(8.7)
Non-deductible expenses and interest	6.6	5.7
Change in unrecognized tax benefits	(6.0)	6.2
State taxes	5.4	4.8
Foreign taxes	9.0	6.9
Other - net ⁽²⁾	(3.9)	22.3

(1) Primarily related to earnings in Bermuda, Germany, Luxembourg and Switzerland.

(2) In 2022, the Company recorded a tax expense of \$23.0 million in the Netherlands, which was fully offset by a tax benefit of \$23.0 million for an increase to the valuation allowance.

SEGMENT RESULTS

The Company's products and operations are managed and reported in two operating segments: Performance Coatings and Mobility Coatings. During the three months ended December 31, 2023, the Company replaced Adjusted EBIT with Adjusted EBITDA as the primary measure to evaluate financial performance of the operating segments and allocate resources. See Note 20 to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K for additional information.

Performance Coatings Segment

	Year Ended December 31,		2023 vs 2022	
	2023	2022	\$ Change	% Change
Net sales	\$ 3,407.7	\$ 3,326.7	\$ 81.0	2.4 %
Price/Mix effect				7.0 %
Impact of one-time events				0.6 %
Exchange rate effect				0.6 %
Volume effect				(5.8)%
Adjusted EBITDA	\$ 741.9	\$ 700.0	\$ 41.9	6.0 %
Adjusted EBITDA Margin	21.8 %	21.0 %		

Net sales increased primarily due to the following:

- Higher average selling prices and product mix across both end-markets and all regions primarily as a result of pricing actions taken to offset cumulative input cost inflation
- The absence of a \$20.3 million reduction in the prior year from the Customer Contract Restructuring, creating a 0.6% benefit in the current year

Partially offset by:

- Lower sales volumes across both end-markets, primarily driven by impacts of temporary operational delays in North America from our multi-year ERP system implementation, a deprioritization of certain low-margin refinish products, a weaker industrial market environment and the strategic decision to exit certain Industrial customers

Adjusted EBITDA and Adjusted EBITDA margin increased primarily due to the following:

- Higher average selling prices and product mix across both end-markets and all regions primarily as a result of pricing actions taken to offset cumulative input cost inflation
- Decreased variable input costs primarily within industrial as a result of deflationary benefits and savings driven by the productivity programs launched during 2023

Partially offset by:

- Higher operating expenses due primarily to increased labor costs
- Lower sales volumes across both end-markets, primarily driven by impacts of temporary operational delays in North America from our multi-year ERP system implementation, a deprioritization of certain low-margin refinish products, a weaker industrial market environment and the strategic decision to exit certain Industrial customers
- Less effective coverage of fixed costs as a result of lower sales volumes
- Higher costs of \$27.0 million associated with our multi-year ERP system implementation and fees for third-party consultants focused on productivity programs
- Increase of \$14.7 million in inventory charges from obsolescence, quality and yield loss from manufacturing compared to the prior year

In addition to the factors noted above, the current year period Adjusted EBITDA margin was negatively impacted by:

- The absence of a \$20.3 million reduction to net sales in the prior year from the Customer Contract Restructuring

Mobility Coatings Segment

	Year Ended December 31,		2023 vs 2022	
	2023	2022	\$ Change	% Change
Net sales	\$ 1,776.4	\$ 1,557.7	\$ 218.7	14.0 %
Volume effect				10.6 %
Price/Mix effect				2.9 %
Exchange rate effect				0.5 %
Adjusted EBITDA	\$ 209.5	\$ 110.8	\$ 98.7	89.1 %
Adjusted EBITDA Margin	11.8 %	7.1 %		

Net sales increased primarily due to the following:

- Higher sales volumes across both end-markets and all regions
- Higher average selling prices and product mix across both end-markets primarily as a result of pricing actions taken to offset cumulative input cost inflation

Adjusted EBITDA and Adjusted EBITDA margin increased primarily due to the following:

- Decreased variable input costs across both end-markets and all regions due to deflationary benefits and savings driven by the productivity programs launched during 2023
- Higher sales volumes across both end-markets and all regions
- Higher average selling prices and product mix across both end-markets primarily as a result of pricing actions taken to offset cumulative input cost inflation

Partially offset by:

- Higher operating expenses due primarily to increased labor costs
- Higher costs of \$14.0 million associated with our multi-year ERP system implementation and fees for third-party consultants focused on productivity programs
- Increase of \$6.8 million in inventory charges from obsolescence, quality and yield loss from manufacturing compared to the prior year

LIQUIDITY AND CAPITAL RESOURCES

Our primary sources of liquidity are cash on hand, net cash provided by operating activities and available borrowing capacity under our Senior Secured Credit Facilities.

At December 31, 2023, availability under the Revolving Credit Facility was \$527.7 million, net of \$22.3 million of letters of credit outstanding. All such availability may be utilized without violating any covenants under the Credit Agreement or the indentures governing the Senior Notes. At December 31, 2023, we had \$3.8 million of outstanding borrowings under other lines of credit. Our remaining available borrowing capacity under other lines of credit in certain non-U.S. jurisdictions totaled \$55.4 million.

We, or our affiliates, at any time and from time to time, may purchase shares of our common stock or the Senior Notes, and may prepay our 2029 Dollar Term Loans or other indebtedness. Any such purchases of our common stock or Senior Notes may be made through the open market or privately negotiated transactions with third parties or pursuant to one or more redemption, tender or exchange offers or otherwise, upon such terms and at such prices, as well as with such consideration, as we, or any of our affiliates, may determine.

We have various supplier finance programs in place around the world. We partner with large banking institutions and utilize these programs to enhance our liquidity profile. Depending on the program, the liabilities under the program are classified either as accounts payable or current portion of borrowings on our consolidated balance sheets. Our supplier financing facility in China is more fully described in Note 17 to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K.

Cash Flows

Years ended December 31, 2023 and 2022

(In millions)	Years Ended December 31,	
	2023	2022
Net cash provided by (used for):		
Operating activities:		
Net income	\$ 268.5	\$ 192.2
Depreciation and amortization	275.6	303.1
Amortization of deferred financing costs and original issue discount	8.5	9.6
Debt extinguishment and refinancing-related costs	9.9	14.7
Deferred income taxes	(8.4)	(3.4)
Realized and unrealized foreign exchange losses, net	21.4	15.5
Stock-based compensation	26.2	22.2
Impairment charges	15.3	0.7
Gains on sales of facilities	(0.3)	(1.5)
Interest income on swaps designated as net investment hedges	(9.6)	(19.9)
Commercial agreement restructuring charge	—	25.0
Other non-cash, net	21.7	7.0
Net income adjusted for non-cash items	628.8	565.2
Changes in operating assets and liabilities	(53.5)	(271.4)
Operating activities	575.3	293.8
Investing activities	(205.7)	(106.4)
Financing activities	(315.0)	(368.9)
Effect of exchange rate changes on cash	(6.4)	(14.8)
Net (decrease) increase in cash	\$ 48.2	\$ (196.3)

Year Ended December 31, 2023

Net Cash Provided by Operating Activities

Net cash provided by operating activities for the year ended December 31, 2023 was \$575.3 million. Net income before deducting depreciation, amortization and other non-cash items generated cash of \$628.8 million. This was partially offset by net uses of working capital of \$53.5 million, for which the most significant drivers were increases in accounts and notes receivable and prepaid expenses and other assets of \$119.0 million and \$70.7 million, respectively, driven primarily by increased price-mix, the timing of collections and payments of Business Incentive Plan assets (“BIPs”). These outflows were partially offset by decreases in inventories of \$103.1 million as a result of management of inventory levels and increases in other accrued liabilities of \$29.3 million.

Net Cash Used for Investing Activities

Net cash used for investing activities for the year ended December 31, 2023 was \$205.7 million. The primary uses were for purchases of property, plant and equipment of \$137.9 million and for business acquisitions of \$106.3 million discussed further in Note 3 to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K, partially offset by proceeds of \$39.0 million from settlements and interest proceeds from swaps designated as net investment hedges, which are discussed further in Note 19 to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K.

Net Cash Used for Financing Activities

Net cash used for financing activities for the year ended December 31, 2023 was \$315.0 million. The primary uses were voluntary prepayments of \$200.0 million of the outstanding principal amount of the 2029 Dollar Term Loans, contractual repayments of \$56.7 million on borrowings, which includes \$41.9 million for our China supplier financing program, purchases of our common stock totaling \$50.0 million, payments of \$16.6 million for fees associated with refinancing our 2024 Dollar Term Loans, repricing our 2029 Dollar Term Loans and the issuance of the 2031 Dollar Senior Notes and payments totaling \$7.7 million for deferred acquisition-related consideration. Partially offsetting the outflows were proceeds of \$8.8 million from a short-term borrowing and \$7.5 million net cash received primarily from stock option exercises. Our China supplier financing program and our 2024 Dollar Term Loan refinancing are discussed further in Note 17 and Note 18 to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K.

Other Impacts on Cash

Currency exchange impacts on cash for the year ended December 31, 2023 were unfavorable by \$6.4 million, which was driven primarily by the fluctuations of the Euro, Argentinian Peso and Turkish Lira, partially offset by the Mexican Peso and British Pound compared to the U.S. Dollar.

Year Ended December 31, 2022*Net Cash Provided by Operating Activities*

Net cash provided by operating activities for the year ended December 31, 2022 was \$293.8 million. Net income before deducting depreciation, amortization and other non-cash items generated cash of \$565.2 million. This was offset by net uses of working capital of \$271.4 million, for which the most significant drivers were increases in inventories, accounts and notes receivable, prepaid expenses and other assets of \$195.4 million, \$171.0 million and \$80.5 million, respectively. These outflows were primarily driven by increased sales volumes and price-mix, increased inventory on hand caused by supply chain disruptions combined with inflation of raw material, freight, logistics and energy costs and payments of BIPS. The outflows were partially offset by increases in accounts payable of \$138.0 million primarily due to raw material cost inflation, as well as elevated freight, logistics and energy costs.

Net Cash Used for Investing Activities

Net cash used for investing activities for the year ended December 31, 2022 was \$106.4 million. The primary use was for purchases of property, plant and equipment of \$150.9 million, partially offset by proceeds of \$44.9 million from settlements and interest from swaps designated as net investment hedges, which are discussed further in Note 19 to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K.

Net Cash Used for Financing Activities

Net cash used for financing activities for the year ended December 31, 2022 was \$368.9 million. The primary uses were for the purchase of common stock totaling \$200.1 million, payments, net of refinancing proceeds, of \$153.0 million on borrowings, which includes \$64.6 million for our China supplier financing program, and outflows of \$15.1 million for fees associated with refinancing our 2024 Dollar Term Loans. Our China supplier financing program and our 2024 Dollar Term Loan refinancing are discussed further in Note 17 and Note 18, respectively, to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K.

Other Impacts on Cash

Currency exchange impacts on cash for the year ended December 31, 2022 were unfavorable by \$14.8 million, which was driven primarily by weakening in the British Pound, Argentine Peso and Chinese Yuan compared to the U.S. Dollar partially offset by the strengthening of the Mexican Peso.

Financial Condition

We had cash and cash equivalents at December 31, 2023 and 2022 of \$699.8 million and \$645.2 million, respectively. Of these balances, \$462.4 million and \$433.6 million were maintained in non-U.S. jurisdictions as of December 31, 2023 and 2022, respectively, with \$4.9 million and \$12.9 million, respectively, within Russia. We believe at this time our organizational structure allows us the necessary flexibility to move funds throughout our subsidiaries to meet our operational working capital needs.

Our business may not generate sufficient cash flow from operations and future borrowings may not be available under our Senior Secured Credit Facilities in an amount sufficient to enable us to pay our indebtedness, or to fund our other liquidity needs, including planned capital expenditures. In such circumstances, we may need to refinance all or a portion of our indebtedness on or before maturity. We may not be able to refinance any of our indebtedness on commercially reasonable terms or at all. If we cannot service our indebtedness, we may have to take actions such as selling assets, selling additional equity or reducing or delaying capital expenditures, strategic acquisitions, investments and alliances. Our primary sources of liquidity are cash on hand, cash flow from operations and available borrowing capacity under our Senior Secured Credit Facilities. Based on our forecasts, we believe that cash flow from operations, available cash on hand and available borrowing capacity under our Senior Secured Credit Facilities and existing lines of credit will be adequate to service debt, fund our cost saving initiatives, meet liquidity needs and fund necessary capital expenditures for the next twelve months.

Our ability to make scheduled payments of principal or interest on, or to refinance, our indebtedness or to fund working capital requirements, capital expenditures and other current obligations will depend on our ability to generate cash from operations. Such cash generation is subject to general economic, financial, competitive, legislative, regulatory and other factors that are beyond our control, including the effects of Russia's conflict with Ukraine.

If required, our ability to raise additional financing and our borrowing costs may be impacted by short and long-term debt ratings assigned by independent rating agencies, which are based, in significant part, on our performance as measured by certain credit metrics such as interest coverage and leverage ratios. Our highly leveraged nature may limit our ability to procure additional financing in the future and elevated interest rates, as experienced during 2022 and 2023, may increase our interest expense and weaken our financial condition.

The following table details our borrowings outstanding at the dates indicated:

(In millions)	December 31,	
	2023	2022
2029 Dollar Term Loans	\$ 1,785.8	\$ 2,000.0
2025 Euro Senior Notes	—	479.1
2027 Dollar Senior Notes	500.0	500.0
2029 Dollar Senior Notes	700.0	700.0
2031 Dollar Senior Notes	500.0	—
Short-term and other borrowings	61.8	74.5
Unamortized original issue discount	(16.5)	(22.4)
Unamortized deferred financing costs	(26.9)	(26.9)
Total borrowings, net	3,504.2	3,704.3
Less:		
Short-term borrowings	7.2	16.0
Current portion of long-term borrowings	18.5	15.0
Long-term debt	\$ 3,478.5	\$ 3,673.3

Our indebtedness, including the Senior Secured Credit Facilities, Senior Notes and short-term borrowings, is more fully described in Note 18 to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K.

We believe that we continue to maintain sufficient liquidity to meet our requirements, including our leverage and associated interest payments as well as our working capital needs. Availability under the Revolving Credit Facility was \$527.7 million and \$529.3 million at December 31, 2023 and December 31, 2022, respectively, all of which may be borrowed by us without violating any covenants under the credit agreement governing such facility or the indentures governing the Senior Notes.

The following table details our borrowings outstanding, average effective interest rates and the associated interest expense for the years ended December 31, 2023 and 2022. Interest expense is inclusive of the amortization of debt issuance costs, debt discounts and the impact of derivative instruments for the years ended December 31, 2023 and 2022, respectively:

(In millions)	Years Ended December 31,					
	2023			2022		
	Principal	Average Effective Interest Rate	Interest Expense	Principal	Average Effective Interest Rate	Interest Expense
Term Loans	\$ 1,785.8	8.2%	\$ 144.1	\$ 2,000.0	3.9%	\$ 70.5
Revolving Credit Facility	—	N/A	2.6	—	N/A	2.7
Senior Notes	1,700.0	4.2%	67.5	1,679.1	4.1%	63.8
Short-term and other borrowings	61.8	Various	4.7	74.5	Various	5.6
Capitalized interest	N/A	N/A	(5.6)	N/A	N/A	(2.8)
Total	<u>\$ 3,547.6</u>		<u>\$ 213.3</u>	<u>\$ 3,753.6</u>		<u>\$ 139.8</u>

After giving effect to our cross-currency and interest rate hedges, our borrowings denominated in U.S. Dollars as of December 31, 2023 and 2022 were \$2,532.1 million and \$2,434.0 million, respectively, with weighted average interest rates of 6.5% and 5.4%, respectively. After giving effect to our cross-currency and interest rate hedges, borrowings denominated in Euros as of December 31, 2023 and 2022 were \$1,015.5 million and \$1,319.6 million, respectively, with weighted average interest rates of 4.3% and 2.5%, respectively.

Contractual Obligations

See Note 6 and Note 18 to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K for disclosure of our material contractual obligations.

Off Balance Sheet Arrangements

See Note 5 to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K for disclosure of our guarantees of certain customers' obligations to third parties.

Recent Accounting Guidance

See Note 1 to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K for a summary of recent accounting guidance.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our discussion and analysis of results of operations and financial condition are based upon our consolidated financial statements. These financial statements have been prepared in accordance with U.S. GAAP unless otherwise noted. The preparation of these financial statements requires us to make estimates and judgments that affect the amounts reported in the financial statements. We base our estimates and judgments on historical experiences and assumptions believed to be reasonable under the circumstances and re-evaluate them on an ongoing basis. Actual results could differ from our estimates under different assumptions or conditions. Our significant accounting policies, which may be affected by our estimates and assumptions, are more fully described in Note 1 to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K.

An accounting policy is deemed to be critical if it requires an accounting estimate to be made based on assumptions about matters that are highly uncertain at the time the estimate is made, and if different estimates that reasonably could have been used, or changes in the accounting estimates that are reasonably likely to occur periodically, could materially impact the financial statements. Management believes the following critical accounting policies reflect its most significant estimates and assumptions used in the preparation of the financial statements.

Accounting for Business Combinations

Determining the fair value of assets acquired and liabilities assumed in business combinations requires management's judgment and often involves the use of significant estimates and assumptions, including assumptions with respect to future cash inflows and outflows, discount rates, royalty rates, customer attrition rates, technology migration rates, asset lives and market multiples, among other items.

The fair values of intangible assets are estimated using an income approach, either the excess earnings method (customer relationships) or the relief from royalty method (technology and trademarks). Under the excess earnings method, an intangible asset's fair value is equal to the present value of the incremental after-tax cash flows attributable solely to the intangible asset over its remaining useful life. With respect to customer relationships, fair values are calculated using the excess earnings method and customer attrition is a key input used to determine the applicable after-tax cash flows. Under the relief from royalty method, fair value is measured by estimating future revenue associated with the intangible asset over its useful life and applying a royalty rate to the revenue estimate. These intangible assets enable us to secure markets for our products, develop new products to meet evolving business needs and competitively produce our existing products.

The fair values of real properties acquired are based on the consideration of their highest and best use in the market. The fair values of property, plant and equipment, other than real properties, are based on the consideration that unless otherwise identified, they will continue to be used "as is" and as part of the ongoing business. In contemplation of the in-use premise and the nature of the assets, the fair value is developed primarily using a cost approach.

The fair value of noncontrolling interests, when applicable, are estimated by applying an income approach and is based on significant inputs that are not observable in the market. Key assumptions in the valuation of noncontrolling interest include a discount rate, a terminal value based on a range of long-term sustainable growth rates and adjustments because of the lack of control that market participants would consider when measuring the fair value of the noncontrolling interests.

The fair value of contingent consideration liabilities is estimated by using a probability-weighted expected payment method that considers the timing of expected future cash flows and the probability of whether key elements of the contingent event are completed. The fair value measurements are based on significant inputs that are not observable in the market. Key assumptions in the valuation of contingent consideration liabilities include discount rates, expected terms, volatility rates and operating results as applicable based on the targets identified in the respective acquisition agreements.

See Notes 1 and 3 to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K for additional information.

Asset Impairments

Factors that could result in future impairment charges or changes in useful lives, among others, include changes in worldwide economic conditions, changes in technology, changes in competitive conditions and customer preferences, and fluctuations in foreign currency exchange rates. These risk factors are discussed in Part I, Item 1A, "Risk Factors," included elsewhere in this Annual Report on Form 10-K.

Goodwill and indefinite-lived intangible assets

The Company tests indefinite-lived intangible assets and goodwill for impairment annually by either performing a qualitative evaluation or a quantitative test. The qualitative evaluation is an assessment of factors to determine whether it is more likely than not that the fair values of a reporting unit or indefinite-lived intangible asset is less than its carrying amount. Fair values used under the quantitative impairment assessment are estimated using a combination of discounted projected future earnings or cash flow methods that are based on projections of the amounts and timing of future revenue and cash flows, and multiples of earnings in estimating fair value. In conjunction with our impairment assessments of indefinite-lived intangible assets, we also review the reasonableness of the indefinite useful lives associated with these assets, in which we evaluate whether indicators exist that future cash flows associated with these assets could be realized over a finite period.

In 2023, we performed a qualitative evaluation for impairment over our reporting units and indefinite-lived intangible assets and concluded that it was not more likely than not that the fair values are less than the respective carrying amounts.

The inputs utilized in a quantitative analysis are classified as Level 3 inputs within the fair value hierarchy as defined in Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*. The process of evaluating the potential impairment of goodwill and indefinite-lived intangible assets is subjective because it requires the use of estimates and assumptions as to our future cash flows, discount rates commensurate with the risks involved in the assets, future economic and market conditions, as well as other key assumptions. Based on the results of our 2023 qualitative evaluation, we do not believe the meaningful estimates and assumptions supporting the goodwill and indefinite-lived intangible assets balances have changed materially from our most recent quantitative evaluation in 2022, which rendered fair values substantially in excess of carrying values for all reporting units. We believe that the amounts recorded in the financial statements related to goodwill and indefinite-lived intangible assets are based on the best estimates and judgments of the appropriate Axalta management, although actual outcomes could differ from our estimates.

See Note 1 to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K for additional information.

Long-Lived Assets

Long-lived assets, which includes property, plant and equipment, and definite-lived intangible assets, such as technology, trademarks, customer relationships and non-compete agreements, are continually assessed for impairment at the asset group level whenever events or changes in circumstances indicate the carrying amount of the asset group may not be recoverable. Such impairment assessments involve comparing the carrying amount of the asset group, as defined within ASC 360, *Property, Plant and Equipment*, as the lowest level for which identifiable cash flows are largely independent of the cash flows of other groups of assets, to the forecasted undiscounted future cash flows generated by that asset group (i.e., a recoverability test). In the event the carrying amount of the asset group exceeds the undiscounted future cash flows generated by that asset group and the carrying amount is not considered recoverable, an impairment exists. An impairment loss is measured as the excess of the asset group's carrying amount over its fair value.

Stock-Based Compensation

Compensation expense related to service-based, non-qualified stock options is equivalent to the grant-date fair value of the awards determined under the Black-Scholes option pricing model and is recognized as compensation expense over the service period utilizing the graded vesting attribution method.

Compensation expense related to restricted stock units is equal to the grant-date fair value of the awards determined by the closing share price on the date of the grant. The related expense is recognized as compensation expense over the service period utilizing the graded vesting attribution method.

Compensation expense related to performance share units, which are determined to have a market condition, is determined at the grant-date of the awards using a valuation methodology (Monte Carlo simulation model) to account for the market conditions linked to these awards and is recognized over the service period utilizing the graded vesting attribution method.

Compensation expense related to performance share units, which are determined to have a performance condition, is determined by the closing share price on the date of the grant and is recognized over the service period utilizing the graded vesting attribution method. The expense is adjusted for shares expected to vest based on performance conditions at each reporting date.

We recognize compensation expense net of forfeitures, which we have elected to record at the time of occurrence. Awards that are modified are evaluated for the type of modification and, if necessary, the fair value is adjusted and expense is recorded over any remaining service period.

See Note 8 to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K for further detail on stock-based compensation.

Retirement Benefits

The amounts recognized in the audited financial statements related to pension benefits are determined from actuarial valuations. Inherent in these valuations are assumptions including expected return on plan assets, discount rates at which liabilities could have been settled, rate of increase in future compensations levels, and mortality rates. These assumptions are updated annually and are disclosed in Note 7 to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K. In accordance with U.S. GAAP, actual results that differed from the assumptions are accumulated and amortized over future periods and therefore affect expense recognized in future periods.

The estimated impact of either a 100 basis point increase or decrease of the discount rate to the net periodic benefit cost for 2024 would result in a decrease of approximately \$0.3 million or an increase of approximately \$0.5 million, respectively. The estimated impact of a 100 basis point increase or decrease of the expected return on assets assumption on the net periodic benefit cost for 2024 would result in a decrease or increase of approximately \$1.9 million, respectively.

Derivative Instruments

As dictated by ASC 820, *Fair Value Measurement*, the fair market value recognized in the audited financial statements related to derivative instruments is determined by using valuation models whose inputs are derived using market observable inputs, including interest rate yield curves, as well as foreign exchange and commodity spot and forward rates, and reflects the asset or liability position as of the end of each reporting period.

Income taxes

The provision for income taxes was determined using the asset and liability approach of accounting for income taxes. Under this approach, deferred taxes represent the future tax consequences expected to occur when the reported amounts of assets and liabilities are recovered or paid. The provision for income taxes represents income taxes paid or payable for the current year plus the change in deferred taxes during the period. Deferred taxes result from differences between the financial and tax basis of our assets and liabilities and are adjusted for changes in tax rates and tax laws when changes are enacted. Deferred tax assets and liabilities are measured using enacted tax rates applicable in the years in which they are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax law is recognized in income in the period that includes the enactment date.

We evaluate the recoverability of deferred tax assets on a jurisdictional basis by assessing the adequacy of future expected taxable income from all sources, including the reversal of taxable temporary differences, forecasted core business earnings and available tax planning strategies. Our recorded deferred tax asset balance as of December 31, 2023 is \$8.2 million, which is net of valuation allowances of \$233.5 million. The Company records a valuation allowance if, based upon the weight of the available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized. In instances where we are in a three-year cumulative loss, we assess all positive and negative factors, including any potential aberrational items that may be included within our taxable results. The aberrational items that have impacted our results include debt extinguishment, refinancing and certain global restructuring costs. We believe, and have assumed, these types of losses are not indicative of our core earnings for purposes of assessing the appropriateness of a valuation allowance. Assumptions around sources of taxable income inherently rely heavily on estimates. We use our historical experience and our short and long-range business forecasts to provide insight. While the Company believes that its judgments and estimations regarding deferred tax assets are appropriate, significant differences in actual experience may require the Company to adjust its valuation allowance and could materially affect the Company's future financial results.

We provide for income and foreign withholding taxes, where applicable, on unremitted earnings of all subsidiaries and related companies to the extent that such earnings are not deemed to be permanently invested and cannot be repatriated in a tax-free manner. At December 31, 2023 and 2022, deferred income taxes of approximately \$12.9 million and \$10.8 million, respectively, have been provided on such subsidiary earnings. At December 31, 2023, and 2022, we have not recorded a deferred tax liability related to withholding taxes of approximately \$38.1 million and \$177.5 million, respectively, on unremitted earnings of subsidiaries that are permanently invested.

The breadth of our operations and the global complexity of tax regulations require us to make assessments in estimating taxes we will ultimately pay factoring in various uncertainties. The final taxes paid are dependent upon many factors, including negotiations with taxing authorities in various jurisdictions, outcomes of tax litigation and resolution of disputes arising from federal, state and international tax audits in the normal course of business. Interest and penalties accrued related to unrecognized tax benefits are included in the provision for income taxes. At December 31, 2023 and 2022, the Company had gross unrecognized tax benefits, excluding interest and penalties, for both domestic and foreign operations of \$95.6 million and \$98.2 million, respectively.

See Note 10 to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K for further detail on our accounting for income taxes.

Sales deductions

In our refinish end-market, our product sales are typically supplied through a network of distributors. Control transfers and revenue is recognized when our products are delivered to our distribution customers. Variable consideration in the form of price, less discounts and rebates, are estimated and recorded, as a reduction to net sales, upon the sale of our products based on our ability to make a reasonable estimate of the amounts expected to be received. The estimates of variable consideration involve significant assumptions based on the best estimates of inventory held by distributors, applicable pricing, as well as the use of historical actuals for sales, discounts and rebates, which may result in changes to estimates in the future.

The timing of payments associated with the above arrangements may differ from the timing associated with the satisfaction of our performance obligations. The period between the satisfaction of the performance obligation and the receipt of payment is dependent on terms and conditions specific to the customers. For transactions in which we expect, at contract inception, the period between the transfer of our products or services to our customer and when the customer pays for that good or service to be greater than one year, we adjust the promised amount of consideration for the effects of any significant financing components that materially changes the amount of revenue under the contract.

See Note 2 to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K for further detail on our revenue.

Contingencies

Contingencies, by their nature, relate to uncertainties that require management to exercise judgment both in assessing the likelihood that a liability has been incurred as well as in estimating the amount of potential loss. The most important contingencies impacting our financial statements are those related to environmental remediation, an operational matter, pending or threatened litigation against the Company and the resolution of matters related to open tax years. Insurance recoveries are recorded when probable to the extent they cover incurred or probable liabilities, while recoveries in excess of incurred or probable liabilities are recorded when collection is realizable.

Costs related to the operational matter described in Note 5 to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K are accrued when it is probable that a liability has been incurred and the amount can be reasonably estimated. Estimates of probable liabilities for the operational matter require assumptions pertaining to costs incurred by our customers to repair the impacted products. Assumptions include the ultimate number of impacted products that are repaired, re-use of damaged materials, labor rates and efficiency of individuals performing the repairs. A 10% decrease in the total number of products repaired would result in an approximately \$2.5 million reduction in the estimated liability.

Environmental remediation costs are accrued when it is probable that a liability has been incurred and the amount can be reasonably estimated. Estimates of environmental reserves require evaluating the nature and extent of contamination, the outcome of discussions with regulatory agencies, available technology, site-specific information, remediation alternatives and, at multi-party sites, other PRPs and the number and financial viability of the other PRPs. We accrue an amount equal to our best estimate of the costs to remediate based upon the available information. The extent of environmental impacts may not be fully known, and the processes and costs of remediation may change as new information is obtained or technology for remediation improves. Adjustments to our estimates are made periodically as additional information is received and as remediation progresses. We do not believe that the amounts historically accrued for environmental remediation costs are material to our financial statements.

We are subject to legal proceedings, claims and potential claims arising out of our business operations. We routinely assess the likelihood of any adverse outcomes in these matters, as well as ranges of probable losses. A determination of the amount of the reserves required, if any, for these contingencies is made after analysis of each known matter. We have an active risk management program consisting of numerous insurance policies secured from many carriers. These policies often provide coverage that is intended to minimize the financial impact, if any, of the legal proceedings. The required reserves may change in the future due to new developments in each matter.

For more information on these matters, see Note 5 and Note 10 to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to changes in interest rates and foreign currency exchange rates because we finance certain operations through fixed and variable rate debt instruments and denominate our transactions in a variety of foreign currencies. We are also exposed to changes in the prices of certain commodities that we use in production. Changes in these rates and commodity prices may have an impact on future cash flows and earnings.

We manage these risks through normal operating and financing activities and, when deemed appropriate, through the use of derivative financial instruments. We do not enter into derivative financial instruments for trading or speculative purposes.

By using derivative instruments, we are subject to credit and market risk. The fair market value of the derivative instruments is determined by using valuation models whose inputs are derived using market observable inputs, including interest rate yield curves, as well as foreign exchange and commodity spot and forward rates, and reflects the asset or liability position as of the end of each reporting period. When the fair value of a derivative contract is positive, the counterparty owes us, thus creating a receivable risk for us. We are exposed to counterparty credit risk in the event of non-performance by counterparties to our derivative agreements. We minimize counterparty credit (or repayment) risk by entering into transactions with major financial institutions of investment grade credit rating.

Our exposure to market risk is not hedged in a manner that completely eliminates the effects of changing market conditions on earnings or cash flow.

Interest rate risk

We are subject to interest rate market risk in connection with our borrowings. A one-eighth percent change in the applicable interest rate for borrowings under the Senior Secured Credit Facilities (assuming the Revolving Credit Facility is undrawn) would have an annual impact of approximately \$2.2 million on cash interest expense considering the impact of our hedging positions currently in place.

We selectively use derivative instruments to reduce market risk associated with changes in interest rates. The use of derivatives is intended for hedging purposes only and we do not enter into derivative instruments for speculative purposes.

For further detail on our use of derivative instruments, see Note 19 to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K.

Foreign exchange rates risk

We are exposed to foreign currency exchange risk by virtue of the translation of our international operations from local currencies into the U.S. Dollar. The majority of our net sales for the years ended December 31, 2023, 2022 and 2021 were from operations outside the United States. At December 31, 2023 and 2022, the accumulated other comprehensive loss account in the consolidated balance sheets included a cumulative translation loss of \$374.2 million and \$433.5 million, respectively. A hypothetical 10% increase in the value of the U.S. Dollar relative to all foreign currencies would have increased the cumulative translation loss by \$290.3 million. This sensitivity analysis is inherently limited as it assumes that rates of multiple foreign currencies are moving in the same direction relative to the value of the U.S. Dollar.

Uncertainty in global market conditions has resulted in, and may continue to cause, significant volatility in foreign currency exchange rates which could increase these risks.

In the majority of our jurisdictions, we earn revenue and incur costs in the local currency of such jurisdiction. We earn significant revenues and incur significant costs in foreign currencies including the Euro, Mexican Peso, Brazilian Real, Chinese Yuan, British Pound, Turkish Lira and the Argentinian Peso. As a result, movements in exchange rates could cause our revenues and expenses to materially fluctuate, impacting our future profitability and cash flows. Our purchases of raw materials in Latin America, EMEA and Asia Pacific and future business operations and opportunities, including the continued expansion of our business outside North America, may further increase the risk that cash flows resulting from these activities may be adversely affected by changes in currency exchange rates. If and when appropriate, we intend to manage these risks through foreign currency hedges and/or by utilizing local currency funding of these expansions. We do not intend to hold financial instruments for trading or speculative purposes.

Additionally, in order to fund the purchase price for certain assets of DPC and the capital stock and other equity interests of certain non-U.S. entities, a combination of equity contributions and intercompany loans were utilized to capitalize certain non-U.S. subsidiaries. In certain instances, the intercompany loans are denominated in currencies other than the functional currency of the affected subsidiaries. Where intercompany loans are not a component of permanently invested capital of the affected subsidiaries, increases or decreases in the value of the subsidiaries' functional currency against other currencies will affect our results of operations.

Commodity price risk

While our raw material pricing fluctuates based on underlying feedstocks movements, we are also subject to supply and demand dynamics, or other macro-level factors, and also to changes in our cost of sales caused by movements in underlying commodity prices, such as oil and natural gas, among others, for energy spend and certain purchased raw materials, including monomers, resins and solvents. We try to manage these risks by ensuring we have strategic contracts in place on critical materials along with a balance of pricing mechanisms across categories, competitive sourcing options including low cost country sources, and utilizing our supplier relationship management program. In addition, we attempt to mitigate raw material inflation by passing along price increases to our customers. During 2022 and 2023, a significant portion of the raw material inflation was passed through to our customers through a series of price increases.

Since 2001, our total raw material spend has represented between 40% and 50% of our cost of sales annually, with the exception of 2022 when our total raw material spend represented approximately 53% of our cost sales driven by continued raw material inflation experienced throughout the year.

Treasury policy

Our treasury policy seeks to ensure that adequate financial resources are available for the development of our businesses while managing our currency and interest rate risks. Our policy is to not engage in speculative transactions. Our policies with respect to the major areas of our treasury activity are set forth above.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of Axalta Coating Systems Ltd.

Opinions on the Financial Statements and Internal Control over Financial Reporting

We have audited the accompanying consolidated balance sheets of Axalta Coating Systems Ltd. and its subsidiaries (the “Company”) as of December 31, 2023 and 2022, and the related consolidated statements of operations, of comprehensive income, of changes in shareholders' equity and of cash flows for each of the three years in the period ended December 31, 2023, including the related notes and schedule of valuation and qualifying accounts for each of the three years in the period ended December 31, 2023 appearing under Item 15(a)(2) (collectively referred to as the “consolidated financial statements”). We also have audited the Company's internal control over financial reporting as of December 31, 2023, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2023 and 2022, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2023 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2023, based on criteria established in Internal Control - Integrated Framework (2013) issued by the COSO.

Basis for Opinions

The Company's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Report on Internal Control over Financial Reporting appearing under Item 9A. Our responsibility is to express opinions on the Company's consolidated financial statements and on the Company's internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.

Our audits of the consolidated financial statements included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

Definition and Limitations of Internal Control over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Critical Audit Matters

The critical audit matter communicated below is a matter arising from the current period audit of the consolidated financial statements that was communicated or required to be communicated to the audit committee and that (i) relates to accounts or disclosures that are material to the consolidated financial statements and (ii) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Measurement of Unrecognized Tax Benefits

As described in Notes 1 and 10 to the consolidated financial statements, management has recorded unrecognized tax benefits of \$95.6 million as of December 31, 2023. As disclosed by management, the breadth of operations and the global complexity of tax regulations require assessments of uncertainties and judgments in estimating taxes. The final taxes paid are dependent upon many factors, including negotiations with taxing authorities in various jurisdictions, outcomes of tax litigation and resolution of disputes arising from federal, state and international tax audits in the normal course of business. A liability for unrecognized tax benefits is recorded when management concludes that the likelihood of sustaining such positions upon examination by taxing authorities is less than “more-likely-than not.”

The principal considerations for our determination that performing procedures relating to the measurement of unrecognized tax benefits is a critical audit matter are the significant judgments by management when applying the more-likely-than-not recognition criteria to the Company’s tax positions, which in turn led to a high degree of auditor judgment, subjectivity, and effort in performing procedures and evaluating audit evidence obtained related to the measurement of unrecognized tax benefits. Additionally, the audit effort involved the use of professionals with specialized skill and knowledge.

Addressing the matter involved performing procedures and evaluating audit evidence in connection with forming our overall opinion on the consolidated financial statements. These procedures included testing the effectiveness of controls relating to the identification and recognition of the liability for unrecognized tax benefits, including controls addressing completeness of the unrecognized tax benefits and controls over measurement of the liability. These procedures also included, among others, evaluating the significant judgment used by management in applying the more-likely-than-not recognition criteria and in measuring the Company’s unrecognized tax benefits. Professionals with specialized skill and knowledge were used to assist in evaluating the reasonableness of assumptions made by management, the technical merits of positions taken based upon application of the tax law and new information, and the measurement of unrecognized tax benefits.

/s/ PricewaterhouseCoopers LLP

Notes to Consolidated Financial Statements
(In millions, unless otherwise noted)

(1) BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying consolidated balance sheets of Axalta Coating Systems Ltd. ("Axalta," the "Company," "we," "our" and "us"), at December 31, 2023 and 2022 and the related consolidated statements of operations, consolidated statements of comprehensive income, consolidated statements of cash flows and consolidated statements of changes in shareholders' equity for the years ended December 31, 2023, 2022 and 2021 included herein have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") and are audited. In the opinion of management, these statements include all adjustments, consisting only of normal, recurring adjustments, necessary for a fair statement of the financial position of Axalta.

Summary of Significant Accounting Policies

Principles of Consolidation

The consolidated financial statements include the accounts of Axalta and its subsidiaries, and entities in which a controlling interest is maintained. For those consolidated subsidiaries in which the Company's ownership is less than 100%, the outside shareholders' interests are shown as noncontrolling interests. Investments in companies in which Axalta does not maintain control, but has the ability to exercise significant influence over operating and financial policies of the investee, are accounted for using the equity method of accounting. As a result, Axalta's share of the earnings or losses of such equity affiliates is included in the accompanying consolidated statements of operations within Net income attributable to common shareholders, and our share of these companies' stockholders' equity is included in the accompanying consolidated balance sheets within Total Axalta shareholders' equity. Certain of our joint ventures are accounted for on a one-month lag basis, the effect of which is not material. We eliminated all intercompany accounts and transactions in the preparation of the accompanying consolidated financial statements.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of sales and expenses during the period. The estimates and assumptions include, but are not limited to, receivable and inventory valuations, derivative instruments, fixed asset valuations, valuations of goodwill and identifiable intangible assets, including analysis of impairment, valuations of long-term employee benefit obligations, income taxes, environmental matters, contingencies, litigation, stock-based compensation, restructuring and allocations of costs. Our estimates are based on historical experience, facts and circumstances available at the time and various other assumptions that are believed to be reasonable. Actual results could differ materially from those estimates.

Accounting for Business Combinations

We account for business combinations under the acquisition method of accounting. This method requires the recording of acquired assets, including separately identifiable intangible assets, and assumed liabilities at their acquisition date fair values. The method records any excess purchase price over the fair value of acquired net assets as goodwill. Included in the determination of the purchase price is the fair value of contingent consideration, if applicable, based on the terms and applicable targets described within the acquisition agreements (i.e., projected revenues or EBITDA). Subsequent to the acquisition date, the fair value of the contingent liability, if determined to be payable in cash, is revalued at each balance sheet date with adjustments recorded within earnings.

The determination of the fair value of assets acquired, liabilities assumed and noncontrolling interests involves assessments of factors such as the expected future cash flows associated with individual assets and liabilities and appropriate discount rates at the closing date of the acquisition. When necessary, we consult with external advisors to help determine fair value. For non-observable market values determined using Level 3 assumptions, we determine fair value using acceptable valuation principles, including most commonly the excess earnings method for customer relationships, relief from royalty method for technology and trademarks, cost method for inventory and a combination of cost and market methods for property, plant and equipment, as applicable.

We include the results of operations from the acquisition date in the financial statements for all businesses acquired.

Revenue Recognition

See Note 2 for disclosure of our revenue recognition accounting policy.

Notes to Consolidated Financial Statements
(In millions, unless otherwise noted)

Cash, Cash Equivalents and Restricted Cash

Cash equivalents represent highly liquid investments considered readily convertible to known amounts of cash within three months or less from time of purchase. They are carried at cost plus accrued interest, which approximates fair value because of the short-term maturity of these instruments. Cash balances may exceed government insured limits in certain jurisdictions.

Restricted cash on our consolidated balance sheets represents cash used to secure certain customer guarantees.

Fair Value Measurements

GAAP defines a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following valuation techniques are used to measure fair value for assets and liabilities:

Level 1—Quoted market prices in active markets for identical assets or liabilities;

Level 2—Significant other observable inputs (i.e., quoted prices for similar items in active markets, quoted prices for identical or similar items in markets that are not active, inputs other than quoted prices that are observable such as interest rate and yield curves, and market-corroborated inputs); and

Level 3—Unobservable inputs for the asset or liability, which are valued based on management's estimates of assumptions that market participants would use in pricing the asset or liability.

Derivatives and Hedging

The Company from time to time utilizes derivatives to manage exposures to currency exchange rates and interest rate risk. The fair values of all derivatives are recognized as assets or liabilities at the balance sheet date. Changes in the fair value of these instruments are reported in income or accumulated other comprehensive loss ("AOCI"), depending on the use of the derivative and whether it qualifies for hedge accounting treatment and is designated as such.

Gains and losses on derivatives that qualify and are designated as cash flow or net investment hedges are recorded in AOCI, to the extent the hedges are effective, until the underlying transactions are recognized in income.

Gains and losses on derivatives qualifying and designated as fair value hedging instruments, as well as the offsetting losses and gains on the hedged items, are reported in income in the same accounting period. Derivatives not designated as hedging instruments are marked-to-market at the end of each accounting period with the results included in income.

Cash flows from derivatives are presented in the consolidated statements of cash flows in a manner consistent with the underlying transactions.

Receivables and Allowance for Doubtful Accounts

Receivables are carried at amounts that approximate fair value. Receivables are recognized net of an allowance for doubtful accounts receivable. The allowance for doubtful accounts reflects the current estimate of credit losses expected to be incurred over the life of the financial asset, based on historical experience, current conditions and reasonable forecasts of future economic conditions. Accounts receivable are written down or off when a portion or all of such account receivable is determined to be uncollectible.

Inventories

Inventories are valued at the lower of cost or net realizable value with cost being determined on the weighted average cost method. Elements of cost in inventories include:

- raw materials,
- direct labor, and
- manufacturing and indirect overhead.

Stores and supplies are valued at the lower of cost or net realizable value; cost is generally determined by the weighted average cost method. Inventories deemed to have costs greater than their respective market values are reduced to net realizable value with a loss recorded in income in the period recognized.

Notes to Consolidated Financial Statements
(In millions, unless otherwise noted)

Property, Plant and Equipment

Property, plant and equipment purchases are recorded at cost and are depreciated over the estimated useful life using the straight-line method starting on the date they are placed in service. See Note 14 for a range of estimated useful lives used for each property, plant and equipment class.

Software included in property, plant and equipment represents the costs of software developed or obtained for internal use. Software costs are amortized on a straight-line basis over their estimated useful lives. Upgrades and enhancements are capitalized if they result in added functionality, which enables the software to perform tasks it was previously incapable of performing. Software maintenance and training costs are expensed in the period in which they are incurred.

Leases

See Note 6 for disclosure of our accounting policy for leases.

Goodwill and Other Identifiable Intangible Assets

Goodwill represents the excess of the purchase price over the fair values of the underlying net assets acquired in a business combination. Goodwill and indefinite-lived intangible assets are tested for impairment on an annual basis as of October 1st; however, these tests are performed more frequently if events or changes in circumstances indicate that the asset may be impaired.

When testing goodwill and indefinite-lived intangible assets for impairment, we first have an option to assess qualitative factors to determine whether the existence of events or circumstances leads to a determination that it is more likely than not (more than 50%) that an impairment exists. Such qualitative factors may include the evaluation of the following: macroeconomic conditions; industry and market considerations; cost factors; overall financial performance; and other relevant asset-specific events. If based on this qualitative assessment we determine that an impairment is more likely than not, or if we elect not to perform a qualitative assessment, we would be required to perform a quantitative impairment test.

Under the quantitative impairment test, the evaluation of impairment involves comparing the current fair value of each reporting unit, with respect to goodwill, and indefinite-lived intangible asset to its carrying value. If the fair value of the reporting unit or indefinite-lived intangible asset is less than the carrying value, the difference is recorded as an impairment loss not to exceed the amount of recorded goodwill or carrying value of the respective indefinite-lived intangible asset.

In 2023, we performed a qualitative evaluation for impairment over our reporting units and indefinite-lived intangible assets and concluded that it was not more likely than not that the fair values are less than the respective carrying amounts.

Definite-lived intangible assets, such as technology, trademarks, customer relationships, favorable contractual agreements and non-compete agreements are amortized over their estimated useful lives, generally for periods ranging from 5 to 25 years. We evaluate these assets for impairment whenever events or changes in circumstances indicate that the carrying amount of these assets might not be recoverable. The reasonableness of the useful lives of definite and indefinite-lived assets are regularly evaluated.

Impairment of Long-Lived Assets

The carrying value of long-lived assets to be held and used is evaluated when events or changes in circumstances indicate the carrying value may not be recoverable. Evaluation for impairment is done at the asset group level. The carrying value of long-lived asset groupings is considered impaired when the total projected undiscounted cash flows from the asset group is less than its carrying value. In that event, a loss is recognized based on the amount by which the carrying value exceeds the fair value of the long-lived asset group. The fair value methodology used is an estimate of fair market value and is based on prices of similar asset groupings or other valuation methodologies, including present value techniques. Long-lived asset groupings to be disposed of other than by sale are classified as held for use until their disposal. Long-lived asset groupings to be disposed of by sale are classified as held for sale after all applicable attributes in the guidance are met and are reported at the lower of carrying amount or fair market value less cost to sell. Depreciation is discontinued for long-lived asset groupings classified as held for sale.

Notes to Consolidated Financial Statements
(In millions, unless otherwise noted)

Research and Development

Research and development costs incurred in the normal course of business consist primarily of employee-related costs and are expensed as incurred. In-process research and development projects acquired in a business combination are recorded as intangible assets at their fair value as of the acquisition date, using Level 3 assumptions. Subsequent costs related to acquired in-process research and development projects are expensed as incurred. In-process research and development intangible assets are considered indefinite-lived until the abandonment or completion of the associated research and development efforts. These indefinite-lived intangible assets are tested for impairment consistent with the impairment testing performed on other indefinite-lived intangible assets discussed above. Upon completion of the research and development process, the carrying value of acquired in-process research and development projects is reclassified as a finite-lived asset and is amortized over its useful life. Once amortization commences, these assets are tested for impairment consistent with long-lived assets as discussed above.

Environmental Liabilities and Expenditures

Accruals for environmental matters are recorded when it is probable that a liability has been incurred and the amount of the liability can be reasonably estimated. Accrued environmental liabilities are not discounted. Claims for recovery from third parties, if any, are reflected separately as an asset. We record recoveries at the earlier of when the gain is probable and reasonably estimable or realized.

Costs related to environmental remediation are charged to expense in the period incurred. Other environmental costs are also charged to expense in the period incurred, unless they increase the value of the property or reduce or prevent contamination from future operations, in which case, they are capitalized and depreciated.

Contingencies and Litigation

We accrue for liabilities related to contingencies, including the operational matter discussed in Note 5, and litigation matters when available information indicates that the liability is probable, and the amount can be reasonably estimated. Legal costs such as outside counsel fees and expenses are charged to expense in the period incurred.

Income Taxes

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of assets and liabilities and their respective tax basis. Deferred tax assets are also recognized for tax losses, interest and tax credit carryforwards. Valuation allowances are recorded to reduce deferred tax assets when it is more likely than not that a tax benefit will not be realized. Deferred tax assets and liabilities are measured using enacted tax rates applicable in the years in which they are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax law is recognized in net income in the period that includes the enactment date.

Where we do not intend to indefinitely reinvest earnings of our subsidiaries, we provide for income taxes and withholding taxes, where applicable, on unremitted earnings. We do not provide for income taxes on unremitted earnings of our subsidiaries that are intended to be indefinitely reinvested.

We recognize the benefit of an income tax position only if it is "more likely than not" that the tax position will be sustained. The tax benefits recognized are measured based on the largest benefit that has a greater than 50% likelihood of being realized. Additionally, we recognize interest and penalties related to unrecognized tax benefits as a component of provision for income taxes. The current portion of unrecognized tax benefits is included in other accrued liabilities and the long-term portion is included in other liabilities in the consolidated balance sheets.

Foreign Currency Translation

Our reporting currency is the U.S. Dollar. In most cases, our non-U.S. based subsidiaries use their local currency as the functional currency for their respective business operations. Assets and liabilities of these operations are translated into U.S. Dollars at end-of-period exchange rates; income and expenses are translated using the average exchange rates for the reporting period. Resulting cumulative translation adjustments are recorded as a component of shareholders' equity in the accompanying consolidated balance sheets in AOCI.

Gains and losses from transactions denominated in currencies other than functional currencies are included in the consolidated statements of operations in other expense (income), net.

Notes to Consolidated Financial Statements
(In millions, unless otherwise noted)

Employee Benefits

Defined benefit plans specify an amount of pension benefit that an employee will receive upon retirement, usually dependent on factors such as age, years of service and compensation. The obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of the future benefits that employees earn in return for their service in the current and prior periods. These benefits are then discounted to determine the present value of the obligations and are then adjusted for the impact of any unamortized prior service costs. The discount rate used is based upon market indicators in the region (generally, the yield on bonds that are denominated in the currency in which the benefits will be paid and that have maturity dates approximating the terms of the obligations). The calculations are performed by qualified actuaries using the projected unit credit method. The obligation of defined benefit plans recorded on our consolidated balance sheets is net of the current fair value of assets within each respective plan. See Note 7 for further information.

Stock-Based Compensation

We provide directors and certain employees stock-based compensation comprising stock options, restricted stock units, and performance share units. The instruments are measured at fair value on the grant date or date of modification, as applicable. We recognize compensation expense on a graded-vesting attribution basis over the requisite service period, inclusive of impacts of any current period modifications of previously granted awards. Compensation expense is recorded net of forfeitures, which we have elected to record in the period they occur.

Earnings per Common Share

Basic earnings per common share is computed by dividing net income attributable to Axalta's common shareholders by the weighted average number of shares outstanding during the period. Diluted earnings per common share is computed by dividing net income attributable to Axalta's common shareholders by the weighted average number of shares outstanding during the period increased by the number of additional shares that would have been outstanding related to potentially dilutive securities; anti-dilutive securities are excluded from the calculation. These potentially dilutive securities are calculated under the treasury stock method and all outstanding stock options, restricted stock units, and performance share units are considered.

Recently Adopted Accounting Guidance

In January 2023, we adopted Accounting Standards Update ("ASU") 2022-04, *Liabilities – Supplier Finance Programs*, which codifies disclosure requirements for supplier financing programs. This ASU does not affect the recognition, measurement or financial statement presentation of obligations covered by supplier finance programs. Upon adoption of this ASU, we incorporated the required disclosures in Note 17. In addition to the disclosures included in Note 17, ASU 2022-04 requires a rollforward of activity for each supplier financing program beginning with reporting for the year ended December 31, 2024, at which time we will incorporate the required rollforward disclosure.

Accounting Guidance Issued But Not Yet Adopted

In November 2023, the Financial Accounting Standards Board ("FASB") issued ASU 2023-07, *Segment Reporting (Topic 280)* to expand the disclosures about a public entity's reportable segments and address requests from investors for additional, more detailed information about a reportable segment's expenses. The new standard is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. We are currently evaluating the impact of ASU 2023-07 on our financial statements.

In December 2023, the FASB issued ASU 2023-09, *Income Taxes (Topic 740)* to enhance the transparency and decision usefulness of income tax disclosures, primarily related to the rate reconciliation and income taxes paid disclosures. The new standard is effective for fiscal years beginning after December 15, 2024. We are currently evaluating the impact of ASU 2023-09 on our financial statements.

(2) REVENUE

We recognize revenue at the point our contractual performance obligations with our customers are satisfied. This occurs at the point in time when control of our products transfers to the customer based on considerations of right to payment, transfer of legal title, physical possession, risks and rewards of ownership and customer acceptance. For the majority of our revenue, control transfers upon shipment of our products to our customers. Our remaining revenue is recorded upon delivery or consumption for our product sales or as incurred for services provided and royalties earned.

Revenue is measured as the amount of consideration we expect to receive in exchange for our products or services. Our contracts, including those subject to standard terms and conditions under multi-year agreements, are largely short-term in nature and each customer purchase order typically represents a contract with the delivery of coatings representing the only separate performance obligation.

Notes to Consolidated Financial Statements
(In millions, unless otherwise noted)

For certain customer arrangements within our light vehicle, industrial and commercial vehicle end-markets, revenue is recognized upon shipment, as this is the point in time we have concluded that control of our product has transferred to our customer based on our considerations of the indicators of control in the contracts, including right of use and risk and reward of ownership. For consignment arrangements, revenue is recognized upon actual consumption by our customers, as this represents the point in time that control is determined to have transferred to the customer based on the contractual arrangement.

In our refinish end-market, our product sales are typically supplied through a network of distributors. Control transfers and revenue is recognized when our products are shipped to our distribution customers. Variable consideration in the form of price, less discounts and rebates, are estimated and recorded upon the shipment of our products based on our ability to make a reasonable estimate of the amounts expected to be received. The estimates of variable consideration involve significant assumptions based on the best estimates of inventory held by distributors, applicable pricing, as well as the use of historical actuals for sales, discounts and rebates, which may result in changes in estimates in the future.

The timing of payments associated with the above arrangements may differ from the timing associated with the satisfaction of our performance obligations. The period between the satisfaction of the performance obligation and the receipt of payment is dependent on terms and conditions specific to the customers. For transactions in which we expect, at contract inception, the period between the transfer of our products or services to our customer and when the customer pays for that good or service to be greater than one year, we adjust the promised amount of consideration for the effects of any significant financing components that materially change the amount of revenue under the contract.

All costs incurred directly in satisfaction of our performance obligations associated with revenue are reported in cost of goods sold on the statements of operations. We also provide certain customers with incremental up-front consideration, subject to clawback provisions, including Business Incentive Plan assets ("BIPs"), which is capitalized as a component of other assets and amortized over the estimated life of the contractual arrangement as a reduction of net sales. We do not receive a distinct service or good in return for these BIPs, but rather receive volume commitments and/or sole supplier status from our customers over the life of the contractual arrangements, which approximates a five-year weighted average useful life. The termination clauses in these contractual arrangements include standard clawback provisions that are designed to enable us to collect monetary damages in the event of a customer's failure to meet its commitments under the relevant contract. At December 31, 2023 and 2022, the total carrying value of BIPs were \$149.4 million and \$152.3 million, respectively, and are presented within other assets in the consolidated balance sheets. For the years ended December 31, 2023, 2022 and 2021, \$64.4 million, \$58.6 million and \$62.1 million, respectively, was amortized and reflected as reductions of net sales in the consolidated statements of operations. The total carrying value of BIPs excludes other up-front incentives with repayment features made in conjunction with long-term customer commitments of \$1.5 million and \$42.1 million at December 31, 2023 and 2022, respectively, of which \$0.5 million and \$4.9 million is included in prepaid expenses and other current assets in the consolidated balance sheets at December 31, 2023 and December 31, 2022, respectively, with the remainder included in other assets. These up-front incentives with repayment features are subject to the credit risk of our customers and, depending on the financial condition of our customers, it is possible that some or all of the amounts may become uncollectible.

During the year ended December 31, 2022, we agreed to forgo collection of a portion of previously provided up-front incentives with a certain Performance Coatings customer, contingent upon this customer completing a recapitalization and restructuring of its indebtedness and executing a new long-term exclusive sales agreement with us. During the year ended December 31, 2022, a charge for this customer contract restructuring was recorded for \$25.0 million in the consolidated statements of operations, of which \$20.3 million was recorded as a reduction to net sales and the remaining amount recorded in other expense (income), net as discussed in Note 9. During the year ended December 31, 2023, we reached a settlement agreement with the customer whereby all amounts owed to us were paid and all outstanding claims were discharged.

We accrue for sales returns and other allowances based on our historical experience, as well as expectations based on current information relevant to our customers. We include the amounts billed to customers for shipping and handling fees in net sales and include costs incurred for the delivery of goods as cost of goods sold in the consolidated statement of operations.

Recognition of licensing and royalty income occurs at the point in time when agreed upon performance obligations are satisfied, the amount is fixed or determinable, and collectability is reasonably assured.

Consideration for products in which control has transferred to our customers that is conditional on something other than the passage of time is recorded as a contract asset within prepaid expenses and other current assets in the consolidated balance sheets. The contract asset balances at December 31, 2023 and 2022 were \$39.2 million and \$40.6 million, respectively.

Notes to Consolidated Financial Statements
(In millions, unless otherwise noted)

Revenue Streams

Our revenue streams are disaggregated based on the types of products and services offered in contracts with our customers, which are depicted in each of our four end-markets.

- **Refinish** - We develop, market and supply a complete portfolio of innovative coatings systems and color matching technologies to facilitate faster automotive collision repairs relative to competing technologies. Our refinish products and systems include a range of coatings layers required to match the vehicle's color and appearance, producing a repair surface indistinguishable from the adjacent surface.
- **Industrial** - The industrial end-market comprises liquid and powder coatings used in a broad array of applications. We are also a leading global developer, manufacturer and supplier of functional and decorative liquid and powder coatings for a large number of diversified applications in the industrial end-market. We provide a full portfolio of products for applications including building products, construction, battery solutions, transportation and general metal finishing.
- **Light Vehicle** - Light vehicle original equipment manufacturers ("OEMs") select coatings providers based on their global ability to deliver core and advanced technological solutions that improve exterior appearance and durability and provide long-term corrosion protection. Customers also look for suppliers that offer sustainable solutions to aid in the customer portfolio transformation and can enhance process efficiency, improve productivity and provide technical support.
- **Commercial Vehicle** - Sales in the commercial vehicle end-market are generated from a variety of applications including heavy-duty truck, medium-duty truck, bus and rail, motorcycles, marine and aviation, as well as related markets such as trailers, recreational vehicles and personal sport vehicles. This end-market is primarily driven by global commercial vehicle production, which is influenced by overall economic activity, government infrastructure spending, equipment replacement cycles and evolving environmental standards for sustainability. Commercial vehicle OEMs select coatings providers on the basis of their ability to consistently deliver advanced technological solutions that improve exterior appearance, protection and durability and provide extensive color libraries and matching capabilities at the lowest total cost-in-use, while meeting stringent environmental requirements.

We also have other revenue streams which include immaterial revenues relative to the net sales from our four end-markets, comprising sales from royalties and services, primarily within our light vehicle and refinish end-markets.

See Note 20 for disaggregated net sales by end-market.

Notes to Consolidated Financial Statements
(In millions, unless otherwise noted)

(3) GOODWILL AND IDENTIFIABLE INTANGIBLE ASSETS

During the year ended December 31, 2023, we acquired 100% of the share capital of Pearl Investment AG and its key operating subsidiary André Koch AG, a long-time refinish products distribution partner in Switzerland, which resulted in a net cash outflow on the closing date of \$106.1 million, and is subject to contingent consideration arrangements of \$5.6 million, which are discussed further in Note 19. The fair value associated with definite-lived intangible assets was \$79.0 million, comprising \$67.7 million of customer relationships and \$11.3 million of trademarks. We have not finalized the related purchase accounting related to the acquisition and the amounts recorded represent preliminary values. We expect to finalize our purchase accounting during the respective measurement period, which will be no later than one year following the closing date.

Goodwill

The following table shows changes in the carrying amount of goodwill from December 31, 2021 to December 31, 2023 by reportable segment:

	Performance Coatings	Mobility Coatings	Total
December 31, 2021	\$ 1,513.4	\$ 79.3	\$ 1,592.7
Goodwill from acquisitions	1.4	—	1.4
Purchase accounting and other adjustments	2.5	—	2.5
Foreign currency translation	(94.8)	(3.8)	(98.6)
December 31, 2022	\$ 1,422.5	\$ 75.5	\$ 1,498.0
Goodwill from acquisitions	38.2	—	38.2
Purchase accounting and other adjustments	(0.5)	—	(0.5)
Divestiture	—	(0.1)	(0.1)
Foreign currency translation	53.2	2.1	55.3
December 31, 2023	<u>\$ 1,513.4</u>	<u>\$ 77.5</u>	<u>\$ 1,590.9</u>

Identifiable Intangible Assets

The following tables summarize the gross carrying amounts and accumulated amortization of identifiable intangible assets by major class:

December 31, 2023	Gross Carrying Amount	Accumulated Amortization	Net Book Value	Weighted average amortization periods (years)
Technology	\$ 161.9	\$ (87.5)	\$ 74.4	11.2
Trademarks—indefinite-lived	263.7	—	263.7	Indefinite
Trademarks—definite-lived	142.1	(60.5)	81.6	14.5
Customer relationships	1,194.0	(484.0)	710.0	19.0
Total	<u>\$ 1,761.7</u>	<u>\$ (632.0)</u>	<u>\$ 1,129.7</u>	

During the year-ended December 31, 2023, we retired fully amortized assets totaling \$396.9 million consisting of technology, trademarks, and other intangible assets.

December 31, 2022	Gross Carrying Amount	Accumulated Amortization	Net Book Value	Weighted average amortization periods (years)
Technology	\$ 555.2	\$ (462.3)	\$ 92.9	10.3
Trademarks—indefinite-lived	255.6	—	255.6	Indefinite
Trademarks—definite-lived	126.7	(50.8)	75.9	14.5
Customer relationships	1,106.7	(418.8)	687.9	19.2
Other	0.6	(0.6)	—	5.0
Total	<u>\$ 2,044.8</u>	<u>\$ (932.5)</u>	<u>\$ 1,112.3</u>	

Notes to Consolidated Financial Statements
(In millions, unless otherwise noted)

The estimated amortization expense related to the fair value of acquired intangible assets for each of the succeeding five years is:

2024	\$	89.3
2025	\$	88.6
2026	\$	88.3
2027	\$	87.4
2028	\$	73.8

(4) RESTRUCTURING

In accordance with the applicable guidance for Accounting Standards Codification ("ASC") 712, *Nonretirement Postemployment Benefits*, we accounted for termination benefits and recognized liabilities when the loss was considered probable that employees were entitled to benefits and the amounts could be reasonably estimated.

During the years ended December 31, 2023, 2022 and 2021, we incurred costs of \$4.2 million, \$23.9 million, and \$38.7 million, respectively, for termination benefits, net of changes in estimates. The majority of our termination benefits are recorded within other operating charges in the consolidated statements of operations. The remaining payments associated with these actions are expected to be substantially completed within 12 months.

The following table summarizes the activity related to the termination benefit reserves and expenses for the years ended December 31, 2023, 2022 and 2021:

Balance at January 1, 2021	\$	55.8
Expense recorded		38.7
Payments made		(33.3)
Foreign currency translation		(3.7)
Balance at December 31, 2021	\$	57.5
Expense recorded		23.9
Payments made		(30.0)
Foreign currency translation		(2.7)
Balance at December 31, 2022	\$	48.7
Expense recorded		4.2
Payments made		(37.3)
Foreign currency translation		0.6
Balance at December 31, 2023	\$	16.2

(5) COMMITMENTS AND CONTINGENCIES

Guarantees

We guarantee certain of our customers' obligations to third parties, whereby any default by our customers on their obligations could force us to make payments to the applicable creditors ("Customer Obligation Guarantees"). At December 31, 2023 and 2022, we had outstanding Customer Obligation Guarantees of \$10.4 million and \$7.1 million, respectively. Approximately 10% of our Customer Obligation Guarantees expire between 2024 and 2026, while the remainder do not have specified expiration dates. We monitor the Customer Obligation Guarantees to evaluate whether we have a liability at the balance sheet date. We did not have any liabilities related to our outstanding Customer Obligation Guarantees recorded at either December 31, 2023 or 2022.

Operational Matter

In January 2021, we became aware of an operational matter affecting certain North America Mobility Coatings customer manufacturing sites. The matter involves the use and application of certain of our products in combination with and incorporated within third-party products. The matter occurred over a discrete period during the fourth quarter of 2020. We concluded that losses from this matter were probable and that a majority of losses would be covered under our insurance policies, subject to deductible and policy limits as defined in our policies.

For the years ended December 31, 2023 and 2022, we recorded expenses of \$0.1 million and \$0.2 million, respectively, within other operating charges in the consolidated statements of operations. At December 31, 2023 and 2022, we had

Notes to Consolidated Financial Statements
(In millions, unless otherwise noted)

\$36.2 million and \$38.7 million, respectively, recorded for estimated insurance receivables within accounts and notes receivable, net in the consolidated balance sheets. Liabilities of \$30.6 million and \$42.3 million are recorded as other accrued liabilities in the consolidated balance sheets at December 31, 2023 and 2022, respectively. The recorded probable losses remain an estimate, and actual costs arising from this matter could be materially lower or higher depending on the actual costs incurred to repair the impacted products as well as the availability of additional insurance coverage.

Other

We are subject to various pending lawsuits, legal proceedings and other claims in the ordinary course of business, including civil, regulatory and environmental matters. These matters may involve third-party indemnification obligations and/or insurance covering all or part of any potential damage incurred by us. All of these matters are subject to many uncertainties and, accordingly, we cannot determine the ultimate outcome of the proceedings and other claims at this time. The potential effects, if any, on our consolidated financial statements will be recorded in the period in which these matters are probable and estimable. Except as set forth in the "Operational Matter" section above, we believe that any sum we may be required to pay in connection with proceedings or claims in excess of the amounts recorded would likely not have a material adverse effect upon our results of operations, financial condition or cash flows on a consolidated annual basis but could have a material adverse impact in a particular quarterly reporting period.

We are involved in environmental remediation and ongoing compliance activities at several sites. The timing and duration of remediation and ongoing compliance activities are determined on a site by site basis depending on local regulations. The liabilities recorded represent our estimable future remediation costs and other anticipated environmental liabilities. We have not recorded liabilities at sites where a liability is probable but a range of loss is not reasonably estimable. We believe that any sum we may be required to pay in connection with environmental remediation matters in excess of the amounts recorded would likely occur over a period of time and would likely not have a material adverse effect upon our results of operations, financial condition or cash flows on a consolidated annual basis but could have a material adverse impact in a particular quarterly reporting period.

(6) LEASES

We have operating and finance leases for certain of our technology centers, warehouses, office spaces, land, and equipment. Right-of-use ("ROU") assets represent the Company's right to use an underlying asset for the lease term and lease liabilities represent the Company's obligation to make lease payments arising from the lease. Operating lease ROU assets and operating lease liabilities are recognized based on the present value of the future minimum lease payments over the lease term at the commencement date. The lease term is determined to be the non-cancelable period including any lessee renewal options that are considered to be reasonably certain of exercise. The interest rate implicit in lease contracts is typically not readily determinable. As such, the Company used judgment to determine an appropriate incremental borrowing rate, which is the rate incurred to borrow on a collateralized basis over a similar term in a similar economic environment. Lease expense for fixed lease payments on operating leases is recognized over the expected term on a straight-line basis, while lease expense for fixed lease payments on finance leases is recognized using the effective interest method.

Certain of our lease agreements include rental payments based on an index or are adjusted periodically for inflation. At lease inception, we make assumptions for certain factors (i.e., inflation rates) through the lease term. Changes to lease payments resulting from these factors are treated as variable lease payments and recognized in the period in which the obligation for those payments was incurred. In addition, variable lease expense also includes elements of a contract that is based on usage during the term. Our lease agreements do not contain any material residual value guarantees or material restrictive covenants.

Notes to Consolidated Financial Statements
(In millions, unless otherwise noted)

Supplemental balance sheet information related to leases is summarized as follows:

		December 31,	
		2023	2022
Assets	Classification		
Operating lease assets, net	Other assets ⁽¹⁾	\$ 105.3	\$ 102.6
Finance lease assets, net	Property, plant and equipment, net ⁽²⁾	52.0	57.1
Total leased assets		<u>\$ 157.3</u>	<u>\$ 159.7</u>
Liabilities			
Current			
Operating lease liabilities	Other accrued liabilities	\$ 31.2	\$ 28.4
Finance lease liabilities	Current portion of borrowings	2.6	2.5
Noncurrent			
Operating lease liabilities	Other liabilities	75.5	75.9
Finance lease liabilities	Long-term borrowings	54.5	58.5
Total lease liabilities		<u>\$ 163.8</u>	<u>\$ 165.3</u>

(1) Operating lease assets are recorded net of accumulated amortization of \$74.7 million and \$57.4 million for the years ended December 31, 2023 and 2022, respectively.

(2) Finance lease assets are recorded net of accumulated amortization of \$21.5 million and \$17.5 million for the years ended December 31, 2023 and 2022, respectively.

Components of lease expense are summarized as follows:

	Year Ended December 31,		
	2023	2022	2021
Finance lease cost			
Amortization of right-of-use assets	\$ 4.7	\$ 4.5	\$ 4.4
Interest on lease liabilities	3.1	3.2	3.3
Operating lease cost	39.7	33.4	35.6
Variable lease cost	3.8	2.7	3.3
Short-term lease cost	1.0	0.3	0.5
Net lease cost	<u>\$ 52.3</u>	<u>\$ 44.1</u>	<u>\$ 47.1</u>

Supplemental cash flow information related to leases is summarized as follows:

	Year Ended December 31,		
	2023	2022	2021
Cash paid for amounts included in the measurement of lease liabilities:			
Operating cash flows for operating leases	\$ 39.5	\$ 34.0	\$ 36.4
Operating cash flows for finance leases	\$ 3.1	\$ 3.2	\$ 3.3
Financing cash flows for finance leases	\$ 3.4	\$ 3.0	\$ 2.6
Non-cash leasing activities:			
Right-of-use assets obtained in exchange for lease obligations - Operating leases ⁽¹⁾	\$ 20.9	\$ 27.7	\$ 30.1
Right-of-use assets obtained in exchange for lease obligations - Finance leases ⁽¹⁾	\$ (0.3)	\$ 2.7	\$ 0.7

(1) Includes lease extensions and option exercises.

Notes to Consolidated Financial Statements
(In millions, unless otherwise noted)

Lease term and discount rate information are summarized as follows:

	Year Ended December 31,	
	2023	2022
Weighted average remaining lease term (years)		
Operating leases	5.1	5.6
Finance leases	13.0	14.5
Weighted average discount rate		
Operating leases	5.6 %	4.9 %
Finance leases	5.3 %	5.2 %

Maturities of lease liabilities as of December 31, 2023 are as follows:

Year	Operating Leases	Finance Leases
2024	\$ 36.7	\$ 5.7
2025	27.0	6.3
2026	19.6	6.2
2027	13.8	6.3
2028	9.4	6.4
Thereafter	14.6	51.9
Total lease payments	121.1	82.8
Less: imputed interest	14.4	25.7
Present value of lease liabilities	\$ 106.7	\$ 57.1

(7) LONG-TERM EMPLOYEE BENEFITS

Defined Benefit Pensions

Axalta has defined benefit plans that cover certain employees worldwide, with approximately 85% of the projected benefit obligation within the European region at December 31, 2023.

Obligations and Funded Status

The measurement date used to determine defined benefit obligations is December 31st each year. The following table sets forth the changes to the projected benefit obligations ("PBO") and plan assets for the years ended December 31, 2023 and 2022 and the funded status and amounts recognized in the accompanying consolidated balance sheets at December 31, 2023 and 2022 for our defined benefit pension plans:

	Year Ended December 31,	
	2023	2022
Change in benefit obligation:		
Projected benefit obligation at beginning of year	\$ 448.7	\$ 627.1
Service cost	5.9	6.4
Interest cost	19.3	9.4
Participant contributions	1.5	1.2
Actuarial loss (gain), net	49.1	(120.7)
Plan curtailments, settlements and special termination benefits	(8.6)	(3.2)
Benefits paid	(24.3)	(27.4)
Business combinations and other adjustments	8.7	(0.3)
Foreign currency translation	25.9	(43.8)
Projected benefit obligation at end of year	526.2	448.7
Change in plan assets:		
Fair value of plan assets at beginning of year	260.0	380.9
Actual return on plan assets	9.8	(76.4)
Employer contributions	21.0	17.1
Participant contributions	1.5	1.2
Benefits paid	(24.3)	(27.4)
Settlements	(8.8)	(3.5)
Business combinations and other adjustments	7.3	(0.1)
Foreign currency translation	15.1	(31.8)
Fair value of plan assets at end of year	281.6	260.0
Funded status, net	\$ (244.6)	\$ (188.7)
Amounts recognized in the consolidated balance sheets consist of:		
Other assets	\$ 22.2	\$ 29.0
Other accrued liabilities	(14.8)	(12.6)
Accrued pensions	(252.0)	(205.1)
Net amount recognized	\$ (244.6)	\$ (188.7)

The net actuarial loss (gain) for 2023 and 2022 was due primarily to fluctuations in the discount rates between years across the plans relative to the rates used in the preceding year to determine benefit obligations (see assumptions table below), which were caused by market volatility during the periods.

The PBO is the actuarial present value of benefits attributable to employee service rendered to date, including the effects of estimated future pay increases. The accumulated benefit obligation ("ABO") is the actuarial present value of benefits attributable to employee service rendered to date but does not include the effects of estimated future pay increases.

Notes to Consolidated Financial Statements
(In millions, unless otherwise noted)

The following table reflects the ABO for all defined benefit plans at December 31, 2023 and 2022. Further, the table reflects the aggregate PBO, ABO and fair value of plan assets for pension plans with PBO in excess of plan assets and for pension plans with ABO in excess of plan assets.

	December 31,	
	2023	2022
ABO	\$ 501.9	\$ 430.6
Plans with PBO in excess of plan assets:		
PBO	\$ 338.4	\$ 273.3
ABO	\$ 316.9	\$ 257.4
Fair value plan assets	\$ 71.6	\$ 55.5
Plans with ABO in excess of plan assets:		
PBO	\$ 338.4	\$ 272.1
ABO	\$ 316.9	\$ 256.6
Fair value plan assets	\$ 71.6	\$ 54.7

The pre-tax amounts not yet reflected in net periodic benefit cost and included in AOCI include the following related to defined benefit plans:

	Year Ended December 31,	
	2023	2022
Accumulated net actuarial losses	\$ (101.2)	\$ (52.0)
Accumulated prior service credit	1.6	1.6
Total	\$ (99.6)	\$ (50.4)

The accumulated net actuarial losses relate primarily to differences between the actual net periodic expense and the expected net periodic expense resulting from differences in the significant assumptions, including return on assets, discount rates and compensation trends, used in these estimates. For individual plans in which the accumulated net actuarial gains or losses exceed 10% of the higher of the fair value of plan assets or the PBO at the beginning of the year, amortization of such excess has been included in net periodic benefit costs. The amortization period is the average remaining service period of active employees expected to receive benefits unless a plan is mostly inactive, in which case the amortization period is the average remaining life expectancy of the plan participants. Accumulated prior service credits are amortized over the future service periods of those employees who are active at the dates of the plan amendments and who are expected to receive benefits.

(In millions, unless otherwise noted)

Components of Net Periodic Benefit Cost

The following table sets forth the pre-tax components of net periodic benefit costs for our defined benefit plans for the years ended December 31, 2023, 2022 and 2021.

	Year Ended December 31,		
	2023	2022	2021
Components of net periodic benefit cost and amounts recognized in comprehensive income:			
Net periodic benefit cost:			
Service cost	\$ 5.9	\$ 6.4	\$ 7.6
Interest cost	19.3	9.4	7.7
Expected return on plan assets	(11.1)	(12.0)	(13.6)
Amortization of actuarial loss, net	0.9	3.2	4.9
Amortization of prior service credit	(0.2)	(0.1)	(0.1)
Settlement loss (gain)	0.1	(1.0)	—
Special termination benefit loss	0.2	0.2	0.4
Net periodic benefit cost	15.1	6.1	6.9
Changes in plan assets and benefit obligations recognized in other comprehensive income:			
Net actuarial loss (gain), net	50.5	(32.5)	(32.1)
Amortization of actuarial loss, net	(0.9)	(3.2)	(4.9)
Prior service credit	(0.2)	(0.2)	—
Amortization of prior service credit	0.2	0.1	0.1
Settlement (loss) gain	(0.1)	1.0	—
Other adjustments	(0.3)	—	(0.1)
Total loss (gain) recognized in other comprehensive income	49.2	(34.8)	(37.0)
Total recognized in net periodic benefit cost and comprehensive income	\$ 64.3	\$ (28.7)	\$ (30.1)

Assumptions

We used the following assumptions in determining the benefit obligations and net periodic benefit cost of our defined benefit plans:

	2023	2022	2021
Weighted average assumptions:			
Discount rate to determine benefit obligation	3.82 %	4.37 %	1.65 %
Discount rate to determine net cost	4.37 %	1.65 %	1.12 %
Rate of future compensation increases to determine benefit obligation	2.97 %	2.98 %	2.84 %
Rate of future compensation increases to determine net cost	2.98 %	2.84 %	2.71 %
Rate of return on plan assets to determine net cost	4.27 %	3.44 %	3.55 %
Cash balance interest credit rate to determine benefit obligation	1.32 %	1.96 %	0.44 %
Cash balance interest credit rate to determine net cost	1.96 %	0.44 %	0.40 %

The discount rates used reflect the expected future cash flow based on plan provisions, participant data and the currencies in which the expected future cash flows will occur. For the majority of our defined benefit obligations, we utilize prevailing long-term high quality corporate bond indices applicable to the respective country at the measurement date. In countries where established corporate bond markets do not exist, we utilize other index movement and duration analyses to determine discount rates. The assumptions of the long-term rate of return on plan assets reflect economic assumptions applicable to each country and assumptions related to the preliminary assessments regarding the type of investments to be held by the respective plans.

Notes to Consolidated Financial Statements
(In millions, unless otherwise noted)

Estimated future benefit payments

The following reflects the total benefit payments expected to be paid for defined benefits:

Year ended December 31,	Benefits
2024	\$ 32.4
2025	\$ 35.7
2026	\$ 37.2
2027	\$ 40.3
2028	\$ 40.5
2029 - 2033	\$ 229.6

Plan Assets

The defined benefit plans for our subsidiaries represent single-employer plans, and the related plan assets are invested within separate trusts. Each of the single-employer plans is managed in accordance with the requirements of local laws and regulations governing defined benefit plans for the exclusive purpose of providing pension benefits to participants and their beneficiaries. Pension plan assets are typically held in a trust by financial institutions. Our established asset allocation targets are intended to achieve the plan's investment strategies.

Equity securities include varying market capitalization levels. U.S. equity securities are primarily large-cap companies. Fixed income investments include corporate issued, government issued, and asset-backed securities. Corporate debt securities include a range of credit risk and industry diversification. Other investments include real estate and private market securities such as insurance contracts, interests in private equity, and venture capital partnerships. Assets measured using the net asset value ("NAV") per share practical expedient include debt, asset-backed securities, hedge funds, and real estate funds. Debt asset-backed securities primarily consist of collateralized debt obligations. The market values for these assets are based on the NAV multiplied by the number of shares owned.

Fair value calculations may not be indicative of net realizable value or reflective of future fair values. Furthermore, although we believe the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Company's investment strategy in pension plan assets is to generate earnings over an extended time to help fund the cost of benefits while maintaining an adequate level of diversification for a prudent level of risk. The table below summarizes the weighted average actual and target pension plan asset allocations at December 31st for all funded Axalta defined benefit plans.

Asset Category	2023	2022	Target Allocation
Equity securities	10-15%	5-10%	10-15%
Debt securities	30-35%	30-35%	30-35%
Real estate	0-5%	0-5%	0-5%
Other ⁽¹⁾	50-55%	50-55%	50-55%

Notes to Consolidated Financial Statements
(In millions, unless otherwise noted)

Level 3 assets are primarily insurance contracts pledged on behalf of employees with benefits in certain countries, ownership interests in investment partnerships, trusts that own private market securities and other debt and equity investments. The fair values of our insurance contracts are determined based on the cash surrender value or the present value of the expected future benefits to be paid under the contract, discounted at a rate consistent with the related benefit obligation. Debt and equity securities consist primarily of small investments in other investments that are valued at different frequencies based on the value of the underlying investments. The table below presents a roll forward of activity for these assets for the years ended December 31, 2023 and 2022. The transfers in presented in the table below during 2023 relate to the acquisition mentioned in Note 3.

	Level 3 assets			
	Total	Private market securities	Debt and equity	Real estate investments
Ending balance at December 31, 2021	\$ 130.4	\$ 120.2	\$ 9.9	\$ 0.3
Change in unrealized loss	(18.7)	(18.0)	(0.7)	—
Purchases, sales, issues and settlements	(1.2)	(0.7)	(0.5)	—
Ending balance at December 31, 2022	\$ 110.5	\$ 101.5	\$ 8.7	\$ 0.3
Change in unrealized gain	8.2	7.4	0.8	—
Purchases, sales, issues and settlements	(0.3)	(0.3)	—	—
Transfers in Level 3	7.6	7.6	—	—
Ending balance at December 31, 2023	\$ 126.0	\$ 116.2	\$ 9.5	\$ 0.3

Assumptions and Sensitivities

The discount rate is determined as of each measurement date, based on a review of yield rates associated with long-term, high-quality corporate bonds. The calculation separately discounts benefit payments using the spot rates from a long-term, high-quality corporate bond yield curve.

The long-term rate of return assumption represents the expected average rate of earnings on the funds invested to provide for the benefits included in the benefit obligations. The long-term rate of return assumption is determined based on a number of factors, including historical market index returns, the anticipated long-term asset allocation of the plans, historical plan return data, plan expenses and the potential to outperform market index returns. For 2024, the expected long-term rate of return is 4.47%.

Anticipated Contributions to Defined Benefit Plans

For funded pension plans, our funding policy is to fund amounts for pension plans sufficient to meet minimum requirements set forth in applicable benefit laws and local tax laws. Based on the same assumptions used to measure our benefit obligations at December 31, 2023, we expect to contribute \$6.8 million to our defined benefit plans during 2024.

Defined Contribution Plans

The Company sponsors defined contribution plans in both its U.S. and non-U.S. subsidiaries, under which salaried and certain hourly employees may defer a portion of their compensation. Eligible participants may contribute to the plan up to the allowable amount of their regular compensation before taxes, as determined by the plan. All contributions and Company matches are invested at the direction of the employee. Company matching contributions vest immediately and aggregated to \$55.8 million, \$54.6 million and \$50.4 million for the years ended December 31, 2023, 2022 and 2021, respectively.

(8) STOCK-BASED COMPENSATION

During the years ended December 31, 2023, 2022 and 2021, we recognized \$26.2 million, \$22.2 million and \$14.9 million, respectively, in stock-based compensation expense, which was allocated between cost of goods sold and selling, general and administrative expenses in the consolidated statements of operations. We recognized tax benefits on stock-based compensation of \$3.3 million, \$3.0 million and \$1.5 million for the years ended December 31, 2023, 2022 and 2021, respectively.

Notes to Consolidated Financial Statements
(In millions, unless otherwise noted)

Description of Equity Incentive Plan

In 2014, the Board of Directors (the "Board") approved the Axalta Coating Systems Ltd. 2014 Incentive Award Plan, as amended and restated including in 2023 (the "2014 Plan"), which reserved additional shares of common stock of the Company for issuance to employees, directors and consultants. The 2014 Plan provides for the issuance of stock options, restricted stock or other stock-based awards. All awards granted pursuant to the 2014 Plan must be authorized by the Board or a designated committee thereof. The Board has generally delegated responsibility for administering the 2014 Plan to the Compensation Committee. The second amendment and restatement of the 2014 Plan was approved by the Board and the shareholders in 2023.

The terms of the stock options may vary with each grant and are determined by the Compensation Committee within the guidelines of the 2014 Plan. Option life cannot exceed ten years and the Company may settle option exercises by issuing new shares, treasury shares or shares purchased on the open market.

During 2023, we granted restricted stock units to directors and certain employees and performance share units to certain employees. All awards were granted under the 2014 Plan. The performance share units are subject to certain performance and market conditions, in addition to the service-based vesting conditions.

During 2023, the Company withheld shares and used cash to settle certain employees' tax obligation resulting from the vesting of awards in the amount of \$5.4 million.

Stock Options

The Black-Scholes option pricing model was used to estimate the fair values for options as of their grant date. There have been no options granted since 2019.

A summary of stock option award activity as of and for the year ended December 31, 2023 is presented below:

Stock Options	Awards (in millions)	Weighted Average Exercise Price	Aggregate Intrinsic Value (in millions)	Weighted Average Remaining Contractual Life (years)
Outstanding at January 1, 2023	1.1	\$ 26.56		
Granted	—	\$ —		
Exercised	(0.5)	\$ 23.98		
Forfeited	(0.1)	\$ 31.01		
Outstanding at December 31, 2023	0.5	\$ 28.33		
Vested and expected to vest at December 31, 2023	0.5	\$ 28.33	\$ 2.7	3.21
Exercisable at December 31, 2023	0.5	\$ 28.33	\$ 2.7	3.21

Cash received by the Company upon exercise of options in 2023 was \$12.9 million. There were \$0.1 million tax benefits on these exercises. For the years ended December 31, 2023, 2022 and 2021, the intrinsic value of options exercised was \$3.2 million, \$0.6 million and \$2.5 million, respectively.

The fair value of options vested during 2023, 2022 and 2021 was \$0.0 million, \$1.1 million and \$1.9 million, respectively.

Restricted Stock Units

During the year ended December 31, 2023, we issued 0.8 million restricted stock units. A majority of these awards vest ratably over three years.

A summary of restricted stock unit activity as of and for the year ended December 31, 2023 is presented below:

Restricted Stock Units	Units (in millions)	Weighted Average Fair Value
Outstanding at January 1, 2023	1.6	\$ 27.38
Granted	0.8	\$ 29.62
Vested	(0.9)	\$ 27.07
Forfeited	(0.2)	\$ 28.79
Outstanding at December 31, 2023	1.3	\$ 28.71

Notes to Consolidated Financial Statements
(In millions, unless otherwise noted)

At December 31, 2023, there was \$14.4 million of unamortized expense relating to unvested restricted stock units that is expected to be amortized over a weighted average period of 1.4 years.

The intrinsic value of RSU awards vested and released during 2023, 2022 and 2021 was \$25.8 million, \$15.0 million and \$13.5 million, respectively. The total fair value of awards vested during 2023, 2022 and 2021 was \$19.4 million, \$20.2 million and \$13.6 million, respectively. Tax benefits on these vested awards were \$0.2 million.

Performance Share Units

During the years ended December 31, 2023, 2022 and 2021, the Company granted performance share units ("PSUs") to certain employees of the Company as part of their annual equity compensation award.

PSUs granted in 2022 and 2021 are subject to three-year service conditions, but also include performance conditions related to profitability and return on invested capital metrics over a cumulative performance period of three years, as well as three individual one-year performance periods. For the 2022 and 2021 grants, at the end of the three-year performance period, the number of PSUs earned based on performance relative to the profitability and invested capital metrics are subject to a market condition in the form of a positive or negative total shareholder return modifier relative to the S&P 400 Materials Index over the same three-year performance period.

PSUs granted in 2023 are split between those with a performance condition related to profitability and those with a market condition related to total shareholder return ("TSR") relative to the TSR of a selected industry peer group, with all such PSUs being subject to a three-year service condition and a cumulative three-year performance period.

The actual number of shares awarded will be between zero and 200% of the target award amount.

A summary of PSU activity as of and for the year ended December 31, 2023 is presented below:

Performance Share Units	Units (in millions)	Weighted Average Fair Value
Outstanding at January 1, 2023	0.6	\$ 30.44
Granted	0.5	\$ 35.85
Vested	—	\$ —
Forfeited	(0.3)	\$ 31.78
Outstanding at December 31, 2023	0.8	\$ 33.20

Our PSUs allow for participants to vest in more or less than the targeted number of shares granted. At December 31, 2023, there was \$13.1 million of unamortized expense relating to unvested PSUs that is expected to be amortized over a weighted average period of 2.1 years. The forfeitures include PSUs that vested below threshold payout.

The intrinsic value of PSU awards vested and released during 2023, 2022 and 2021 was \$0.0 million, \$1.6 million and \$0.0 million, respectively. The total fair value of awards vested during 2023, 2022 and 2021 was \$0.0 million, \$1.6 million and \$0.0 million, respectively. There were no tax benefits on these vested awards.

(9) OTHER EXPENSE (INCOME), NET

	Year Ended December 31,		
	2023	2022	2021
Foreign exchange losses, net	\$ 22.7	\$ 15.2	\$ 2.9
Debt extinguishment and refinancing-related costs ⁽¹⁾	9.9	14.7	0.2
Other miscellaneous income, net ⁽²⁾⁽³⁾	(13.1)	(3.8)	(15.4)
Total	\$ 19.5	\$ 26.1	\$ (12.3)

(1) Debt extinguishment and refinancing-related costs include third-party fees incurred, redemption premiums and the loss on extinguishment associated with the write-off of unamortized deferred financing costs and original issue discounts in conjunction with the restructuring and refinancing of our long-term borrowings, as discussed further in Note 18.

(2) Activity during the year ended December 31, 2022 includes expense of \$4.7 million related to a charge for a customer concession discussed further in Note 2.

(3) Activity during the year ended December 31, 2021 includes income of \$8.3 million related to a law change with respect to certain Brazilian indirect taxes.

Notes to Consolidated Financial Statements
(In millions, unless otherwise noted)

(10) INCOME TAXES

The Company's operations in Switzerland are subject to reduced tax rates through December 31, 2026, as long as certain conditions are met. The tax benefit attributable to this tax holiday was \$4.1 million, \$1.9 million, and \$2.1 million for the years ended December 31, 2023, 2022, and 2021, respectively. The tax effect of the holiday on diluted net income per common was \$0.01 for the years ended December 31, 2023, 2022, and 2021.

Domestic and Foreign Components of Income Before Income Taxes

	Year Ended December 31,		
	2023	2022	2021
Domestic	\$ 149.8	\$ 137.9	\$ 173.3

Net deferred tax asset	\$ 8.2	\$ 3.1

At December 31, 2023 and 2022, deferred income taxes of approximately \$12.9 million and \$10.8 million, respectively, have been provided on unremitted earnings of all subsidiaries and related companies to the extent that such earnings are not deemed to be permanently reinvested and cannot be repatriated in a tax-free manner. At December 31, 2023, and 2022, we have not recorded a deferred tax liability related to withholding taxes of approximately \$38.1 million and \$177.5 million, respectively, on unremitted earnings of subsidiaries that are permanently invested.

Tax loss, tax credit and interest carryforwards

Total tax loss, tax credit and interest carryforwards	\$ 326.9	\$ 263.9

(1) Net of unrecognized tax benefits

Utilization of our tax loss, tax credit and interest carryforwards may be subject to annual limitations due to the ownership change limitations provided by the Internal Revenue Code and similar state and foreign provisions. Such annual limitations could result in the expiration of the tax loss, tax credit and interest carryforwards before their utilization.

Valuation allowance

	Year Ended December 31,	
	2023	2022
Non-U.S.	\$ 228.9	\$ 190.0
U.S.	4.6	4.0
Total valuation allowance	<u>\$ 233.5</u>	<u>\$ 194.0</u>

Valuation allowances relate primarily to the tax loss, tax credit and interest carryforwards, as well as equity investment in foreign jurisdictions, where the Company does not believe the associated net deferred tax assets will be realized, due to expiration, limitation or insufficient future taxable income. The non-U.S. valuation allowance primarily relates to tax loss carryforwards and interest carryforwards from operations in Luxembourg, the Netherlands, and the United Kingdom, of \$219.6 million and \$181.3 million at December 31, 2023 and 2022, respectively. The U.S. valuation allowance primarily relates to state net deferred tax assets.

Total Gross Unrecognized Tax Benefits

	Year Ended December 31,		
	2023	2022	2021
Total gross unrecognized tax benefits at January 1	\$ 98.2	\$ 91.4	\$ 99.6
Increases related to acquisitions	—	—	1.8
Increases related to positions taken on items from prior years	1.8	2.7	2.3
Decreases related to positions taken on items from prior years	(5.4)	(2.5)	(16.5)
Increases related to positions taken in the current year	12.0	9.6	3.9
Settlement of uncertain tax positions with tax authorities	(1.0)	(1.4)	0.4
Decrease due to expiration of statutes of limitations	(10.0)	(1.6)	(0.1)
Total gross unrecognized tax benefits at December 31	<u>95.6</u>	<u>98.2</u>	<u>91.4</u>
Total accrual for interest and penalties associated with unrecognized tax benefits ⁽¹⁾	<u>5.6</u>	<u>6.3</u>	<u>8.7</u>
Total gross unrecognized tax benefits at December 31, including interest and penalties	<u>\$ 101.2</u>	<u>\$ 104.5</u>	<u>\$ 100.1</u>
Total unrecognized tax benefits that, if recognized, would impact the effective tax rate	\$ 42.0	\$ 46.0	\$ 44.5
Interest and penalties included as components of the Provision for income taxes	\$ (0.9)	\$ (1.8)	\$ (3.4)

(1) Accrued interest and penalties are included within Other accrued liabilities and Other liabilities in the consolidated balance sheets.

The Company is subject to income tax in approximately 46 jurisdictions outside the U.S. The Company's significant operations outside the U.S. are located in Brazil, China, Germany, Mexico, Switzerland and the United Kingdom. The statute of limitations varies by jurisdiction with 2013 being the oldest tax year still open in significant jurisdictions. Certain of our German subsidiaries are under tax examination for calendar years 2014 to 2020. The review by the German tax authorities ("GTA") encompasses various tax aspects, including but not limited to intercompany transactions and the establishment of our European headquarters in Basel, Switzerland in 2016. We expect the GTA will issue proposed adjustments that, when resolved, could have a material impact. We believe our income tax reserves at December 31, 2023 are adequate and do not expect a final resolution to these issues in the next 12 months. The Company is also under audit in other jurisdictions outside of Germany. The result of all open examinations may lead to ordinary course adjustments or proposed adjustments to our taxes or our net operating losses with respect to years under examination as well as subsequent periods.

The Company anticipates that it is reasonably possible its unrecognized benefits will decrease by \$46.6 million, exclusive of interest and penalties, of its current unrecognized tax benefits within 2024 mainly due to the expiration of statute of limitations in various countries and the expected final assessment from the 2010-2013 German income tax audit which concluded in 2021. During 2023, the Company recorded a decrease in unrecognized tax benefits of \$5.2 million, exclusive of interest and penalties, due to the conclusion of an income tax audit.

(11) NET INCOME PER COMMON SHARE

Basic net income per common share excludes the dilutive impact of potentially dilutive securities and is computed by dividing net income by the weighted average number of common shares outstanding for the period. Diluted net income per common share includes the effect of potential dilution from the hypothetical exercise of outstanding stock options and vesting of restricted stock awards, restricted stock units, performance stock awards and performance share units. A reconciliation of our basic and diluted net income per common share is as follows:

(In millions, except per share data)	Year Ended December 31,		
	2023	2022	2021
Net income to common shareholders	\$ 267.4	\$ 191.6	\$ 263.9
Basic weighted average shares outstanding	221.0	221.7	231.0
Diluted weighted average shares outstanding	221.9	222.3	231.9
Net income per common share:			
Basic net income per share	\$ 1.21	\$ 0.86	\$ 1.14
Diluted net income per share	\$ 1.21	\$ 0.86	\$ 1.14

The number of anti-dilutive shares that have been excluded in the computation of diluted net income per share for the years ended December 31, 2023, 2022 and 2021 was 0.4 million, 1.1 million and 0.7 million, respectively.

(12) ACCOUNTS AND NOTES RECEIVABLE, NET

Trade accounts receivable are stated at the amount we expect to collect. We maintain allowances for doubtful accounts for estimated losses by applying historical loss percentages, combined with reasonable and supportable forecasts of future losses, to respective aging categories. Management considers the following factors in developing its current estimate of expected credit losses: customer credit-worthiness, past transaction history with the customer, current economic industry trends, changes in market or regulatory matters, changes in geopolitical matters, and changes in customer payment terms, as well as other macroeconomic factors.

	Year Ended December 31,	
	2023	2022
Accounts receivable—trade, net ⁽¹⁾	\$ 1,043.1	\$ 909.3
Notes receivable	78.9	23.1
Other ⁽²⁾	137.9	135.0
Total	<u>\$ 1,259.9</u>	<u>\$ 1,067.4</u>

(1) Allowance for doubtful accounts was \$25.1 million and \$22.6 million at December 31, 2023 and 2022, respectively.

(2) Includes \$36.2 million and \$38.7 million at December 31, 2023 and 2022, respectively, of insurance recoveries related to an operational matter discussed further in Note 5.

Bad debt expense of \$7.3 million, \$2.0 million and \$1.7 million was included within selling, general and administrative expenses for the years ended December 31, 2023, 2022 and 2021, respectively, and benefits of \$1.6 million and expenses of \$3.5 million related to sanctions imposed on Russia in response to the conflict with Ukraine was included in other operating charges for the years ended December 31, 2023 and 2022, respectively.

(13) INVENTORIES

	Year Ended December 31,	
	2023	2022
Finished products	\$ 405.0	\$ 438.6
Semi-finished products	125.6	130.8
Raw materials	182.0	233.7
Stores and supplies	28.5	26.5
Total	<u>\$ 741.1</u>	<u>\$ 829.6</u>

Inventory reserves were \$27.3 million and \$16.6 million at December 31, 2023 and 2022, respectively.

Notes to Consolidated Financial Statements
(In millions, unless otherwise noted)

(14) PROPERTY, PLANT AND EQUIPMENT, NET

	Useful Lives (years)			Year Ended December 31,	
				2023	2022
Land				\$ 76.2	\$ 75.3
Buildings and improvements	5	-	25	526.2	508.3

Construction in progress				85.4	187.9
Total				2,453.9	2,368.9
Accumulated depreciation				(1,249.6)	(1,178.7)
Property, plant and equipment, net				\$ 1,204.3	\$ 1,190.2

Depreciation expense amounted to \$120.8 million, \$117.3 million and \$127.7 million for the years ended December 31, 2023, 2022 and 2021, respectively.

We capitalized interest of \$5.6 million, \$2.8 million and \$2.2 million for the years ended December 31, 2023, 2022 and 2021, respectively.

During April 2023, approximately \$33.8 million of capitalized project costs relating to a manufacturing facility previously classified as construction in progress was placed in service and depreciation was initiated. The costs will be depreciated over a weighted average useful life of approximately 22 years.

During May 2023, approximately \$86.2 million of capitalized project costs relating to an enterprise resource planning system implementation previously classified as construction in progress was placed in service and depreciation was initiated. The costs will be depreciated over a weighted average useful life of approximately 12 years.

(15) OTHER ASSETS

	Year Ended December 31,

Operating lease liabilities	31.2	28.4
Income taxes payable	37.2	36.7
Other	103.7	100.6
Total	\$ 676.9	\$ 620.2

(1) Includes \$35.2 million and \$36.6 million at December 31, 2023 and 2022, respectively, payable to banking institutions as part of our supplier financing programs discussed further in Note 17.

(2) Includes \$30.6 million and \$42.3 million at December 31, 2023 and 2022, respectively, of liabilities related to an operational matter discussed further in Note 5.

(17) SUPPLIER FINANCE PROGRAMS

We have a supplier financing program in China, which is utilized to finance the purchases of goods and services from our suppliers through local banking institutions. The payment terms under the program vary, but the program has a weighted average maturity date that is approximately 90 days from each respective financing inception. These financing arrangements are included in the current portion of borrowings within the consolidated balance sheets and at the time of issuance each transaction is treated as a non-cash financing activity within the consolidated statements of cash flows. Upon settlement of the financing, the cash outflow is classified as a financing activity within the consolidated statements of cash flows. Amounts outstanding under this program were \$3.8 million, \$13.5 million and \$24.0 million at December 31, 2023, 2022 and 2021, respectively, including \$1.1 million, \$3.5 million and \$3.8 million, respectively, related to purchases of property, plant and equipment. Cash outflows under this program were \$41.9 million, \$64.6 million and \$63.8 million for the years ended December 31, 2023, 2022 and 2021, respectively.

We maintain a voluntary supply chain financing ("SCF") program with a global financial institution which allows a select group of suppliers to sell their receivables to the participating financial institution at the discretion of both parties on terms that are negotiated between the supplier and the financial institution. The supplier invoices that have been confirmed as valid under the program are paid by us to the financial institution according to the terms we have with the supplier. Amounts outstanding under the SCF program were \$27.6 million and \$29.8 million at December 31, 2023 and December 31, 2022, respectively.

We also participate in a virtual card program with a global financial institution, in which we pay supplier invoices on the due date using a Virtual Card Account ("VCA") and subsequently pay the balance in full 25 days after the billing statement date of the VCA. The program allows for suppliers to receive an accelerated payment for a fee at each supplier's discretion. Fees paid by our suppliers are negotiated directly with the financial institution without our involvement. Amounts outstanding under the VCA program were \$7.6 million and \$6.8 million at December 31, 2023 and December 31, 2022, respectively.

The payment terms we have with our suppliers who participate in the SCF and VCA programs are consistent with the typical terms we have with our suppliers who do not participate. These financing arrangements are included in accounts payable within the consolidated balance sheets and the associated payments are included in operating activities within the consolidated statements of cash flows.

Current portion of long-term borrowings	18.5	15.0
Long-term debt	\$ 3,478.5	\$ 3,673.3

Senior Secured Credit Facilities, as amended

Our senior secured credit facilities (the "Senior Secured Credit Facilities") consist of a term loan due 2029 (the "2029 Dollar Term Loans"), and a revolving credit facility (the "Revolving Credit Facility") that is governed by a credit agreement (the "Credit Agreement"). The Credit Agreement has undergone several amendments, the most recent of which are detailed within the discussion below. For additional detail regarding earlier amendments, refer to our previous Annual Reports on Form 10-K filed with the SEC.

Any indebtedness under the Senior Secured Credit Facilities may be voluntarily prepaid in whole or in part, in minimum amounts, subject to the provisions set forth in the Credit Agreement, including with respect to the 1.00% premium that would be payable in connection with any Repricing Event (as defined in the Credit Agreement) on the 2029 Dollar Term Loans that occurs within six months of August 18, 2023. Such indebtedness is subject to mandatory prepayments amounting to the proceeds of asset sales over \$75.0 million, proceeds from certain debt issuances not otherwise permitted under the Credit Agreement and 50% (subject to a step-down to 25.0% or 0% if the First Lien Net Leverage Ratio (as defined in the Credit Agreement) falls below 4.25:1.00 or 3.50:1.00, respectively) of Excess Cash Flow (as defined in the Credit Agreement). Under the circumstances and subject to the conditions described in the Credit Agreement, we may increase our capacity for revolving loans, increase commitments under our existing term loans, issue additional term loans or issue other indebtedness.

The Senior Secured Credit Facilities are secured by substantially all assets of the Company and certain other guarantors, with certain guarantors providing equity pledges only. We are subject to customary negative covenants in addition to the First Lien Net Leverage Ratio financial covenant for purposes of determining any Excess Cash Flow mandatory payment. Further, the Senior Secured Credit Facilities, among other things, include customary restrictions (subject to certain exceptions) on the Company's ability to incur certain indebtedness, grant certain liens, make certain investments, declare or pay certain dividends, or repurchase shares of the Company's common stock. As of December 31, 2023, the Company is in compliance with all covenants under the Senior Secured Credit Facilities.

i) 2029 Dollar Term Loans

The 2029 Dollar Term Loans were issued at 99.000% of par, or a \$20.0 million discount, and mature on December 20, 2029. Principal is paid quarterly based on 1% per annum of the original principal amount outstanding on the most recent amendment date with the unpaid balance due at maturity, and interest is payable quarterly.

The 2029 Dollar Term Loans are subject to a floor of 0.5% and a margin of 2.50% when bearing interest at an interest rate based on SOFR and a margin of 1.50% when bearing interest at an interest rate based on the Base Rate (as defined in the Credit Agreement).

Notes to Consolidated Financial Statements
(In millions, unless otherwise noted)

ii) Revolving Credit Facility

The Revolving Credit Facility matures on the earlier of May 11, 2026, the date of termination in whole of the Revolving Credit Facility, or the date that is 91 days prior to the maturity of the term loans borrowed under the Credit Agreement, which maturity date is currently December 20, 2029. The financial covenant applicable to the Revolving Credit Facility is only applicable when greater than 30% of the Revolving Credit Facility (including letters of credit not cash collateralized to at least 103%) is outstanding at the end of an applicable fiscal quarter. If such conditions are met, the First Lien Net Leverage Ratio would be required to be less than or equal to 5.50:1.00.

Interest on any outstanding borrowings under the Revolving Credit Facility is subject to an interest margin of 1.50% for loans based on the Adjusted Eurocurrency Rate (as defined in the Credit Agreement) and 0.50% for loans based on the Base Rate (as defined in the Credit Agreement) with, in each case, a 0.25% increase when its First Lien Net Leverage Ratio is greater than or equal to 1.25:1.00 but less than or equal to 2.25:1.00 and another 0.25% increase when its First Lien Net Leverage Ratio is greater than 2.25:1.00.

There have been no borrowings on the Revolving Credit Facility since the issuance of the Senior Secured Credit Facilities. At December 31, 2023 and December 31, 2022, letters of credit issued under the Revolving Credit Facility totaled \$22.3 million and \$20.7 million, respectively, which reduced the availability under the Revolving Credit Facility. Availability under the Revolving Credit Facility was \$527.7 million and \$529.3 million at December 31, 2023 and December 31, 2022, respectively. At December 31, 2023, the financial covenant is not applicable as there were no borrowings.

2023 Activities

Pursuant to the Credit Agreement, on July 1, 2023, an interest rate based on the London Interbank Offered Rate ("LIBOR") was automatically replaced with an interest rate based on the Secured Overnight Financing Rate ("SOFR") as the interest rate benchmark for loans denominated in U.S. Dollars under the Revolving Credit Facility available under the Credit Agreement. On the same date, we entered into the Twelfth Amendment to the Credit Agreement to reflect this transition and make other related conforming changes to the Credit Agreement.

During the year ended December 31, 2023, we voluntarily prepaid \$200.0 million of the outstanding principal amount of the 2029 Dollar Term Loans. As a result of these prepayments, we recorded a loss on extinguishment of debt of \$3.0 million for the year ended December 31, 2023, which comprised the proportionate write-off of unamortized deferred financing costs and original issue discounts.

During August 2023, we entered into the Thirteenth Amendment to the Credit Agreement to lower the interest rate spread applicable to the 2029 Dollar Term Loans from 3.00% to 2.50% when bearing interest at a rate based on SOFR. The other material terms of the Credit Agreement, including the outstanding principal amount and maturity date of the 2029 Dollar Term Loans, remained unchanged. As a result of the repricing, we recorded a \$4.0 million loss on financing-related costs during the year ended December 31, 2023, of which \$2.1 million related to the write-off of unamortized deferred financing costs and original issue discount and \$1.9 million related to fees incurred to complete the repricing.

2022 Activities

On December 20, 2022, we entered into the Eleventh Amendment to the Credit Agreement to, among other things, provide a new seven-year \$2.0 billion term loan maturing December 2029 (the "2029 Dollar Term Loans"), the proceeds of which, together with cash on hand, were used to refinance the existing \$2.021 billion term loan due June 2024 (the "2024 Dollar Term Loans"). As a result of the refinancing, we recorded a \$15.6 million loss on extinguishment of debt and other financing-related costs, of which \$0.9 million was related to the 2024 Dollar Term Loans and \$14.7 million was related to the 2029 Dollar Term Loans. The 2024 Dollar Term Loans loss comprised the write off of unamortized deferred financing costs and original issuance discount of \$0.5 million and \$0.4 million, respectively. In relation to the 2029 Dollar Term Loans, the loss comprised additional fees, of which \$6.5 million and \$20.0 million were capitalized as deferred financing costs and original issuance discounts, respectively, and \$14.7 million was expensed.

2021 Activities

During May 2021, we entered into the Tenth Amendment to the Credit Agreement to, among other things, increase commitments available pursuant to the Revolving Credit Facility from \$400.0 million to \$550.0 million and extend the maturity of the Revolving Credit Facility from 2024 to 2026, provided that such date would be accelerated in certain circumstances as set forth in the Credit Agreement. As a result, we recorded \$1.4 million of incremental deferred financing costs in May 2021.

Notes to Consolidated Financial Statements
(In millions, unless otherwise noted)

Senior Notes

Our senior notes (the "Senior Notes") presently consist of 4.750% senior notes due 2027 (the "2027 Dollar Senior Notes"), 3.375% senior notes due 2029 (the "2029 Dollar Senior Notes") and 7.250% senior notes due 2031 (the "2031 Dollar Senior Notes"), each of which is governed by an indenture. Since inception, we have held various senior notes that have been subject to several supplemental indentures. For additional detail regarding earlier activities and terms, refer to our previous Annual Reports on Form 10-K filed with the SEC.

i) 2025 Euro Senior Notes

The 2025 Euro Senior Notes were issued at par and were scheduled to mature on January 15, 2025 (the "2025 Euro Senior Notes"). The 2025 Euro Senior Notes bore interest at 3.750% which was payable semi-annually on January 15th and July 15th. We had the option to redeem all or part of the 2025 Euro Senior Notes at the following redemption prices (expressed as percentages of principal amount) on or after January 15th of the years indicated:

Period	2025 Euro Senior Notes Percentage
2023 and thereafter	100.000 %

Upon the occurrence of certain events constituting a change of control, holders of the 2025 Euro Senior Notes had the right to require us to repurchase all or any part of the 2025 Euro Senior Notes at a purchase price equal to 101% of the principal amount plus accrued and unpaid interest, if any, to the repurchase date.

The 2025 Euro Senior Notes, subject to local law limitations, were jointly and severally guaranteed on a senior unsecured basis by the Company and each of its existing and future direct and indirect subsidiaries that is a borrower under or that guarantees the Senior Secured Credit Facilities, other than Axalta Coating Systems Dutch Holdings B.B.V. (the "Dutch Issuer"). Under certain circumstances, the guarantors may be released from their guarantees without the consent of the holders of the applicable series of notes.

The indebtedness issued through the 2025 Euro Senior Notes was senior unsecured indebtedness of the Dutch Issuer, was senior in right of payment to all future subordinated indebtedness of the Dutch Issuer and guarantors and was equal in right of payment to all existing and future senior indebtedness of the Dutch Issuer and guarantors. The 2025 Euro Senior Notes were effectively subordinated to any secured indebtedness of the Dutch Issuer and guarantors (including indebtedness outstanding under the Senior Secured Credit Facilities) to the extent of the value of the assets securing such indebtedness.

On November 17, 2023, we redeemed the €450.0 million 2025 Euro Senior Notes for \$489.4 million, using the proceeds of the 2031 Dollar Senior Notes described below.

ii) 2027 Dollar Senior Notes

The 2027 Dollar Senior Notes were issued at par and are due June 15, 2027. The 2027 Dollar Senior Notes bear interest at 4.750% which is payable semi-annually on June 15th and December 15th. We have the option to redeem all or part of the 2027 Dollar Senior Notes at the following redemption prices (expressed as percentages of principal amount), plus accrued and unpaid interest, if any, on or after June 15th of the years indicated:

Period	2027 Dollar Senior Notes Percentage
2023	102.375 %
2024	101.188 %
2025 and thereafter	100.000 %

Upon the occurrence of certain events constituting a change of control, holders of the 2027 Dollar Senior Notes have the right to require us to repurchase all or any part of the 2027 Dollar Senior Notes at a purchase price equal to 101% of the principal amount plus accrued and unpaid interest, if any, to the repurchase date.

The indebtedness under the 2027 Dollar Senior Notes is senior unsecured indebtedness of Axalta Coatings Systems, LLC (the "U.S. Issuer") and the Dutch Issuer (the U.S. Issuer and the Dutch Issuer collectively, the "2027 Notes Co-Issuers"), is senior in right of payment to all future subordinated indebtedness of the 2027 Notes Co-Issuers and the guarantors and is equal in right of payment to all existing and future senior indebtedness of the 2027 Notes Co-Issuers and the guarantors. The 2027 Dollar Senior Notes are effectively subordinated to any secured indebtedness of the 2027 Notes Co-Issuers and the guarantors (including indebtedness outstanding under the Senior Secured Credit Facilities) to the extent of the value of the assets securing such indebtedness.

Notes to Consolidated Financial Statements
(In millions, unless otherwise noted)

The 2027 Dollar Senior Notes are fully and unconditionally guaranteed by the Company and each of the Company's existing restricted subsidiaries, subject to certain exceptions.

The indenture governing the 2027 Dollar Senior Notes contains covenants that limit the Company's (and its subsidiaries') ability to, among other things: (i) incur additional debt or issue certain preferred stock; (ii) pay dividends, redeem stock or make other distributions; (iii) make other restricted payments or investments; (iv) create liens on assets; (v) transfer or sell assets; (vi) create restrictions on payment of dividends or other amounts by the Company to the Company's restricted subsidiaries; (vii) engage in mergers or consolidations; (viii) engage in certain transactions with affiliates; and (ix) designate the Company's subsidiaries as unrestricted subsidiaries.

iii) *2029 Dollar Senior Notes*

The 2029 Dollar Senior Notes were issued at par and are due February 15, 2029. The 2029 Dollar Senior Notes bear interest at 3.375% which is payable semi-annually on February 15th and August 15th. We have the option to redeem all or part of the 2029 Dollar Senior Notes at the following redemption prices (expressed as percentages of principal amount) on or after February 15th of the years indicated:

Period	2029 Dollar Senior Notes Percentage
2024	101.688 %
2025	100.844 %
2026 and thereafter	100.000 %

Notwithstanding the foregoing, at any time and from time to time prior to February 15, 2024, we may at our option redeem in the aggregate up to 40% of the original aggregate principal amount of the 2029 Dollar Senior Notes with the net cash proceeds of one or more Equity Offerings (as defined in the indenture governing the 2029 Dollar Senior Notes) at a redemption price of 103.375% plus accrued and unpaid interest, if any, to the redemption date. At least 50% of the original aggregate principal of the notes must remain outstanding after each such redemption.

Upon the occurrence of certain events constituting a change of control, holders of the 2029 Dollar Senior Notes have the right to require us to repurchase all or any part of the 2029 Dollar Senior Notes at a purchase price equal to 101% of the principal amount plus accrued and unpaid interest, if any, to the repurchase date.

The 2029 Dollar Senior Notes, subject to local law limitations, are jointly and severally guaranteed on a senior unsecured basis by the Company and each of its existing and future direct and indirect subsidiaries that is a borrower under or that guarantees the Senior Secured Credit Facilities.

Under certain circumstances, the guarantors may be released from their guarantees without the consent of the holders of the applicable series of notes.

The indebtedness under the 2029 Dollar Senior Notes is senior unsecured indebtedness of the U.S. Issuer, is senior in right of payment to all future subordinated indebtedness of the U.S. Issuer and guarantors and is equal in right of payment to all existing and future senior indebtedness of the U.S. Issuer and guarantors. The 2029 Dollar Senior Notes are effectively subordinated to any secured indebtedness of the U.S. Issuer and guarantors (including indebtedness outstanding under the Senior Secured Credit Facilities) to the extent of the value of the assets securing such indebtedness.

The indenture governing the 2029 Dollar Senior Notes contains covenants that limit the Company's (and its subsidiaries') ability to, among other things: (i) incur additional debt or issue certain preferred stock; (ii) pay dividends, redeem stock or make other distributions; (iii) make other restricted payments or investments; (iv) create liens on assets; (v) transfer or sell assets; (vi) create restrictions on payment of dividends or other amounts by the Company to the Company's restricted subsidiaries; (vii) engage in mergers or consolidations; (viii) engage in certain transactions with affiliates; and (ix) designate the Company's subsidiaries as unrestricted subsidiaries.

Notes to Consolidated Financial Statements
(In millions, unless otherwise noted)

iv) *2031 Dollar Senior Notes*

The 2031 Dollar Senior Notes were issued at par and are due February 15, 2031. The 2031 Dollar Senior Notes bear interest at 7.250% which is payable semi-annually on May 15th and November 15th. We have the option to redeem all or part of the 2031 Dollar Senior Notes at the following redemption prices (expressed as percentages of principal amount) on or after November 15th of the years indicated:

Period	2031 Dollar Senior Notes Percentage
2026	103.625 %
2027	101.813 %
2028 and thereafter	100.000 %

Notwithstanding the foregoing, at any time prior to November 15, 2026, we may at our option redeem in the aggregate up to 40% of the original aggregate principal amount of the 2031 Dollar Senior Notes with the net cash proceeds of one or more Equity Offerings (as defined in the indenture governing the 2031 Dollar Senior Notes) at a redemption price of 107.250% plus accrued and unpaid interest, if any, to the redemption date. At least 50% of the original aggregate principal of the notes must remain outstanding after each such redemption.

Upon the occurrence of certain events constituting a change of control, holders of the 2031 Dollar Senior Notes have the right to require us to repurchase all or any part of the 2031 Dollar Senior Notes at a purchase price equal to 101% of the principal amount plus accrued and unpaid interest, if any, to the repurchase date.

The 2031 Dollar Senior Notes, subject to local law limitations, are jointly and severally guaranteed on a senior unsecured basis by the Company and each of its existing and future direct and indirect subsidiaries that is a borrower under or that guarantees the Senior Secured Credit Facilities.

Under certain circumstances, the guarantors may be released from their guarantees without the consent of the holders of the applicable series of notes.

The indebtedness under the 2031 Dollar Senior Notes is senior unsecured indebtedness of the Dutch Issuer, is senior in right of payment to all future subordinated indebtedness of the Dutch Issuer and the guarantors and is equal in right of payment to all existing and future senior indebtedness of the Dutch Issuer and the guarantors. The 2031 Dollar Senior Notes are effectively subordinated to any secured indebtedness of the Dutch Issuer and the guarantors (including indebtedness outstanding under the Senior Secured Credit Facilities) to the extent of the value of the assets securing such indebtedness.

The indenture governing the 2031 Dollar Senior Notes contains covenants that limit the Company's (and its subsidiaries') ability to, among other things: (i) incur additional debt or issue certain preferred stock; (ii) pay dividends, redeem stock or make other distributions; (iii) make other restricted payments or investments; (iv) create liens on assets; (v) transfer or sell assets; (vi) create restrictions on payment of dividends or other amounts by the Company to the Company's restricted subsidiaries; (vii) engage in mergers or consolidations; (viii) engage in certain transactions with affiliates; and (ix) designate the Company's subsidiaries as unrestricted subsidiaries.

2023 Activities

In November 2023, we issued \$500.0 million in aggregate principal amount of the 2031 Dollar Senior Notes. The net proceeds from the 2031 Dollar Senior Notes, together with cash on hand were used to redeem the €450.0 million aggregate principal amount, with USD equivalent of \$489.4 million, of 3.750% Euro Senior Notes due 2025 ("Redeemed Notes") and pay related transaction costs and expenses ("November 2023 Notes Refinancing").

In connection with the November 2023 Notes Refinancing, we incurred \$7.7 million in third party fees, of which \$6.4 million was paid concurrently with the issuance and \$1.3 million was accrued. We also recorded a \$1.8 million loss on extinguishment of debt relating to the write off of unamortized deferred financing costs attributable to the Redeemed Notes.

2022 and 2021 Activities

None.

Notes to Consolidated Financial Statements

Future repayments

Below is a schedule of required future repayments of all borrowings outstanding at December 31, 2023.

2024	\$ 25.8
2025	21.9
2026	22.1
2027	522.4
2028	22.7
Thereafter	2,932.7
Total borrowings	\$ 3,547.6
Unamortized original issue discount	(16.5)
Unamortized deferred financing costs	(26.9)
Total borrowings, net	\$ 3,504.2

(19) FINANCIAL INSTRUMENTS, HEDGING ACTIVITIES AND FAIR VALUE MEASUREMENTS

Fair value of financial instruments

Equity securities with readily determinable fair values - Balances of equity securities are recorded within other assets, with any changes in fair value recorded within other expense (income), net. The fair values of equity securities are based upon quoted market prices, which are considered Level 1 inputs.

Long-term borrowings - The estimated fair values of these borrowings are based on recent trades, as reported by a third-party pricing service. Due to the infrequency of trades, these inputs are considered to be Level 2 inputs.

Derivative instruments - The Company's interest rate swaps, cross-currency swaps and foreign currency forward contracts are valued using broker quotations, or market transactions in either the listed or over-the-counter markets. As such, these derivative instruments are included in the Level 2 hierarchy.

Fair value of contingent consideration

Contingent consideration is valued using a probability-weighted expected payment method that considers the timing of expected future cash flows and the probability of whether key elements of the contingent event are completed. The fair value of contingent consideration is valued at each balance sheet date, until amounts become payable, with adjustments recorded within other expense (income), net in the consolidated statements of operations. Due to the significant unobservable inputs used in the valuations, these liabilities are categorized within Level 3 of the fair value hierarchy.

The table below presents the fair values of our financial instruments measured on a recurring basis by level within the fair value hierarchy at December 31, 2023 and December 31, 2022.

(1) Cash flow hedge

(2) Net investment hedge

The table below presents a roll forward of activity for the Level 3 liabilities for the year ended December 31, 2023.

	Fair Value Using Significant Unobservable Inputs (Level 3)
Beginning balance January 1, 2023	\$ 7.2
Business acquisition	5.6
Change in fair value	1.1
Payments	(6.9)
Foreign currency translation	0.6
Ending balance at December 31, 2023	\$ 7.6

Derivative Financial Instruments

We selectively use derivative instruments to reduce market risk associated with changes in foreign currency exchange rates and interest rates. The use of derivatives is intended for hedging purposes only, and we do not enter into derivative instruments for speculative purposes. A description of each type of derivative used to manage risk is included in the following paragraphs and our policies regarding accounting treatments of derivative movements are detailed in Note 1.

Derivative Instruments Qualifying and Designated as Cash Flow and Net Investment Hedges

Interest Rate Caps Designated as Cash Flow Hedges

During the year ended December 31, 2017, we entered into four 1.5% interest rate caps with aggregate notional amounts totaling \$850.0 million to hedge the variable interest rate exposures on our 2024 Dollar Term Loans. The final interest rate cap entered into during 2017, comprising \$250.0 million of notional value, expired December 31, 2021 and had a deferred premium of \$8.1 million at inception. All deferred premiums were paid quarterly over the term of the respective interest rate caps.

Notes to Consolidated Financial Statements
(In millions, unless otherwise noted)

Interest Rate Swaps Designated as Cash Flow Hedges

During the three months ended June 30, 2018, we entered into three interest rate swaps with aggregate notional amounts totaling \$475.0 million to hedge interest rate exposures related to variable rate borrowings under the 2024 Dollar Term Loans (which were subsequently replaced with the 2029 Dollar Term Loans). Under the terms of the interest rate swap agreements, the Company was required to pay the counterparties a stream of fixed interest payments at a rate of 2.72% and in turn, received variable interest payments based on 3-month LIBOR from the counterparties. The interest rate swaps were designated as cash flow hedges and expired on March 31, 2023.

We refinanced our 2024 Dollar Term Loans in December 2022 and as a result transitioned the variable interest rate benchmark from LIBOR to SOFR. Despite the differing interest rate benchmarks between the interest rate swaps and the 2029 Dollar Term Loans, the interest rate swaps continue to qualify as cash flow hedges in accordance with FASB's Topic 848, "Reference Rate Reform."

During the three months ended March 31, 2019, we entered into two interest rate swaps with aggregate notional amounts totaling \$500.0 million, effective December 31, 2019, to hedge interest rate exposure associated with the 2024 Dollar Term Loans (which were subsequently replaced with the 2029 Dollar Term Loans). Under the terms of the interest rate swap agreements, the Company was required to pay the counterparties a stream of fixed interest payments at a rate of 2.59% and in turn, received variable interest payments based on 3-month LIBOR from the counterparties. The interest rate swaps were designated as cash flow hedges and expired on December 31, 2022.

During the three months ended March 31, 2020, we entered into two interest rate swaps with aggregate notional amounts totaling \$400.0 million to hedge interest rate exposures associated with the 2024 Dollar Term Loans (which were subsequently replaced with the 2029 Dollar Term Loans). Under the terms of the interest rate swap agreements, the Company was required to pay the counterparties a stream of fixed interest payments at rates of 1.61% and 1.18% on \$200.0 million of notional value for each instrument, and in turn, received variable interest payments based on 3-month LIBOR from the counterparties. The interest rate swaps were designated as cash flow hedges and expired on December 31, 2022.

During the three months ended March 31, 2023, we entered into one interest rate swap with a notional amount of \$150.0 million to hedge interest rate exposures associated with the 2029 Dollar Term Loans. Under the terms of the interest rate swap agreement, the Company is required to pay the counterparty a stream of fixed interest payments at rates between 0.5% and 4.256% on \$150.0 million of notional value, and in turn, receives variable interest payments based on 3-month SOFR from the counterparty. The interest rate swap is designated as a cash flow hedge and expires on March 31, 2024.

Gains and losses for hedge components excluded from the assessment of effectiveness are recognized over the life of the hedge on a systematic and rational basis.

Cross-Currency Swaps Designated as Net Investment Hedges

During the three months ended December 31, 2018, we notionally exchanged \$475.0 million at a weighted average interest rate of 4.47% for €416.6 million at a weighted average interest rate of 1.44%. The cross-currency swaps were designated as net investment hedges and expired on March 31, 2023.

During the three months ended December 31, 2020, the Company notionally exchanged \$396.3 million at a weighted average interest rate of 3.375% for €335.0 million at a weighted average interest rate of 2.15%. The cross-currency swaps were designated as net investment hedges and were set to expire on February 15, 2029. During March 2022, these were settled resulting in cash proceeds of \$25.0 million. Concurrently, the Company notionally exchanged \$365.5 million at a weighted average interest rate of 3.375% for €335.0 million at a weighted average interest rate of 2.04%. The cross-currency swaps are designated as net investment hedges and expire on February 15, 2029.

During the three months ended March 31, 2023, three fixed-for-fixed cross-currency swaps with an aggregate notional amount totaling \$475.0 million, previously executed in 2018 and discussed above, matured resulting in net cash proceeds of \$29.4 million. Concurrently, the Company notionally exchanged \$150.0 million at an interest rate of 7.256% for €142.3 million at an interest rate of 5.697%. The cross-currency swap is designated as a net investment hedge and expires on March 31, 2024.

During the three months ended December 31, 2023, the Company notionally exchanged \$500.0 million at a weighted average interest rate of 7.25% for €467.0 million at a weighted average interest rate of 5.6225%. The cross-currency swaps were designated as a net investment hedge and expire on November 15, 2026.

Notes to Consolidated Financial Statements
(In millions, unless otherwise noted)

The following tables set forth the locations and amounts recognized during the year ended December 31, 2023, 2022 and 2021 for these cash flow and net investment hedges.

Derivatives in Cash Flow and Net Investment Hedges	Location of (Gain) Loss Recognized in Income on Derivatives	Year Ended December 31,					
		2023		2022		2021	
		Net Amount of (Gain) Loss Recognized in OCI on Derivatives	Amount of Gain Recognized in Income	Net Amount of Gain Recognized in OCI on Derivatives	Amount of Loss (Gain) Recognized in Income	Net Amount of Gain Recognized in OCI on Derivatives	Amount of Loss (Gain) Recognized in Income
Interest rate caps	Interest expense, net	\$ —	\$ —	\$ —	\$ —	\$ —	\$ 2.6
Interest rate swaps	Interest expense, net	(1.5)	(3.5)	(21.8)	6.8	(4.4)	29.3
Foreign currency forward contracts	Cost of goods sold	—	(0.2)	(0.2)	—	—	0.3
Cross-currency swaps	Interest expense, net	47.1	(10.2)	(67.9)	(20.3)	(80.7)	(19.5)

Over the next 12 months, we expect a gain of \$0.4 million pertaining to cash flow hedges to be reclassified from AOCI into earnings, related to our interest rate swaps.

Derivative Instruments Not Designated as Cash Flow Hedges

We periodically enter into foreign currency forward and option contracts to reduce market risk and hedge our balance sheet exposures and cash flows for subsidiaries with exposures denominated in currencies different from the functional currency of the relevant subsidiary. These contracts have not been designated as hedges and all gains and losses are marked to market through other expense (income), net in the consolidated statement of operations.

Fair value gains and losses of derivative contracts, as determined using Level 2 inputs, that have not been designated for hedge accounting treatment are recorded in earnings as follows:

Derivatives Not Designated as Hedging Instruments under ASC 815	Location of Loss (Gain) Recognized in Income on Derivatives	Year Ended December 31,		
		2023	2022	2021
Foreign currency forward contracts	Other expense (income), net	\$ 1.3	\$ (0.3)	\$ (7.3)

Notes to Consolidated Financial Statements
(In millions, unless otherwise noted)

(20) SEGMENTS

The Company identifies an operating segment as a component: (i) that engages in business activities from which it may earn revenues and incur expenses; (ii) whose operating results are regularly reviewed by the Chief Operating Decision Maker ("CODM") to make decisions about resources to be allocated to the segment and assess its performance; and (iii) that has available discrete financial information.

We have two operating segments, which are also our reportable segments: Performance Coatings and Mobility Coatings. The CODM reviews financial information at the operating segment level to allocate resources and to assess the operating results and financial performance for each operating segment. Our CODM is identified as the Chief Executive Officer because he has final authority over performance assessment and resource allocation decisions. Our segments are based on the type and concentration of customers served, service requirements, methods of distribution and major product lines.

Through our Performance Coatings segment, we provide high-quality liquid and powder coatings solutions to both large regional and global original equipment manufacturers ("OEMs") and to a fragmented and local customer base. These customers comprise independent or multi-shop operator body shops as well as a wide variety of industrial manufacturers. We are one of only a few suppliers with the technology to provide precise color matching and highly durable coatings systems. The end-markets within this segment are refinish and industrial.

Through our Mobility Coatings segment, we provide coatings technologies for light vehicle and commercial vehicle OEMs. These global customers are faced with evolving megatrends in electrification, sustainability, personalization and autonomous driving that require a high level of technical expertise. The OEMs require efficient, environmentally responsible coatings systems that can be applied with a high degree of precision, consistency and speed. The end-markets within this segment are light vehicle and commercial vehicle.

During the three months ended December 31, 2023, Axalta replaced Adjusted EBIT with Adjusted EBITDA as the primary measure to evaluate financial performance of the operating segments and allocate resources. Adjusted EBITDA excludes impacts of depreciation and amortization, foreign exchange remeasurement, stock-based compensation, non-cash and non-service components of long-term employee benefits and dividends in respect of noncontrolling interests, whereas these items were not excluded from Adjusted EBIT. Adjusted EBITDA is the primary measure used by our CODM to evaluate financial performance of the operating segments and allocate resources and is therefore our measure of segment profitability in accordance with GAAP under ASC 280, *Segment Reporting*. Asset information is not reviewed or included with our internal management reporting. Therefore, we have not disclosed asset information for each reportable segment. The following table presents relevant information of our reportable segments.

	Year Ended December 31,		
	2023	2022	2021
Net sales ⁽¹⁾ :			
Refinish	\$ 2,084.3	\$ 1,943.4	\$ 1,776.4

Notes to Consolidated Financial Statements
(In millions, unless otherwise noted)

- (1) The primary measure of segment operating performance is Adjusted EBITDA, which is defined as net income before interest, taxes, depreciation, amortization and select other items impacting operating results. These other items impacting operating results are items that management has concluded are (1) non-cash items included within net income, (2) items the Company does not believe are indicative of ongoing operating performance or (3) non-recurring, unusual or infrequent items that have not occurred within the last two years or we believe are not reasonably likely to recur within the next two years. Adjusted EBITDA is a key metric that is used by management to evaluate business performance in comparison to budgets, forecasts and prior year financial results, providing a measure that management believes reflects the Company's core operating performance, which represents Adjusted EBITDA adjusted for the select items referred to above.
- (a) Represents expenses and associated changes to estimates related to the prepayment, restructuring, and refinancing of our indebtedness, which are not considered indicative of our ongoing operating performance.
- (b) Represents expenses and associated changes to estimates related to employee termination benefits, consulting, legal and other employee-related costs associated with restructuring programs and other employee-related costs. These amounts are not considered indicative of our ongoing operating performance.
- (c) Represents costs for legal, tax and other advisory fees pertaining to our review of strategic alternatives that was concluded in March 2020, as well as retention awards for certain employees that were earned over a period of 18-24 months, which ended in September 2021. These amounts are not considered indicative of our ongoing performance.
- (d) Represents acquisition and divestiture-related expenses and integration activities associated with our business combinations, all of which are not considered indicative of our ongoing operating performance. The amounts for the years ended December 31, 2023, 2022 and 2021 include \$0.2 million, \$1.9 million and \$1.0 million, respectively, of due diligence and other related costs associated with un consummated merger and acquisition transactions.
- (e) Represents impairment charges and benefits, which are not considered indicative of our ongoing operating performance. The losses recorded during the year ended December 31, 2023 were primarily due to the decision to demolish assets at a previously closed manufacturing site during the three months ended June 30, 2023 and the then anticipated exit of a non-core business category in the Mobility Coatings segment during the three months ended March 31, 2023. The amounts recorded during the year ended December 31, 2022 relate primarily to insurance recoveries on assets impaired in a prior year. The amounts recorded during the year ended December 31, 2021 include recovered gains on a previously impaired asset.
- (f) Represents costs related to the closure of certain manufacturing sites, which we do not consider indicative of our ongoing operating performance.
- (g) Represents foreign exchange losses resulting from the remeasurement of assets and liabilities denominated in foreign currencies, net of the impacts of our foreign currency instruments used to hedge our balance sheet exposures.
- (h) Represents the non-cash, non-service cost components of long-term employee benefit costs.
- (i) Represents non-cash impacts associated with stock-based compensation.
- (j) Represents expenses, changes in estimates and insurance recoveries for probable liabilities related to an operational matter in the Mobility Coatings segment discussed further in Note 5, which we do not consider indicative of our ongoing operating performance.
- (k) Represents non-recurring income related to a law change with respect to certain Brazilian indirect taxes which was recorded within other (income) expense, net.
- (l) Represents non-recurring income related to the sale of previously closed manufacturing facilities.
- (m) Represents expenses and associated changes to estimates related to sanctions imposed on Russia in response to the conflict with Ukraine for incremental reserves on accounts receivable and inventory, which we do not consider indicative of our ongoing operating performance. The benefits recorded during the year ended December 31, 2023 are related to changes in estimated inventory obsolescence and uncollectible accounts receivables. The benefits recorded during the year ended December 31, 2022 are related to changes in estimated inventory obsolescence.
- (n) Represents a non-cash charge associated with the forgiveness of a portion of up-front customer incentives with repayment features which was done along with our customer completing a recapitalization and restructuring of its indebtedness and the execution of a new long-term exclusive sales agreement with us. This amount is not considered to be indicative of our ongoing operating performance.
- (o) Represents costs for certain non-operational or non-cash (gains) losses, unrelated to our core business and which we do not consider indicative of our ongoing operating performance.

Asia Pacific	780.5	735.0	671.1
Latin America ⁽¹⁾	589.4	523.3	403.5
Total ⁽²⁾	<u>\$ 5,184.1</u>	<u>\$ 4,884.4</u>	<u>\$ 4,416.2</u>

Net long-lived assets by region were as follows:

	Year Ended December 31,	
	2023	2022
North America	\$ 521.2	\$ 531.3
EMEA	375.9	350.8
Asia Pacific	200.6	213.0
Latin America ⁽¹⁾	106.6	95.1
Total ⁽³⁾	<u>\$ 1,204.3</u>	<u>\$ 1,190.2</u>

(1) Includes Mexico.

(2) Net Sales are attributed to countries based on the customer's location. Sales to customers in China represented approximately 10%, 10% and 10% of the total for the years ended December 31, 2023, 2022 and 2021, respectively. Sales to customers in Germany represented approximately 7%, 7%, and 7% of the total for the years ended December 31, 2023, 2022 and 2021, respectively. Mexico represented 7%, 6%, and 5% of the total for the years ended December 31, 2023, 2022 and 2021, respectively. Canada, which is included in the North America region, represented approximately 3%, 4%, and 3% of total net sales for the years ended December 31, 2023, 2022 and 2021, respectively.

(3) Long-lived assets consist of property, plant and equipment, net. Germany long-lived assets amounted to approximately \$209.5 million and \$198.7 million at December 31, 2023 and 2022, respectively. China long-lived assets amounted to approximately \$170.7 million and \$182.2 million at December 31, 2023 and 2022, respectively. Mexico long-lived assets amounted to approximately \$68.9 million and \$59.2 million at December 31, 2023 and 2022, respectively. Canada long-lived assets, which are included in the North America region, amounted to approximately \$5.6 million and \$14.6 million at December 31, 2023 and 2022, respectively.

See Note 19 for classification within the consolidated statements of operations of the gains and losses on derivatives reclassified from AOCI.

Notes to Consolidated Financial Statements
(In millions, unless otherwise noted)

(22) SUBSEQUENT EVENTS

Debt Prepayment

On February 7, 2024, we voluntarily prepaid \$50.0 million of the outstanding principal amount of the 2029 Dollar Term Loans.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Evaluation of disclosure controls and procedures

As required by Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934 (the "Exchange Act"), the Company carried out an evaluation, under the supervision and with the participation of management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) under Exchange Act) as of the end of the period covered by this Annual Report on Form 10-K. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures. No matter how well designed and operated, disclosure controls and procedures can provide only reasonable, rather than absolute, assurance of achieving the desired control objectives. Based on the foregoing, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective at a reasonable assurance level as of December 31, 2023.

Management's report on internal control over financial reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act).

Management assessed the effectiveness of the Company's internal control over financial reporting based on the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission in *Internal Control—Integrated Framework* (2013). Based on this assessment, management concluded that, as of December 31, 2023, the Company's internal control over financial reporting was effective.

The effectiveness of our internal control over financial reporting has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, as stated in its report which is included herein.

Changes in internal control over financial reporting

There were no changes in the Company's internal control over financial reporting that occurred during the quarter ended December 31, 2023 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

We are in the midst of a multi-year project to upgrade our ERP system through a phased implementation approach. The gradual implementation is expected to occur in phases over the next several years. During the second quarter of 2023, we completed the migration to the upgraded ERP system in North America, with further implementations in other geographic regions expected to occur in phases over the next several years. In connection with this implementation, we have updated the processes that constitute our internal control over financial reporting, as necessary, to accommodate related changes to our business processes.

ITEM 9B. OTHER INFORMATION

During the three months ended December 31, 2023, no director or "officer" of the Company adopted or terminated a "Rule 10b5-1 trading arrangement" or "non-Rule 10b5-1 trading arrangement," as each term is defined in Item 408 of Regulation S-K.

ITEM 9C. DISCLOSURE REGARDING FOREIGN JURISDICTIONS THAT PREVENT INSPECTIONS

None.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

The information about the Company's directors required by Item 10 and not otherwise set forth below is contained under the caption "Proposal No. 1: Election of Directors" in Axalta's definitive Proxy Statement for the 2024 Annual General Meeting of Members (the "Proxy Statement") which the Company anticipates filing with the SEC, pursuant to Regulation 14A, not later than 120 days after the end of the Company's fiscal year, and is incorporated herein by reference.

The executive officers of the Company are elected by the Board. The information required by this item concerning the Company's executive officers is incorporated by reference herein from Part I of this report under the caption "Information About Our Executive Officers."

Information regarding the Company's Audit Committee, code of ethics, and compliance with Section 16(a) of the Exchange Act is included in the Proxy Statement under the captions "Corporate Governance Matters and Committees of the Board of Directors," and "Delinquent Section 16(a) Reports," respectively, and is incorporated herein by reference.

ITEM 11. EXECUTIVE COMPENSATION

The information required by Item 11 is contained in the Proxy Statement under the captions "Compensation Discussion and Analysis", "Executive Compensation" and "Compensation Committee Report" and is incorporated herein by reference.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED SHAREHOLDER MATTERS

The information required by Item 12 is contained in the Proxy Statement under the captions "Security Ownership of Certain Beneficial Owners and Management" and "Equity Compensation Plan Information" and is incorporated herein by reference.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS AND DIRECTOR INDEPENDENCE

The information required by Item 13 is contained in the Proxy Statement under the captions "Director Independence" and "Certain Relationships and Related Person Transactions" and is incorporated herein by reference.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

The information required by Item 14 is contained in the Proxy Statement under the caption "Proposal No. 2: Appointment of PricewaterhouseCoopers LLP as the Company's Independent Registered Public Accounting Firm and Auditor" and is incorporated herein by reference.

PART IV

ITEM 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES

(a)(1) The Company's 2023 Consolidated Financial Statements and Reports of Independent Registered Public Accounting Firm are included in Part II, Item 8 of this Annual Report on Form 10-K.

(a)(2) The following Consolidated Financial Statement Schedule for the years ended December 31, 2023, 2022 and 2021 should be read in conjunction with the previously referenced financial statements:

SCHEDULE II - VALUATION AND QUALIFYING ACCOUNTS

Allowance for Doubtful Accounts for the years ended December 31:

(in millions)	Balance at Beginning of Year	Additions	Deductions ⁽¹⁾	Balance at End of Year
2023	\$ 22.6	5.7	(3.2)	\$ 25.1
2022	\$ 22.0	5.5	(4.9)	\$ 22.6
2021	\$ 26.5	1.7	(6.2)	\$ 22.0

(1) Deductions include uncollectible accounts written off and foreign currency translation impact.

Deferred tax asset valuation allowances for the years ended December 31:

(in millions)	Balance at Beginning of Year	Additions ⁽¹⁾	Deductions ⁽¹⁾	Balance at End of Year
2023	\$ 194.0	40.7	(1.2)	\$ 233.5
2022	\$ 210.9	30.7	(47.6)	\$ 194.0
2021	\$ 208.1	21.9	(19.1)	\$ 210.9

(1) Additions and deductions include the impact of foreign currency translation.

(a)(3) The following exhibits are filed as a part of, or incorporated by reference into, this Annual Report on Form 10-K.

EXHIBIT NO.	DESCRIPTION OF EXHIBITS
2.1*	Purchase Agreement, dated as of August 30, 2012, by and between E. I. du Pont de Nemours and Company and Flash Bermuda Co. Ltd. (n/k/a Axalta Coating Systems Ltd.) (incorporated by reference to Exhibit 2.1 to the Registrant's Registration Statement on Form S-1 (File No. 333-198271) originally filed with the SEC on August 20, 2014)
2.2*	Amendment to Purchase Agreement, dated as of January 31, 2013, by and between E. I. du Pont de Nemours and Company and Flash Bermuda Co. Ltd. (n/k/a Axalta Coating Systems Ltd.) (incorporated by reference to Exhibit 2.2 to the Registrant's Registration Statement on Form S-1 (File No. 333-198271), originally filed with the SEC on August 20, 2014)
2.3*	Sale and Purchase Agreement related to U-POL Holdings Limited, dated as of July 6, 2021, by and between the Institutional and Management Sellers and Axalta Coating Systems UK Holding Limited and Axalta Coating Systems Ltd. (incorporated by reference to Exhibit 2.1 to the Registrant's Quarterly Report on Form 10-Q (File No. 001-36733) filed with the SEC on October 25, 2021)
2.4*	Minority Sale and Purchase Agreement related to U-POL Holdings Limited, dated as of July 6, 2021, by and between the Minority Sellers and Axalta Coating Systems UK Holding Limited and Axalta Coating Systems Ltd. (incorporated by reference to Exhibit 2.2 to the Registrant's Quarterly Report on Form 10-Q (File No. 001-36733) filed with the SEC on October 25, 2021)
3.1*	Amended Memorandum of Association of Axalta Coating Systems Ltd. (incorporated by reference to Exhibit 3.1 of Amendment No. 2 to the Registrant's Registration Statement on Form S-1 (File No. 333-198271), filed with the SEC on October 14, 2014)
3.2*	Amended and Restated Bye-laws of Axalta Coating Systems Ltd. (incorporated by reference to Exhibit 3.1 to the Registrant's Quarterly Report on Form 10-Q (File No. 001-36733), filed with the SEC on November 11, 2014)
4.1*	Specimen Common Share Certificate (incorporated by reference to Exhibit 4.21 to Amendment No. 3 to the Registrant's Registration Statement on Form S-1 (File No. 333-198271), filed with the SEC on October 30, 2014)

4.2*	Description of the Axalta Coating Systems Ltd.'s Securities Registered Pursuant to Section 12 of the Securities Exchange Act of 1934 (incorporated by reference to Exhibit 4.6 to the Registrant's Annual Report on Form 10-K (File No. 001-36733), filed with the SEC on February 19, 2020)
4.3*	Indenture, dated as of June 15, 2020, by and among Axalta Coating Systems, LLC and Axalta Coating Systems Dutch Holding B.B.V., as issuers, the guarantors named therein and Wilmington Trust, National Association, as trustee (including the form of Note) (incorporated by reference to exhibit 4.1 to the Registrant's Quarterly Report on Form 10-Q (File No. 001-36733), filed with the SEC on June 15, 2020)
4.4*	Indenture, dated as of November 24, 2020, by and among Axalta Coating Systems, LLC, as issuer, the guarantors named therein and Wilmington Trust, National Association, as trustee (including the form of Note) (incorporated by reference to Exhibit 4.1 to the Registrant's Current Report on Form 8-K (File No. 001-36733), filed with the SEC on November 24, 2020)
4.5*	Indenture, dated as of November 17, 2023, by and among Axalta Coating Systems Dutch Holding B.B.V., the guarantors named therein and Wilmington Trust, National Association, as trustee (including the form of Note) (incorporated by reference to Exhibit 4.1 to the Registrants Current Report on Form 8-K) (File No. 011-36733), filed with the SEC on November 17, 2023
10.1*	Credit Agreement, dated as of February 1, 2013, among Flash Dutch 2 B.V. (n/k/a Axalta Coating Systems Dutch Holding B.B.V.) and U.S. Coatings Acquisition Inc. (n/k/a Axalta Coating Systems U.S. Holdings, Inc.), as borrowers, Flash Dutch 1 B.V. (n/k/a Axalta Coating Systems Dutch Holding A.B.V.), Coatings Co. U.S. Inc. (n/k/a Axalta Coating Systems U.S., Inc.), Barclays Bank PLC, as administrative agent, collateral agent, swing line lender and L/C issuer, and the other lenders party thereto (incorporated by reference to Exhibit 10.1 to the Registrant's Registration Statement on Form S-1 (File No. 333-198271), originally filed with the SEC on August 20, 2014)
10.2*	Second Amendment to Credit Agreement, dated as of February 3, 2014, by and among Axalta Coating Systems Dutch Holding B.B.V. and Axalta Coating Systems U.S. Holdings, Inc., as borrowers, Axalta Coating Systems U.S., Inc. (f/k/a Coatings Co. U.S. Inc.), Axalta Coating Systems Dutch Holding A.B.V., and Barclays Bank PLC, as administrative agent, collateral agent and designated 2014 Specified Refinancing Term Lender (incorporated by reference to Exhibit 10.3 to the Registrant's Registration Statement on Form S-1 (File No. 333-198271), originally filed with the SEC on August 20, 2014)
10.3*	Amendment No. 4 to the Credit Agreement, dated as of December 15, 2016, among Axalta Coating Systems Dutch Holding B.B.V. and Axalta Coating Systems U.S. Holdings, Inc., as borrowers, Axalta Coating Systems U.S., Inc., Axalta Coating Systems Dutch Holding A.B.V., the several banks and other financial institutions or entities from time to time parties thereto as lenders, Barclays Bank PLC, as administrative agent and collateral agent, and the other agents and arrangers party thereto (incorporated by reference to Exhibit 10.1 to the Registrant's Current Report on Form 8-K (File No. 001-36733), filed with the SEC on December 15, 2016)
10.4*	Amendment No. 5 to the Credit Agreement, dated as of June 1, 2017, among Axalta Coating Systems Dutch Holding B.B.V. and Axalta Coating Systems U.S. Holdings, Inc., as borrowers, Axalta Coating Systems U.S., Inc., Axalta Coating Systems Dutch Holding A.B.V., the several banks and other financial institutions or entities from time to time parties thereto as lenders, Barclays Bank PLC, as administrative agent and collateral agent, and the other agents and arrangers party thereto (incorporated by reference to Exhibit 10.1 to the Registrant's Current Report on Form 8-K (File No. 001-36733), filed with the SEC on June 1, 2017)
10.5*	Amendment No. 6 to the Credit Agreement, dated as of April 11, 2018, among Axalta Coating Systems Dutch Holding B.B.V. and Axalta Coating Systems U.S. Holdings, Inc., as borrowers, Axalta Coating Systems U.S., Inc., Axalta Coating Systems Dutch Holding A.B.V., the several banks and other financial institutions or entities from time to time parties thereto as lenders, Barclays Bank PLC, as administrative agent and collateral agent, and the other agents and arrangers party thereto (incorporated by reference to Exhibit 10.1 to the Registrant's Current Report on Form 8-K (File No. 001-36733), filed with the SEC on April 11, 2018)
10.6*	Amendment No. 7 to the Credit Agreement, dated as of October 31, 2018, among Axalta Coating Systems Dutch Holding B.B.V. and Axalta Coating Systems U.S. Holdings, Inc., as borrowers, Axalta Coating Systems U.S., Inc., Axalta Coating Systems Dutch Holding A.B.V., the several banks and other financial institutions or entities from time to time parties thereto as lenders, Barclays Bank PLC, as administrative agent and collateral agent, and the other agents and arrangers party thereto (incorporated by reference to Exhibit 10.1 to the Registrant's Current Report on Form 8-K (File No. 001-36733), filed with the SEC on November 1, 2018)
10.7*	Tenth Amendment to Credit Agreement, dated as of May 11, 2021, among Axalta Coating Systems Ltd., Axalta Coating Systems Dutch Holding B.B.V., Axalta Coating Systems U.S. Holdings, Inc., Axalta Coating Systems U.S., Inc., certain lenders party thereto and Barclays Bank PLC, as administrative agent and collateral agent (incorporated by reference to Exhibit 10.1 to the Registrant's Current Report on Form 8-K (File No. 001-36733) filed with the SEC on May 12, 2021)

10.8*	<u>Eleventh Amendment to Credit Agreement and First Amendment to Amended and Restated Guaranty Agreement, dated as of December 20, 2022, among Axalta Coating Systems Ltd., Axalta Coating Systems Dutch Holding B.B.V., Axalta Coating Systems U.S. Holdings, Inc., Axalta Coating Systems U.S., Inc., certain subsidiary guarantors party thereto, certain lenders party thereto and Barclays Bank PLC, as administrative agent and collateral agent (incorporated by reference to Exhibit 10.1 to the Registrant's Current Report on Form 8-K (File No. 001-36733) filed with the SEC on December 20, 2022)</u>
10.9*	<u>Twelfth Amendment to Credit Agreement, dated as of July 1, 2023, executed and delivered by Barclays Bank PLC, as administrative agent (incorporated by reference to Exhibit 10.1 to the Registrants Quarterly Report on Form 10-Q (File No. 001-36733) filed with the SEC on November 1, 2023</u>
10.10*	<u>Thirteenth Amendment to Credit Agreement, dated as of August 18, 2023, among Axalta Coating Systems Ltd., Axalta Coating Systems Dutch Holding B.B.V., Axalta Coating Systems U.S. Holdings, Inc., Axalta Coating Systems U.S., Inc., certain subsidiary guarantors party thereto, certain lenders party thereto and Barclays Bank PLC, as administrative agent and collateral agent (incorporated by reference to Exhibit 10.1 to the Registrant's Current Report on Form 8-K (File No. 001-36733) filed with the SEC on August 18, 2023) (the conformed Credit Agreement attached as Annex A to the Thirteenth Amendment reflects the inclusion of the amendment provisions of all thirteen amendments to the Credit Agreement)</u>
10.11**	<u>Security Agreement, dated February 1, 2013, among the grantors referred to therein and Barclays Bank PLC, as collateral agent (incorporated by reference to Exhibit 10.4 to the Registrant's Registration Statement on Form S-1 (File No. 333-198271), originally filed with the SEC on August 20, 2014)</u>
10.12*	<u>Intellectual Property Security Agreement, dated February 1, 2013, between U.S. Coatings IP Co. LLC (n/k/a Axalta Coating Systems USA IP Co. LLC) and Barclays Bank PLC, as collateral agent (incorporated by reference to Exhibit 10.6 to the Registrant's Registration Statement on Form S-1 (File No. 333-198271), originally filed with the SEC on August 20, 2014)</u>
10.13*	<u>Second Amended and Restated Guaranty Agreement dated as of December 20, 2022 among the guarantors named therein and Barclays Bank PLC, as administrative agent</u>

CERTIFICATION OF CHIEF EXECUTIVE OFFICER

I, Chris Villavarayan, certify that:

1. I have reviewed this annual report on Form 10-K of Axalta Coating Systems Ltd.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATION OF CHIEF FINANCIAL OFFICER

I, Carl D. Anderson II, certify that:

1. I have reviewed this annual report on Form 10-K of Axalta Coating Systems Ltd.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Axalta Coating Systems Ltd.
Dodd-Frank Incentive Compensation Recoupment Policy

The Board of Directors (the “**Board**”) of Axalta Coating Systems Ltd. (the “**Company**”) believes that it is in the best interests of the Company and its shareholders to adopt this Dodd-Frank Incentive Compensation Recoupment Policy (the “**Policy**”), which provides for the recovery of certain incentive compensation in the event of an Accounting Restatement (as defined below). This Policy is designed to comply with, and shall be interpreted to be consistent with, Section 10D of the Securities Exchange Act of 1934, as amended (the “**Exchange Act**”), Rule 10D-1 promulgated under the Exchange Act (“**Rule 10D-1**”) and Section 303A.14 of the New York Stock Exchange Listed Company Manual (the “**Listing Standards**”).

1. Administration

Except as specifically set forth herein or as subsequently determined by the Board, this Policy shall be administered by the Compensation Committee of the Board (the Committee, or the body otherwise determined by the Board to administer this Policy, the “**Administrator**”). The Administrator is authorized to interpret and construe this Policy and to make all determinations necessary, appropriate or advisable for the administration of this Policy. Any determinations made by the Administrator shall be final and binding on all affected individuals and need not be uniform with respect to each individual covered by the Policy. In the administration of this Policy, the Administrator is authorized and directed to consult with the full Board or such other committees of the Board, as may be necessary or appropriate as to matters within the scope of, as applicable, the full Board or such other committee’s responsibility and authority.

Subject to any limitation at applicable law, the Administrator may authorize and empower any officer or employee of the Company to take any and all actions necessary or appropriate to carry out the purpose and intent of this Policy (other than with respect to any recovery under this Policy involving such officer or employee).

2. Definitions

As used in this Policy, the following definitions shall apply:

“**Accounting Restatement**” means an accounting restatement of the Company’s financial statements due to the Company’s material noncompliance with any financial reporting requirement under the securities laws, including any required accounting restatement to correct an error in previously issued financial statements that is material to the previously issued financial statements, or that would result in a material misstatement if the error were corrected in the current period or left uncorrected in the current period. The following shall not constitute an Accounting Restatement: (i) out-of-period adjustments; (ii) retrospective application of a change in accounting principles; (iii) retrospective revision to reportable segment information due to a change in the structure of the internal organization of the Company’s consolidated group; (iv) retrospective reclassification due to a discontinued operation; (v) retrospective application of a change in reporting entity, such as from a reorganization of entities under common control; and (vi) retrospective revision for stock splits, reverse stock splits, stock dividends or other changes in capital structure.

“**Accounting Restatement Date**” means the earlier to occur of (a) the date the Board, a committee of the Board or the officer or officers of the Company authorized to take such action if Board action is not required, conclude, or reasonably should have concluded, that the Company is required to prepare an Accounting Restatement or (b) the date a court, regulator or other legally authorized body directs the Company to prepare an Accounting Restatement, in each case regardless of if or when the restated financial statements are filed.

“**Administrator**” has the meaning set forth in Section 1 hereof.

“**Applicable Period**” means the three completed fiscal years immediately preceding the Accounting Restatement Date, as well as any transition period (that results from a change in the Company’s fiscal year) within or immediately following those three completed fiscal years (except that a transition period that comprises a period of at least nine months shall count as a completed fiscal year).

“**Covered Executives**” means the Company’s current and former executive officers, as determined by the Administrator in accordance with the definition of executive officer set forth in Rule 10D-1 and the Listing Standards.

“**Erroneously Awarded Compensation**” has the meaning set forth in Section 5 of this Policy.

“**Financial Reporting Measure**” is any measure that is determined and presented in accordance with the accounting principles used in preparing the Company’s financial statements, and any measure that is derived wholly or in part from such measure. Financial Reporting Measures include but are not limited to the following (and any measures derived from the following): Company stock price and total shareholder return (“**TSR**”). A Financial Reporting Measure need not be presented within the Company’s financial statements or included in a filing with the Securities Exchange Commission.

“**Incentive Compensation**” means any compensation that is granted, earned or vested based wholly or in part upon the attainment of a Financial Reporting Measure. Incentive Compensation is “**received**” for purposes of this Policy in the Company’s fiscal period during which the Financial Reporting Measure specified in the Incentive Compensation award is attained, even if the payment or grant of such Incentive Compensation occurs after the end of that period.

3. Covered Executives; Incentive Compensation

This Policy, subject to Section 9, applies to Incentive Compensation received by a Covered Executive (a) after beginning services as a Covered Executive; (b) if that person served as a Covered Executive at any time during the performance period for such Incentive Compensation; and (c) while the Company had a listed class of securities on a national securities exchange.

4. Required Recoupment of Erroneously Awarded Compensation in the Event of an Accounting Restatement

In the event the Company is required to prepare an Accounting Restatement, the Company shall promptly recoup the amount of any Erroneously Awarded Compensation received by any Covered Executive, as calculated pursuant to Section 5 hereof, during the Applicable Period.

5. Erroneously Awarded Compensation: Amount Subject to Recovery

The amount of “**Erroneously Awarded Compensation**” subject to recovery under the Policy, as determined by the Administrator, is (a) the amount of Incentive Compensation received by the Covered Executive that exceeds the amount of Incentive Compensation that would have been received by the Covered Executive had it been determined based on the applicable Financial Reporting Measure after giving effect to the applicable Accounting Restatement, plus (b) any other compensation that is computed based on, or otherwise attributable to, the amounts described in clause (a). Erroneously Awarded Compensation shall be computed by the Administrator without regard to any taxes paid by the Covered Executive in respect of the Erroneously Awarded Compensation.

By way of example, with respect to any compensation plans or programs that take into account Incentive Compensation, the amount of Erroneously Awarded Compensation subject to recovery hereunder includes, but is not limited to, the amount contributed to any notional account based on Erroneously Awarded Compensation and any earnings accrued to date on that notional amount.

For Incentive Compensation based on stock price or TSR: (a) the Administrator shall determine the amount of Erroneously Awarded Compensation based on a reasonable estimate of the effect of the Accounting Restatement on the stock price or TSR upon which the Incentive Compensation was

determined; and (b) the Company shall maintain documentation of the determination of that reasonable estimate and provide such documentation to the New York Stock Exchange (“NYSE”).

6. Method of Recoupment

The Administrator shall determine, in its sole discretion, the timing and method for promptly recouping Erroneously Awarded Compensation hereunder, which may include without limitation (a) seeking reimbursement of all or part of any cash or equity-based award, (b) cancelling prior cash or equity-based awards, whether vested or unvested or paid or unpaid, (c) forfeiture of deferred compensation, subject to compliance with Section 409A of the Internal Revenue Code and the regulations promulgated thereunder and (d) any other method authorized by applicable law or contract. Subject to compliance with any applicable law, the Administrator may affect recovery under this Policy from any amount otherwise payable to the Covered Executive, including amounts payable to such individual under any otherwise applicable Company plan or program, including base salary, bonuses or commissions and compensation previously deferred by the Covered Executive.

The Company is authorized and directed pursuant to this Policy to recoup Erroneously Awarded Compensation in compliance with this Policy unless the Compensation Committee of the Board has determined that recovery would be impracticable solely for the following limited reasons, and subject to the following procedural and disclosure requirements:

- (i) The direct expense paid to a third party to assist in enforcing the Policy would exceed the amount to be recovered. Before concluding that it would be impracticable to recover any amount of Erroneously Awarded Compensation based on expense of enforcement, the Administrator must make a reasonable attempt to recover such erroneously awarded compensation, document such reasonable attempt(s) to recover and provide that documentation to NYSE;
- (ii) Recovery would violate home country law of the issuer where that law was adopted prior to November 28, 2022. Before concluding that it would be impracticable to recover any amount of Erroneously Awarded Compensation based on violation of home country law of the issuer, the Administrator must satisfy the applicable opinion and disclosure requirements of Rule 10D-1 and the Listing Standards; or
- (iii) Recovery would likely cause an otherwise tax-qualified retirement plan, under which benefits are broadly available to employees of the Company, to fail to meet the requirements of 26 U.S.C. 401(a)(13) or 26 U.S.C. 411(a) and regulations thereunder.

7. No Indemnification of Covered Executives

Notwithstanding the terms of any indemnification or insurance policy or any contractual arrangement with any Covered Executive that may be interpreted to the contrary, the Company shall not indemnify any Covered Executives against the loss of any Erroneously Awarded Compensation, including any payment or reimbursement for the cost of third-party insurance purchased by any Covered Executives to fund potential recoupment obligations under this Policy.

8. Administrator Indemnification

Any members of the Administrator, and any members of the Board who assist in the administration of this Policy, shall not be personally liable for any action, determination or interpretation made with respect to this Policy and shall be fully indemnified by the Company to the fullest extent under applicable law and Company policy with respect to any such action, determination or interpretation. The foregoing sentence shall not limit any other rights to indemnification of the members of the Board under applicable law or Company policy.

9. Effective Date; Retroactive Application

This Policy shall be effective as of December 1, 2023 (the “**Effective Date**”). The terms of this Policy shall apply to any Incentive Compensation that is received by Covered Executives on or after the

Effective Date, even if such Incentive Compensation was approved, awarded, granted or paid to Covered Executives prior to the Effective Date. Without limiting the generality of Section 6 hereof, and subject to applicable law, the Administrator may affect recovery under this Policy from any amount of compensation approved, awarded, granted, payable or paid to the Covered Executive prior to, on or after the Effective Date.

10. Amendment; Termination

The Board may amend, modify, supplement, rescind or replace all or any portion of this Policy at any time and from time to time in its discretion, and shall amend this Policy as it deems necessary to comply with applicable law or any rules or standards adopted by a national securities exchange on which the Company's securities are listed.

11. Other Recoupment Rights; Company Claims

The Board intends that this Policy shall be applied to the fullest extent of the law. Any right of recoupment under this Policy is in addition to, and not in lieu of, any other remedies or rights of recoupment that may be available to the Company under applicable law or pursuant to the terms of any similar policy, whether on a standalone basis or in any employment agreement, equity award agreement, or similar agreement and any other legal remedies available to the Company.

Nothing contained in this Policy, and no recoupment or recovery as contemplated by this Policy, shall limit any claims, damages or other legal remedies the Company or any of its affiliates may have against a Covered Executive arising out of or resulting from any actions or omissions by the Covered Executive.

12. Successors

This Policy shall be binding and enforceable against all Covered Executives and their beneficiaries, heirs, executors, administrators or other legal representatives.

13. Exhibit Filing Requirement

Subject to Rule 10D-1 and the Listing Standards, a copy of this Policy and any amendments thereto shall be posted on the Company's website and filed as an exhibit to the Company's annual report on Form 10-K.
